## We Have Learned

To look on trade from the public's point of view. It is an absolutely bad thing for us to sell you a wrong article, or to have you keep a thing you are not satisfied with. A bargain benefits both seller and buyer, or it is not a real bargain. And a real bargain is such, whether it be a patent leather dress boot, that meets your need and your liking at its regular price, of four dollars, or a dollar and a half shoe you really need, and which by chance we may sell at a third less than its worth. This different shoe store is common ground, where a continually-increasing number come to find a continually-improving collection of footwear.

Our ways are easier appreciated than explained.

# Ebullition in Southern China

## The Wealthy Chinese Hurrying Away From Canton.

**Jesuit Fathers and 100 Native Christians Murdered in the Southern Part of Chi Li—Admiral Seymour's Position—Large Chinese Force Proceeding to Pekin—How Tien Tsin Was Relieved.**

London Wednesday June 27—3:45 a.m.—The Jesuit fathers and 100 native Christians have been murdered in the southern part of the province of Chi Li.

A fresh phase of the ebullition in China is the probability of immediate outbreaks in the great southern provincial centers. The populace there is daily assuming a more hostile attitude towards foreigners and the latter perceive symptoms of a general rising, especially at Nanking, where, according to a dispatch to the Daily Express, dated yesterday, Kang Wu, one of the most truculent enemies of foreigners, has arrived by way of the Grand Canal, armed with full powers from the empress to deal with the southern provinces. The friendly attitude of Viceroy Liu Kun Yih towards foreigners has brought him into disgrace with Prince Tuang, president of the Tsung Li Yamen.

UNREST AT CANTON.

The unrest at Canton is described by a dispatch from that city to the Daily Telegraph, dated Monday, via Hong Kong, yesterday: "It is feared that we are on the eve of a scene of bloodshed and anarchy in the two Quangs only paralleled during the Tai Ping rebellion. The signs of a murderous uprising are so manifest that wealthy Chinese are hurrying from Canton and the vicinity, taking their wives, families and valuables.

LI SENT TO PEKIN.

"Li Hung Chang has been again peremptorily ordered to Pekin. His enemies declare that they will murder him before he can reach there. His presence alone restrains the revolutionary elements here. His departure will let loose the Black Flags and Red Girdles. Knowing this, Li's trusted officers are sending their families to Hong Kong. The viceroy himself trusts the Americans in this crisis. He says that they alone want no territory, and the places himself largely—almost unreservedly—in their hands.

"All the missionaries have been notified through the medium of runners. They are leaving Canton hurriedly, and only a few are now here.

"Commander McLean, of the United States steamship Don Juan de Austria, is the first here to protect foreign interests. He is capable and energetic, and is reinforced by her majesty's ship Red Pole. Two hundred foreign residents of Shameena are armed. The Canton population reaches 2,000,000, in addition to 250,000 living on junks and sampans (flat-bottomed river boats). Most of these people are disaffected, and incendiary proclamations are increasing the number of the virulent."

THE RELIEF OF TIEN TSIN.

A Che Foo dispatch, dated June 26, says: The Americans and British entered Tien Tsin, first silencing the guns of the arsenal and breaking through the Chinese lines. The foreigners were close behind. The Russians lost four killed and 30 wounded. The losses of the other nationalities were small.

WHERE SEYMOUR IS.

Admiral Seymour's force is about ten miles from Tien Tsin. It is surrounded by Chinese troops and Boxers, and hampered by the presence of sick and wounded. It is reported that all foreigners were sent from Pekin with a weak Chinese guard, and it is assumed that they are with Admiral Seymour.

A Washington telegram says: This is the first word of any kind that has located the party of 2,500, under Vice-Admiral Seymour, and including Capt. McCalla, with about 100 United States marines.

