"The tender ship," cried Sally Brown; "What a hardship that must be!

Oh! would I were a mermaid now.
For then I'd follow him;
But oh! I'm not a fish woman,
And so I cannot swim.

Alas! I was not born beneath
The Virgin and the Scales,
So I must curse my cruel stars,
And walk about in Wales."

Now Ben had sailed to many a place That's underneath the world; But in two years the ship came home, And all her sails were furled.

But when he called on Sally Brown,

"Oh, Sally Brown! Oh, Sally Brown!
How could you serve me so?
I've met with many a breeze before,
But never such a blow!"

And then he tried to sing "All's Well,"
But could not, though he tried;
His head was turned—and so he chewed
His pigtail till he died.

His death, which happened in his berth

THE LONDON ADVERTISER COM-

PANY (Limited.) LONDON, ONTARIO. London, Wednesday, July 30.

Canada's Good Fortune. The flood of emigration to the United States is at high tide. An American paper notes that the vast majority of the immigrants are a class that will not till the land, but swarm to the cities, depressing the labor market and the standard of living, extending the slum areas, imparting squalid conditions of life, and further complicating the problems of municipal government. The probable influence of these elements on the character and the social and industrial interests of the urban population of the United States is a theme for serious reflection.

The volume of immigration into Canada is also greater than at any period in her history, and in character it presents a very pleasing contrast to that of the United States. All but a fraction of the new population is seeking the soil. The majority of our immigrants are practical farmers from the United States, who bring not only experience, but capital, and who become producers and add to the wealth of the country as soon as they set foot in it. Next to the United States, Great Britain sends us the largest number of immigrants, and these, with few exceptions, go directly on the land. The remainder of our immigrants come largely from Austria-Hungary, and these are also farmers. This influx of an agricultural population will, of course, react on the cities and towns by fostering a steady, natural and healthful growth, in obedience to the law of supply and demand. Canada can absorb the land-seekers of other nations, but she would rather be without great cities if they reproduced the conditions which prevail across the

The North Leeds Election.

The bye-elections in North Leeds yesterday, converting a Unionist majority of 2,517 into a Liberal majority of 558, is ominous for the Government. North Leeds is a working class constituency, like Bury, which also turned its back on the Administration a few weeks ago, though' it was thought to be invincibly Tory. In both cases the result is attributed chiefly to the grain duties. Evidently the Librals have made full use of the dear oread cry, and these successes will encourage them to keep up the agitation. There is not much comfort in this for the advocates of Imperial preferential trade. Any system of mutual trade preference presupposes a corn tax of some kind in Great Britain, and until the question ceases to be a football for British politicians, there can be no permanent or stable arrangement, as a scheme formulated by one party might be overturned by the other. Imperialism on the sentimental side would also suffer under such a condition of affairs. With the Liberals appealing to the mercantile interests in the name of free trade, and to the masses in the name of cheap bread, the colonies would be drawn into the domestic polities of the mother country; they would be in the position of antagonizing a large body of British opinion, and would be charged with selfish motives. This is by all means to be avoided, as sympathy and affection are the strongest bonds of Empire, not treaties and protocols. Meanwhile, the fact remains that the Liberal party of Great Britain is making the corn tax the main issue, and is winning byeelections by attacking the basis of a

scheme of preferential trade. That Popular Majority.

In every public utterance by Mr Whitney since the general election he has never failed to say that the Op position had "a popular majority o over 7,000." The Mail and Empire the author of this fiction, which wa first published on June 6th. If Mr. Whitney had taken the least pains to verify the figures upon which his organ based the statement, he would not, if he is an honest man, repeat it Great Britain, particularly against day after day. Errors in the Mail and Mr. Chamberlain, who was represented Empire's table of majorities may be as a fiend incarnate. It is refreshing detected at casual glance, while a close to read the following from a representscrutiny shows that a wholesale de- ative German paper, the Wiener ception has been practiced. The Perth Allegemeine Zeitung: Courier has turned on the microscope and exposes this deliberate juggle. For instance, the Liberal majority in South Renfrew was given as 500 while the actual majority was 874. The Liberal majority in Stormont was given as 250 while the true majority was 386. The Liberal majority in Parry campaign recently waged against Mr. Sound was given as 200 while it was Chamberlain. Is this last action of his was 386. The Liberal majority in Parry In fact 559. The Liberal majority in William and Lake of the Woods was similar character by which the Libtral majorities were reduced, while "errors" by which at the same time the Conservative majorities were augmented were strewn through the Mail's columns of figures. In Center Grey the Conservative candiate was elected by acclamation, and the Mail claims the plurality of 1,098 secured by Mr. Lucas, the member elect, in a triangular fight with the Patrons in the previous election. In the election of 1890 the Con-

