Local C. P. R. Trackmen Are Standing by Company.

Railway Officials Profess to Believe That the Company Has Been Unfairly Treated by Men.

In the London district of the C. P. R. there are 120 trackmen who attend to about 144 miles of tracks. The officials here claim that this is one of the best districts for the company along the whole line, and say that there are more than a third of the men who did not join the strike at all. Only nine trackmen work in the immediate vicinity of London, and every man of them is standing by the company. Among them there are but two men who belonged to the union—there is no local union—and they, with the rest, seem to consider that the wisest thing to do is to stay on the tracks.

"How do you account for the men in this district staying at work. Have they not the same grievances as the others?" C. P. R. men was asked to-day.

"Yes, I suppose they have, if there are grievances," he replied. "They likely see that it's the best thing to do. For myself, I don't understand why they should go out on the C. P. R. at all. The union is asking \$1.50 a day. Well, that is all right—but why did they pick on the road that is paying more now than any other? Why didn't they strike on other roads that pay lower wages, instead of the road that pays them most? That's what I don't understand. I believe that that very fact has weakened the strike, even among the men themselves."

The tracks in this district, from Woodstock to Windsor, are now in splendid condition. They are patrolled every morning, and every care is taken. Roadmaster Ross, of this city, has been up and down the line continuously since Monday morning, holding the men together where possible, and looking carefully after the state of the road.

Board of Works Favors Anti-Spitting Bylaw.

Many Matters Considered by Committee and Sent to the Engineer.

City Engineer Graydon's anti-spitting crusade did not end with the "don't spit" signs. Last night he again brought the subject to the attention of the board of works. He mentioned the evils of expectoration, as evidenced especially at the corner of Dundas and Richmond streets, where so many people wait for cars, and suggested that the city favor a bylaw prohibiting spitting on the streets, if it were only Dundas and Richmond.

Ald. Parnell's motion to enforce such a bylaw between the G. T. R. tracks and Maple street on Richmond and between Ridout and Wellington on Dundas will go before the council. The engineer will consider and report upon the following matters that came before the board: Manager C. E. A. Carr's letter, re double-tracking Railway street; the condition of the road and a dump on Trafalgar street; the bad repair of the Wyatt street breakwater, West London, and improvement of the speed of cars on Ridout street, near the Bridge.

The board will inspect the west side of Colborne between Cheapside and Grosvenor, where Mr. Thompson, a ratepayer living there, said that the walk was being torn up when it should be left, and that road grading is required.

The ratepayers on Dundas street, between Wellington and Waterloo, will be invited to meet the committee on Tuesday afternoon at 4 o'clock regarding the construction of a permanent pavement to replace the blocks.

Chairman Winnett and Mr. Graydon will confer with Manager Carr regarding the speed of cars on Ridout street, near the Bridge.

City teamsters, who are now using only quarter-cord boxes are claiming the pay for one-third cord boxes, that is \$3.50 a day.

Engineer Graydon stated that the teamsters working for contractors ten hours a day, and using one-third cord boxes were receiving only \$3 per day. The committee decided that teamsters using the one-third cord boxes receive the \$3.50 per day as heretofore, otherwise they will be paid \$3 for their day's work.

Petitions were received from John P. Chapman for a cement walk on the east side of Wharncliffe road, between Alexander and Kensington streets, and from Ald. Campbell for a cement curb on the north side of Central avenue, between Richmond and Wellington streets. Both petitions were signed by a sufficient number of ratepayers, and will be advertised in the usual way.

Rich and Heavy Food
 VERSUS
Malt Breakfast Food.

It is unwise to fill the stomach with rich and heavy food which takes all the energy of the body for its proper digestion. Malt Breakfast Food furnishes the greatest amount of nutriment and energy for each day's work, and does not exhaust existing energy. For summer breakfast there is nothing equal to Malt Breakfast Food. Your Grocer sells it.

Mr. Malcolm McCormick has purchased from Mr. J. Sharp, the Guelph Business College, and will take possession on or about July 1.

Bay City Times: John Ballentyne died very unexpectedly Sunday afternoon at his home, 3100 Main street. Just a week ago he was taken ill at Spanish River, Ont., where he was employed by the Spanish River Lumber Company, and reached Bay City Thursday. His condition was not considered to be serious. Pneumonia set in, however. Mr. Ballentyne continued to fail until relieved of his sufferings by death. He was a member of Blanchard Chapter, R. A. M., and Joppa Lodge, No. 315, A. F. and A. M., and also a prominent member of the First Presbyterian Church. The deceased is survived by a widow, but no children. The remains were taken to Galt, where they were interred in the family burial lot.