In Admiral Kempff's information it discloses that Admiral Seymour's force, last heard of at Lang Fang, short of supplies and water, and with a menacing army of Chinese about it, retraced a good part of the distance previously covered, and is now back within ten miles from Tien Tsin. The distance from Tien Tsin to Lang Fang is 55 miles, and to Pekin about 80 miles. It is to succor this party that the latest expedition left Tien Tsin on June 24, according to the closing words of Admiral Kempff's report. The first body of foreign troops, about 450 in number, and including 56 American marines, which went to Pekin to guard the legations, is thought to have gotten through.

JAPS LANDING AT TAKU.

A Che Foo dispatch says: One thousand Japanese are landing at Taku, and 2,000 more are expected tomorrow, when a battalion of French is also due.

The Netherlands cruiser Holland has left Java for Che Foo.

Shanghai cables say that the French consul there has received a telegram from Shang Tung asserting that 11,000 Chinese troops are making a forced march from Shan Tung to Pekin.

WANT AN ALLIED ARMY OF A HUNDRED THOUSAND.

The foreigners everywhere are urging the immediate concentration of an army of 100,000 men, or at least 50,000 men, for an advance on Pekin. Many persons familiar with the Chinese character think the foreign ministers and Vice-Admiral Seymour are held as hostages for good terms of settlement. They also believe the whole Chinese army is joining in the movement, under the leadership of Tung Fu Hsiang, who crushed the Mohammedan rebellion. Recently he was nominally degraded for the purpose of organizing an anti-foreign rising quietly.

A great naval demonstration at all the treaty ports is also said to be desirable in order to influence the wavering Chinese merchants who are friendly to foreigners. The masses are becoming excited at the reports of their countrymen's successes against the powers. Merchantmen arriving here report that the Boxers are drilling in the streets of New Chwang, and that when officials inspected the soldiers, with the view of suppressing the Boxers, they found the soldiers had sold their rifles and equipments to the Boxers.

CHINESE FORCE 400,000 STRONG.

It is estimated that 60,000 soldiers, well armed, but poorly disciplined, are about Pekin and Tien Tsin. The Chinese officers boast that they have 400,000 soldiers.

Seymour's force carried a week's rations, and the men had an average of 150 rounds of ammuntion.

RUSSIANS ARE WILD.

The Russians' conduct at Taku, according to the other officers, inflamed the natives. The Russians are reported to have been shooting the Chinese indiscriminately, and driving away the peaceful Chinese, who would have procured transportation and provisions, and to have looted the town.

MISSIONARIES IN DISTRESS.

There are about 150 American and British missionaries at Che Foo. They are short of money and clothes. United States Consul John Fowler's ship is expected to bring 50 missionaries and French priests from the mouth of the Yellow River, whither they are flocking from the interior. The commander of the Chinese cruiser Hai Chi, at Teng Chow, offered Mr. Fowler to go to the relief of the missions at Yang Chie Kiang if assured of protection.

DISCORD AMONG ALLIES.

The officers of the British first-class cruiser Terrible assert that discord exists between the Russian and Anglo-Americans, and say they believe the Russians are planning to break the concert and take possession of Pekin independently. They assert that Vice-Admiral Seymour's command lacked unison, the foreigners sulking because they were under British leadership. They bitterly denounce the general conduct of the Russians as uncivilized and barbarous, and charge that the slaughter of peaceful Chinese at Taku has aroused the otherwise passive natives against the foreigners.

## In the Commons.

GOVERNMENT STATEMENT.

London, June 26.—Replying to a question of Sir Ellis Ashmead Bartlett (Con.) in the House of Commons, the first lord of the admiralty, Mr. George J. Goschen, admitted that owing to the absence of the senior British admiral, the Russian admiral was the head of the international forces on water.

Mr. William St. John Brodrick said: "We have no direct information from the legations of Admiral Seymour's force, or from Tien Tsin. Our last information from the officer in charge at Wei Hai Wei is that 3,000 of the force for the relief of Tien Tsin was encamped within nine miles of Tien Tsin on the evening of June 23. From private creditable sources we are informed that the relief force subsequently entered Tien Tsin and marched north, and that the legations were not harmed up to June 20. We earnestly hope this is true."