only 143, and in 1896 a plurality of 112. Then take the riding of Dufferin. The fight there in the recent election was between a Conservative and Conservative prohibitionist. The Mail put the latter down as a Liberal and claims the majority of 1,069 as the true Conservative majority over the Liberals of the riding. It repeats this trick in West Simcoe, where the fight was between a straight Prohibitionist and a Conservative, and adds the majority of 977 to its alleged popular Conservative majority. As a matter of fact, the Conservatives in 1894 were beaten by a Patron; the constituency is represented at Ottawa by a supporter of the Liberal Government, and never at any time had the Conservatives a majority of 500 in the riding at the provincial elections. Then look at its juggling with the Ottawa figures. There each voter has two votes. One of the Conservative candidates obtained a majority of 624 and the other 576 and the Mail puts down in its "popular majority of the voters" the two majorities, making 1,200 while only 600 voters are represented in the majority. In Oxford, a life-long Liberal ran as an Independent Liberal and Temperance candidate, and polled 1,150 votes. These the Mail says have no part in the Liberal column, and it excludes them. It does the same with 197 votes polled by a second Liberal candidate in East Kent. Then again, in its claim respecting an alleged Conservative popular majority it ignores and sweeps aside 5.157 votes polled for the 14 Independent candidates in various con-

The Courier concludes that Mr. Whitney has no popular majority at all. If he has any surplus at all it is very small, and he has no reason to complain that the constituencies are not fairly apportioned between the two parties.

stituencies

In raising the salary limit for marriage it is quite evident the Bank of

Montreal did not consult the ladies. General Kitchener is no hero with the Hamilton Spectator now that he has praised a French-Canadian in dis-

Mr. Whitney has been invited to a harvest-home in Carleton county, and a contemporary rises to remark that he is some pumpkins yet.

The Toronto Telegram concludes that asphalt makes the best roadway. That suppleness when the individual is may be, but a satisfactory roadway about forty years of age. The scale may be, but a satisfactory roadway has yet to be discovered.

Australia has had seven years of drought and Canada has had nearly seven years of moisture rolled into Why doesn't Nature equalize these things?

Mr. Chamberlain says that so much Transvaal land is lying idle that the colony can only be made a great corn producing factor by bringing in British settlers. Any British settlers who prefer the African veldt to the Canadian prairie will never make a success of agriculture.

The London County Council seriously proposes an expenditure of thirty milion dollars on improving docks and harbor facilities. Most people have the idea that Liverpool is the greatest port of the United Kingdom, and they will be surprised to hear London is still a long way in the lead. In the amount of tonnage cleared last year, London comes first with 17,205,645 tons, Cardiff second with 12,747,075 tons, and Liverpool third with 12,172,625 tons.

U. S. Congressman Griggs has been investigating the effects of the tariff in connection with the trusts and finds | you has skill back of 'em. The German press is beginning to see British conduct in a different light. During the South African war it waged the vilest campaign against

"When we read in today's telegrams that Mr. Chamberlain, with the arguments of an honorable, liberal minded, modern politician, simply refused the petition presented to the British Government by a portion of the Cape Parliament, begging that the constitution of Cape Colony might be temporarily suspended, we call to mind the flerce 817. The Liberal majority in Port in keeping with the character of the minister as portrayed by so many Germans? Not in the least. * * * This mans? Not in the least. * This spirit of the English people, recogniz-East York was given as 250 while it ing, as it does, freedom as its only was 322. The Liberal majority in Fort principle, proves better than anything else that it is capable of maintaining and assuring its dominion over the left out altogether while it was 362. world. The recognition of this fact, There were many other "errors" of a however, should finally convince those who still induge in laments for the downfall of the Boers that the lot of the Boers is by no means so pitiable We wish that there was all over the world, inluding Germany, such sensible freedom as is to be found in the English colonies, and in which the Boers will participate after their subjection."

