\*\* ATTACK ON SAN CARLOS HAS CREATED A COMMOTION

> Orders Were Given for the Bombardment.

Berlin, Jan. 22.-Neither the foreign office here nor the navy department has received reports of the bombardments of Fort San Carlos. At both places it is said no orders were given to bombard the fort. The naval officials admit they know the Vineta was proceeding to Maracaibo, but they did not anticipate a bombardment. The foreign office regrets extremely that it is unable to publish a report on the subject, due to the fact that it is wholly without information, through defective means of communication by way of Curacoa, and owing to the German consul at Maracaibo being cut off from reporting by cable to the authorities at Berlin. The officials admit that the incident is likely to "renew anti-German agitation in the United States," and say they recognize basis.

Berlin Naval Officials Say No the disadvantage Germany is placed in through the impossibility of getting prompt reports from Venezuela. The foreign office does not even know what was the purpose of the Panther in its first action against Fort San Carlos.

The German Government has received a communication from its charge d'affaires at Washington saying Minister Bowen has seen the representatives of the allies separately. The foreign office admits that the sub-ject discussed was the raising of the

blockade, but the officials here decline to make any further statement. London, Jan. 22.-Diplomatic circles here are much aroused by the news of the bombardment, but the officials of the various embassies seem equally as ignorant as the foreign office re-garding its cause. The belief prevails that the step taken by the German commander will seriously delay the settlement of the questions in dispute. There are many indications that the blockade will not be raised for the present and that the negotiations at Washington will proceed with perhaps a modified form of blockade or some similar arrangement as the preliminary

Crews of Both Trains Jumped-The | flon. Dr. Montague's Place Taken by Wreckage Took Fire-The Dead.

Port Hope, Jan. 22.-In the collision beween two freight trains on the G. T. R. last evening (mentioned elsewhere), between this place and Newtonville, a station 71/2 miles west of here, the victims were: Fireman Matthews, of the eastbound freight, residence Little York, and

Brakeman Everist, of the west-bound freights, residence Little York. Conductor Preston, of the west-bound train, was slightly injured.

This enabled the west-bound train's by be somewhat checked, but the momentum of the other freight on the down grade was too great to allow of its stopping. The crews of both trains jumped on perceiving that a collision was inevitable, but the two men killed and the conductor were caught in the wreckage. About a score of cars were smashed up, while both engines are but shapeless masses of twisted steel.

It is stated that the cause of the acci-

dent was neglect of duty on the part of the operator at Newtonville. He had, it is said, orders to hold the east-bound freight at his station until the west-bound train had crossed it there. This order, it is alleged, he failed to deliver, with the result that the east-bound train proceeded and met the other.

That people are becoming aroused upon the subject of the teeth, can be seen from the employment of 25,000 dentists in Canada and the United States. According to the best authority there is packed into cavities in teeth no less than 2,000 pounds of pure gold, costing over \$1,-000,000. Besides this there probably is in weight four times as much cheaper material for filling, costing about \$500,-000. In America there are annually made about 3.000,000 artificial teeth.