# Seymour

**Connection Opened Between the Admiral and the Relief Column.**

London, June 27.—A special from Shanghai, dated last evening, says that communication with Admiral Seymour was opened by the Tien Tsin relief force Sunday. Admiral Seymour was at that time said to be ten miles from Tien Tsin. Three hundred of the members of his party were reported sick, and wounded, and only a few had betn killed. They were short of provisions, and were returning without having rescued the legations.

Shanghai, June 27.—A German paper has an uncredited statement to the effect that Admiral Seymour is eight miles from Tien Tsin, with 62 killed and 200 wounded.

PROTESTANT MISSION BURNED.

London, June 27.—A dispatch from Tien Tsin dated yesterday says that the Protestant mission at Weihsien was burned down by rebels last Monday night.

JAPAN'S CONTRIBUTION TOWARDS OUTLAY.

Yokohama, June 27.—The emperor has sanctioned an outlay of 15,000,000 yen towards the cost of military operations in China.

It is reported in Seoul that there is increasing hostility toward Christians in Corea. Corea, it is said, repudiates the land contract which gave to Russia a site for a coal depot and a naval hospital, as Russia wished to apply towards the price the amount of the pending claims against Corea.

MISSIONARIES LEAVE PEKIN UNDER ESCORT.

Paris, June 27.—The French consul-general at Shanghai, telegraphing under date of yesterday, announces that the allied troops have entered Tien Tsin. He also states that the foreign ministers have departed from Pekin for the north, accompanied by a Chinese escort, The viceroy of Nankin and the viceroy of Tihang Gtchetong have requested the consul to announce to the French Government that they are protecting the interests of some of the missionaries and some of the foreign merchants in that region.

A Yang Tse telegram of the same date states that the French consul at Che Foo confirms the news of the deliverance from Tien Tsin, and the fact that the foreign missionaries left Pekin under an escore.

# LABOR MATTERS

**End of the Long Strike in Chicago Seems in Sight.**

**The Ironworkers' Conference Will Affect 40,000 Men.**

Chicago, June 27.—At 2:15 this morning the Bricklayers' Union withdrew from the Building Trades' Council. It is said this marks the practical ending of the strike that has been in progress for months, tying up building operations in Chicago, and keeping many thousands of men idle. This afternoon the arbitration committee of the bricklayers will meet the arbitration committee of the Chicago Masons' and Builders' Association, and sign a working agreement to extend to April, 1902, and the bricklayers will immediately be given work. As the bridge and structural iron workers, gas fitters, plumbers, plasterers and hod carriers have been on the verge of quitting the trades council for over a week, they will now in all probability follow the course of the bricklayers. The bricklayers have a membership of over 3,000. The strike has lasted from October, 1899, until June, 1900, involving a loss in wages to laborers in and within a radius of 100 miles of Chicago of over $150,000 a day. About 50,000 men are said to have been idle most of the time. Not since the great railroad strike of 1894 has there been a strike in this country which approached the proportions of the amalgamated building trades in Chicago. It began, practically Oct. 1, 1899, but for more than a year prior buildings had been constructed under unsatisfactory conditions, and at a cost vastly higher than was warranted.

FORTY THOUSAND IRON MEN AFFECTED.

Detroit, June 27.—An important conference between the Amalgamated Association of Iron, Steel and Tin Workers and the chief officers of the two big iron and steel trusts, the Republic Iron Company and the American Steel Hoop Company, is being held in the Union Trust building, the outcome of which is eagerly watched for by nearly 40,000 men throughout the country. So far the conferees are now no nearer a decision than they were before. Yesterday was spent in discussing the "puddling and finishing" scale. It seems now more than likely that the conference will adjourn without taking any action, and it will be necessary to call another conference for some future date.