The Limit.

[Ottawa Journal.] present appearances the servative candidate had a majority of bilt.

.. Poems the World Has Read.

Faithless Sally Brown.

Thomas Hood. This is one of Thomas Hood's best known humorous poems and is a typical example of the kind of verse that he absolutely created. He was the most prolific and successful punster that ever used that form of wit and his poems written in this vein have all ways been highly popular.

Young Ben, he was a nice young man, A carpenter by trade; And he fell in love with Sally Brown, That was a lady's maid.

But as they fetched a walk one day They met a pressgang crew; And Sally she did faint away, Whilst Ben he was brought to.

The boatswain swore with wicked words, Enough to shock a saint, That, though she did seem in a fit, 'Twas nothing but a feint.

'Come, girl," said he, "hold up your head He'll be as good as me; And when your swain is in our boat A boatswain he will be."

So when they'd made their game of he And taken off her elf,
She roused, and found she only was
A-coming to herself.

"And is he gone, and is he gone?"
She cried, and wept outright;
"Then I will to the water side, And see him out of sight.'

A waterman came up to her; "Now, young woman," said he,
"If you weep on so, you will make
Eye-water in the sea."

"Alas! they've taken my beau, Ben,
To sail with old Benbow";
And her woe began to run afresh,
As if she'd said Gee woe!

Says he, "They've only taken him To the tender ship, you see."

One Way to Avoid It.

[Judge.] "Dearie," said Mrs. Loveydovey, "I see in the paper that a man out west has had his stomach removed. I wonder why?' "I suppose," said Mr. Loveydovey, "that his wife persists in trying to cook all the new-fangled things she

reads about in the recipe department of the Ladies' Home Weekly." The Man Without the Hos

[Country Life in America.] he's the man to pity and point the who hath no place to plant a seed and help to make it grow—
Whose heart is brick and mortar,
Whose life is soulless barter—
A million miles from God's sweet world—
the man without the hoe.

When Hands Grow Old. [Pearson's Weekly.]

According to Sir James Crichton Browne the hand begins to lose its of wages in the button trade, for example, is a good indication of this ten-dency of the hand to grow old so early in life. At his very best, in his prime, a skillful buttonmaker can make 6,240 ivory buttons per day on his lathe. For this he receives forty-five shillings week. At forty-five years of age it is only the exceptional man who can make more than twenty-eight shillings & week. When the workman is sixtyfive years of he can seldom make more than twenty shillings, this providing that he still enjoys sound health.

Go Right On Working.

Ah, yes, the task is hard, 'tis true,
But what's the use of sighing
They're soonest with their duties through
Who bravely keep on trying.
There's no advantage to be found
In sorrowing or shirking;
They with success are soonest crowned. [Nixon Waterman, in Success.]

'hey with success are soonest crowned Whe just go right on working. Strive patiently and with a will That shall not be defeated: Keep singing at your task until You see it stand completed. let the clouds of doubt draw near, Nor let the clouds of doubt draw near, Your sky's glad sunshine murking; Be brave, and fill your heart with cher, And just go right on working.

Good Intentions.

[Washington Star.] "Don't trust too far to yoh good 'ntentions," said Uncle Eben, "unless tions satisfies de man what has 'em, but dey is de ruination of a heap o'

A Souvenir of Palmy Days. [Boston Transcript.]

Paying Teller-Sorry to say it, but there are no funds. Man (at window)—Then you mean to say this check is good for nothing? Paying Teller-Oh, no, I wouldn't care to go as far as that! It might be of value to you as a memorial or keep-sake; but it isn't what—er—you'd call negotiable, you know.

The Farmer of Today.

