During the fine weather of last week several farmers near Calgary sowed wheat as an experiment.

Makes many lives miserable, and often leads to self destruction. Distress after eating, sick head-ache, heartburn, sour stomach, mental depression, etc., are caused by this very common and increasing disease. Hood's Sarsaparilla tones the stomach, creates an appetite, promotes healthy digestior, relieves sick headache, clears the mind, and cures the most obstinate cases of dyspepsia. Read the following:

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did will little good. In an hour after cating I would experience a faintness or tired, all-gone feeling, as though I had not eaten anything. Hood's Sarsaparilla did me an immense amount of good. It gave me an appetite, and my food experienced. It relieved me of that fains, weed, all-gone feeling. I have felt so much better since I took Hood's Sarsaparilla, that I am happy to recommend it." CHESS.

"Mr. Blackburne," says the Hereford Times, "visited the Leamington Chess Club last week, and on Monday evening played 22 players simultaneously and won every game—a remarkable record. On Tuesday afternoon he contested six games simultaneously and blindfolded and won four and drew two with! Messrs. Aspa and Mason." Anent this performance a Leamington paper writes: "To fairly appreciate the brainwork involved in this great feat it must be born in mind that, as the games averaged 30 moves each, 360 positions had to be recalled mentally during the sitting, in which, while realizing the possibilities of each one, some thousands of moves had to be conceived, analyzed and determined upon. Chess players only can estimate the labor justly. Though somewhat tired after the performance, Mr. Blackburne soon recovered, and in the course of the evening amused some friends by playing over the whole of the games from memory, his running commentary on the play being a rare treat. An amusing chance happened to the lady who so bravely took part in this tourney. Intent on the play being a rare treat. An amusing chance happened to the lady who so bravely took part in this tourney. Intent on the veneral side of her game, she forgot that a rook on the king's side was left en prise of a bishop. On this being pointed out, she whishered, 'hush! perhaps he'll not see it.' But the blindfold champion saw it only too clearly 'in his mind's eye,' and the unfortunate rook was laid low."
