Charleston, S. C., slave dealers, in Abbeville County, who have been operating under the convict lease system, which was condemned in court a week ago, have made the first move by releasing twenty-one negroes who were held captive in the stockades.

Judge Bonet has declared the whole system will be exposed.

Drowned Her Six Children.
Colfax, Wash., Feb. 26.—Mrs. Rose Wurzer, a widow, in a fit of insanity yesterday, drowned her six children, aged from four to twelve years, at Uniontown, Wash. Two were boys and four girls. She threw them into a well 30 feet deep, containing two feet of water, then jumped in herself and held the heads of the children beneath the surface until all were drowned. Mrs. Wurzer was found alive in the well with her six murdered children, by the neighbors, who pulled her out with a rope.

A Minister's Experience.

So far as is known there is no other treatment for piles so wonderfully prompt and effective as Dr. Chase's Ointment. This preparation has never yet been known to fail to cure piles. It stops the itching at once, and positively and thoroughly cures piles of every form.

Rev. J. A. Baldwin, Baptist Minister, Arkona, Ont., writes:—"For over twenty years I was a great sufferer from itching and protracting piles. I used many remedies and underwent three very painful surgical operations, all without obtaining any permanent benefit. When about to give up in despair, I was told to use Dr. Chase's Ointment, and did so, finding relief at once. I used three boxes, and am almost entirely cured. The itching is all gone. I have advised others to use it, believing it would cure them, as it has me."

LIBERAL MAJORITY IS NINE.

The First Division in the House Was Taken on Monday.

Motion to Adjourn the Debate on the Beet Sugar Question Precipitated a Vote—Dr. Sproule Argues For a Bounty on Beet Sugar, Mr. Charlton Against—The Question Drawer Was Full—Answers as Given.

Ottawa, Feb. 26.—There will be we and lamentation, yea, and rage, among the active Liberal politicians throughout the Dominion to-day. The first division of the session has been recorded, and the Government's majority is only 9. Money has been put in every quarter of Canada upon the result of the first vote in the new House. No self-satisfied party worker who supported the Government would demean himself by betting on a majority of less than 50, and this is how his money will be lost. The division was on straight party lines.

How Vote Arose.
Mr. Fielding moved for the adjournment of the debate on the beet sugar question, and Mr. Clarke Wallace objected, challenging the motion as a repetition of the old policy of shelving this question. The Government rallied its followers, and the division bell rang out a long and frantic chime. But the Liberal whips were not able to avert the inevitable. The smallness of the majority surprised even the Conservatives, and they cheered again and again when the division was announced. Of course the explanation was that the Liberals were not on the premises and could not be produced by the whips.

Questions and Answers.
Yesterday was private members' day. The order paper was cleared of many questions.

Mr. Morrison was informed that when the militia were sent to Steveston, B. C., in July last, the expense was defrayed by the Militia Department, on account of exceptional circumstances.

Mr. Johnston learned that no Census Commissioner has yet been appointed in Cardwell.

Mr. Robinson heard that it is not the intention of the Government to appoint a Tuberculosis Commission.

Replying to Mr. Barker, Mr. Mullock said that the Pearl Street Branch Postoffice in Hamilton had been removed on account of considerations of convenience, and on that account Mr. Hull ceased to be Postmaster. There were no charges against the Postmaster, and the change is not recorded in the department as a case of dismissal.

Hon. Mr. Paterson was asked: "Is it true, as stated in the tables of the Dominion of Canada, that the fiscal year ended June 30, 1900, that fresh mutton and lamb to the value of \$14,194 was imported from Great Britain for home consumption, and that such mutton and lamb were the products of Great Britain?"

He answered: "The fresh mutton and lamb referred to in the statement were imported from the Australian Colonies, and by clerical error, were marked as imported from Great Britain."

In answer to Mr. Wilson Sir Wilfrid Laurier said no commission whatever had been received from the temperance people on the question of the Canada Temperance Act.

Col. Hughes was informed that it is not the intention of the Government to increase the G. O. C.'s salary to \$10,000, so as to attract to Canada a senior British general.

Replying to Col. Prior, Sir Richard Cartwright said that the number of Chinese allowed to land in British Columbia in 1900 was 4,212. Twenty-six were exempt from poll tax, and 896 left. There entered for transit in 1,592, and for transit out, 2,220. The poll tax collected was \$210,600. The number of Japanese for the year was 9,518, of whom 5,491 were for other than Canada ports. There is nothing requiring a record to be kept of the Japanese.

Mr. Clarke was informed that the volume of the Paris Exposition, distributed at the Paris Exposition, was presented by The Montreal Herald. There were 7,000 volumes at 64 cents each.

Mr. Clarke was also informed that, since June 30 last, \$1,066 had been spent in enforcing the Alien Labor Law.

Mr. Monk was informed that the Government had no intention of assuming the losses of the Ville Marie Bank depositors.

Mr. Clarke ascertained that there are no negotiations on, looking to the admission of Newfoundland into the Dominion.