[Washington Star.] Sing a song o' dollars-that's the song fur Let me hear the music as they jingle light and free.
Once upon a time I had to sing about the breeze, An' likewise 'bout the bees an' trees an'

all sech things as these.

You see, I thought that singin' of familiar joys an' small

Was better by consider'ble than not to sing at all.

But now we've raised the mortgage, and we've got new clothes to wear,
An' we're gettin' anything we want upon the bill o' fare.

I ain't dependin' on the birds fur music nowadays.
I go to town an' pay my way to the theay-ter plays.

I ain't forgot the blossoms that's anoddin' on the lea:
But sing a song e' dollars; that's the
song fur me.

Diamond Cut Diamond.

[New York Sun.] Knicker-I'm taking lessons in clog

dancing. Bocker-Good heavens! Have you gone crazy? Knicker — Almost. It's the only way I can get even with the fellow below, who practices on the cornet.

The Sea Serpent.

[Dundas Banner.] The sea has whales and the land has elephants. Why should anybody doubt the existence of great water snakes? Nobody thought there was such a thing as a devil-fish when Jules Verne wrote in his novel about one, but it was only a few years until a real devil-fish was discovered on the coast of Newfoundland, and now the devilfish is no longer an unknown denize of the deep. It may be so before long with the sea-serpent. Somebody will succed in capturing one and will go and get a local justice of the peace and make an affidavit as to its length and girth and the size of its head, and then the much-disputed question of the existence or nen-exist-ence of the sea-serpent will be settled Northwest harvest this year will be worth nearly as much as a Vander- of an inland town like Chatham?

represented by "An Error of Judg-ment," by Felix Nuel; "From Jerusa-lem to Jericho," by Clinton Scollard, who is very much better known by his

charming verses than by his short stories; "The Subjugation of Molly," by Ethel Sigsbee, and "Hedge-Cows," and "Jane," by Rosamond Napier,

both of these stories being very amusing little tales of lovers' quarrels, which end as all lovers' quarrels end in fiction, happily; "In the Summer of Saint Martin," by James Branch Cabell; "As Arranged by Richie," by Louise Winter; "On Behalf of Dor-inda," a charming story by Elizabeth Duer; "Jamais Seuls," by Edith Bigelow, and a pretty little French

story by Anatole France. There is a very funny little skit on "The Drama of the Future," by Joseph P. Healey, and the usual number of clever epigrams and dainty poems which are so characteristic of the 'Smart Set."

The midsummer fiction number of Frank Leslie's Popular Monthly is interesting and readable from cover to cover. The frontispiece is an excellent portrait, in colors, of Otis Skinner as Lanciotto in "Francesca da Rimini," and is accompanied by a sketch of his career as an actor by Frankline E. Fyles.

An instructive article on "Birds of the Farthest South," by C. E. Borch-grewick, discoverer of the Antarctic continent, is followed by a humorous story by A. T. Quiller-Couch. "Angela the Superfluous," is one of those delightful children's stories which are as much appreciated by 'grown-ups" as the children, and re-

Harvey J. O'Higgins, who received the foundation of his education at the London Collegiate Institute, and who is very well known here, has a very fine story, "A Convulsion of Nature," describing the circumvention of a scheming cad by the younger brother of the woman the cad is to marry. Robert Barr, whose writings always have a special interest for Londoners, the Baroness von Hutten's delightful has utilized Marconi's next invention,

veals a truly wonderful comprehension

of the yearnings of a small girl.

story, "Our Lady of the Beeches," it wireless telephony, as the motif for a opens with a powerful "fisher" story by Norman Duncan, "In the Fear of the Lord," and includes attractive and very modern love-story. A dainty story of Japanese life by Quoto Waterman; a new tory by the author of "Dodo"; a village tale love by Harriet Prescott Spofford; a story of life in Chicago's prison for juveniles, by Thomas W. Steep; a stirring ballad by Joseph Mills Han-Entertaining literary contributions are also a noteworthy feature of the son; the serial story by William Macnumber. Edmund Gosse contributes a Leod Raine and various minor poems timely paper on "The Revival of Poetic and stories combine to form a warrent and w Drama"; Martha Baker Dunn, a charpleasant and interesting number of the