The Premier informed Mr. Bruce that it is not the intention of the Government to make the 24th of May a statutory holiday.

Mr. Clarke asked: Is it the intention to amend the Tariff Act so as to deprive the advantage of the preference clause goods of German origin, which may be imported into the Dominion from England?

Hon. Mr. Fielding—No change in the law is necessary for the purpose stated. No goods are entitled to the preference except British manufactures or the products of British countries named in the act.

The Beet Sugar Bounty.
Dr. Sproule moved that, having regard to the large importations of sugar into Canada for home consumption, and that it has been demonstrated beyond a doubt that the cultivation of the sugar beet in the Dominion is not only feasible, but is being successfully grown in many parts of the country at present, therefore, in the opinion of this House, in order to stimulate the farmers of Canada to engage in the growth of this valuable product, and also to encourage the establishment of beet sugar factories, a bounty should be offered for all beet root

sugar manufactured in the Dominion during the next ten years.

He argued in favor of a bounty at considerable length, and gave a great number of statistics in favor of his contention.

Mr. Charlton argued against a bounty, but said that the industry would be a profitable one without a bounty, and all that was required was a little industry. He wanted a commission appointed to get all the facts.

Mr. Lebris (Maskinonge), speaking in French, strongly favored the bounty.

Hon. Mr. Fielding said that as he expected to bring down the budget at an early day, he did not think it expedient at the present time to make any other comment on the able addresses delivered, than to say that the subject is one of deep interest and great importance, and at the proper time the Government will be prepared to express its views. He moved the adjournment of the debate.

Mr. Clarke Wallace did not see why the resolution should be shelved by the adjournment of the debate. He challenged the Government to say whether it approved the principle set out in the resolution. He pressed for a division.

The Members Called In.
The members were called in with the following results: Years—Blair, Borden (King's), Bourbonnais, Britton, Calvert, Christie, Copp, Davies (St. Louis), Desmarais, Emmerson, Fielding, Flint, Fraser, Goffin, Gibson, Gould, Guthrie, Holmes, Hughes (King's), Johnston (Lambton), Lang, Laurier (St. W.), Lebris, Laurie (L'Assomption), Leblanc, Leves, Macdonald, Mackie, MacLaren (Huntingdon), McEwen, McHugh, McIsaac, McLennan, Malouin, Matheson, Maxwell, Meigs, Mignault, Reid, Morrison, Oliver, Paterson, Proby, Reid (Restigouche), Roche (Huffay), Ross (Ontario), Ross (Victoria), Russell, Scott, Sifton, Stephens, Sutherland (Essex), Sutherland (Oxford), Tarte, Thompson, Tomin, Turgeon, Wade, Wilson, Todd, 50.

Asthma.

You've tried almost everything for it, haven't you? And we presume you are about discouraged. Now what do you think of our idea of breathing in the medicine, bringing it right up to the diseased part? It looks reasonable, doesn't it? And it's successful, too.

When you inhale Vapo-Cresolene your breathing becomes easy, the wheezing ceases, and you drop to sleep. For croup and whooping-cough it's a quick cure.

Vapo-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a life, and a bottle of Vapo-Cresolene, \$1.50; extra supplies of Vapo-Cresolene 25 cents and 50 cents. Nobody could say the war was substantially ended while 200,000 men were engaged in the military operations. The Government, in the meanwhile, had investigated twenty painful incidents of surrenders, and ten had been dismissed. No officer returning from South Africa would be employed at home without Lord Roberts' and General Kitchener's recommendation. Scarcely a word passed without an officer being removed or otherwise punished.

MAJOR HOWARD'S DEATH.
Causes Much Regret in Montreal and Lachute Que.

Montreal, Feb. 26.—The news of the death of "Gat" Howard caused general regret here and in Lachute, where he had resided for some years past. Major Howard came to Canada in 1885, from New Haven, Conn., in charge of the now famous Gatling gun, with which he did excellent service in the Northwest rebellion of 1885, particularly at the siege of Batavia. After the rebellion had been put down Mr. Howard was instrumental in establishing the Dominion cartridge factory at Brownsburg, four miles from Lachute, and became first manager of the works.

Since severing his connection with the company he had interested himself with many industries, and at the time of his death he owned an extensive fishery industry, with headquarters at Halifax, and large pulp-mill works at Capetown, Que., supplying most of the leading cartridge and arms companies in America with the products of the Capetown works.

Montreal, Feb. 26.—At a citizens' meeting yesterday afternoon it was decided to erect a handsome memorial in Montreal in commemoration of the Canadian soldiers who went to South Africa, and to Lord Strathcona's services in equipping the Strathcona Horse. The statement, however, places all bonuses at the minimum rate of \$3,200 per mile.

The bonuses paid were as follows: In 1896 nil; in 1897, \$480,156; 1898, \$2,641,040; 1899, \$1,253,559; 1900, 1,509,119.
