

43RD YEAR NO. 18031

THE ADVERTISER, LONDON, ONTARIO, TUESDAY, JANUARY 8, 1907—TEN PAGES.

PRICE TWO CENTS.

## Mayor Judd Elected for a Second Term; Has Majority of 922 Over Ald. Greenlees

Chairman Darch Re-Elected to the Water Commission—Nine of the 1906 Aldermen Again on the Council—Five Conservative School Trustees Returned—Three Bylaws Carry and as Many Defeated.

Mayor Judd was re-elected over his opponent, Ex-Ald. Greenlees, yesterday by a majority of 922, which is 509 more than the majority he received over Ald. Elect Stevely a year ago.

Yesterday Mr. Judd received 3,421 votes in a total vote polled of 5,590. Mr. Greenlees polled only 2,499 votes.

A year ago 6,465 votes were polled, or 185 more than yesterday.

Mr. Fred Darch, chairman of the water commission of 1906, was also re-elected by a tremendous majority. His lead over Mr. Moses Masuret is 1,772, and his plurality over Mr. J. M. Parsons and Mr. Masuret is 1,329.

The Niagara power bylaw was carried by the large majority of 2,186. Ex-Ald. Armstrong's public baths scheme also proved popular, and it was carried by a majority of 1,319. The people also took an interest in the sewers bylaw and put it through by a majority of 759.

Here the successful bylaws end, however. The other three went down to defeat.

The bylaw to spend \$575,000 on water-works extension was beaten by only 76. A majority vote would have carried it.

The Defeated Bylaws.

The bylaws to fix the assessments of the Wortman & Ward Manufacturing Company and the London Canning and Evaporating Company were both killed.

A majority of 378 against the canning bylaw was rolled up, but only 74 of a majority was recorded against the Wortman & Ward bylaw.

Neither bylaw stood a ghost of a show, however, owing to the small vote polled. According to the act, each would have had to receive 2,734 votes, or two-thirds of the total number of free-holders on the list. If the votes against them were less than one-fifth, then they would require to receive one-third of the total vote on the list, or 3,335.

A glance at the figures show that the canning bylaw received only 1,238 votes, and the Wortman & Ward bylaw 1,574 votes. Freeholders only voted on all the bylaws save the swimming baths proposal. There are 5,690 freeholders in London.

There will be only one new face on the school board this year—Mr. C. M. R. Graham.

The Mayor Talks.

Mayor Judd's success made him jubilant. A large crowd assembled in front of the Free Press office shortly after 6 o'clock, and when the mayor was sure of success he addressed his friends from one of the office windows.

He said:

"I cannot find words to express my thankfulness to you for the magnificent majority which you have rolled up for me in again returning me to be your mayor. Once again the corporation may devote its energies to the service of the corporation of London. The two horses pictured in The Advertiser were an admirable pair and acted magnificently today, and I think I can safely say they were fairly well ridden. To the workers who have worked so hard all the way through, and stayed behind me today, I cannot speak too highly. I only hope that I may be able to give as good government in the coming year as I have in the past year. I can speak nothing but kind words of my opponent, Ald. Greenlees, who has always acted as a perfect gentleman toward me, and I can only say that I think he should not have allowed himself to become a tool in the hands of two persons in London."

In closing, I again wish to thank you all for your great kindness, and hope that I will be able to act in a way which will be satisfactory to all. I am all a happy and prosperous year."

Political Complexion of Council.

The council this year is made up of Conservatives, five Liberals, and one Independent, Ald. Elect Rose, who was, however, on the Conservative side.

Ald. Booth, Matthews, Cooper, Garratt, Scarlett, Beattie are Conservatives.

Ald. Gerry, Gillen, Stevely, Saunders and Stevenson are Liberals.

There are in the council this year one master painter, 3 merchants, 2 contractors, 1 auctioneer, 1 lawyer, 1 physician, 1 liveryman, and 2 manufacturers.

The temperance people claim seven members of this year's council, as follows: Ald. Beattie, Booth, Cooper, Gerry, Matthews, Scarlett and Stevenson.

Ex-Ald. Greenlees was cheerful when seen by The Advertiser after the fight. "I have no complaint to make," he said, "but had it not been for the inactivity of my own political friends, it would not have been possible to roll up such a large majority against me. I am very thankful to all those who honored me with their votes."

Nine Aldermen Re-Elected.

The aldermanic vote shows that nine of the council of 1906 were elected as follows: Booth, Cooper, Scarlett, Stevenson and Garratt. Ald. Garratt is in an attempt to adjust the question."

England and will likely be there for some months.

The new blood this year is made up of Mr. Samuel Stevely, for many years an alderman of London, but who was out of municipal life last year; Mr. J. H. A. Beattie, also an ex-alderman, and Mr. George E. Rose, who makes his initial bow as an alderman to the people of London. Mr. Rose is a modeler by trade, but for the past year or more has conducted a livery stable at the corner of Rectory street and the Hamilton Road.

Messrs. Rose and James Donnelly were the nominees of the London Trades and Labor Council. Mr. Donnelly was not successful as his running mate, however, but he nevertheless made a good run, standing third below the list of elected candidates.

Ald. Armstrong Fails in Race.

Ald. Armstrong was the only member of last year's council to be defeated. His defeat will prove a great loss to the council. He is a prominent manufacturer and a man of business ability.

The following are the aldermen elected, in the order of the number of votes polled by each:

Matthews ..... 2,408  
Gerry ..... 2,401  
Beattie ..... 2,317  
Booth ..... 2,163  
Rose ..... 2,156  
Stevely ..... 2,116  
Cooper ..... 2,097  
Gillen ..... 2,074  
Scarlett ..... 1,972  
Stevenson ..... 1,926  
Saunders ..... 1,916  
Garratt ..... 1,903

The following are the defeated candidates:

Ald. Armstrong ..... 1,774  
Armstrong ..... 1,531  
Beattie ..... 754  
Donnelly ..... 754  
Donohue ..... 506  
Everett ..... 1,498  
Lawrence ..... 356  
Lydiatt ..... 189  
Moorehead ..... 1,798  
Rowe ..... 1,749  
Rowland ..... 1,733  
Scarrott ..... 964  
Smith ..... 770

Ald. Armstrong is thirteen years old, so that if any of the aldermen should drop out this year, he would be taken into the council to fill the vacancy.

Mr. Charles G. Moorehead, of East London, made a very creditable run this year, but he was up against two fast men, and the split in the vote, no doubt, defeated him. He was fourteenth on the list.

The electors made a mistake in failing to elect Mr. Malcolm Rowland to the council. His ripe business knowledge would have stood the council well in its many financial dealings.

Ex-Ald. Armstrong went down yesterday for the second time. He was an alderman until last year, when he was defeated for the first time.

The vote for the council and school board is tabulated on page 6.

The following tables show the vote polled by the successful aldermanic candidates in 1904, 1905, and 1906:

Conservatives Sweep School Slate.

The Conservatives swept the school board slate. They elected Messrs. McCormick, English, Graham, MacRobert and Fitzgerald. Last year the Liberals elected three out of a possible four to be elected.

Many Londoners will hear with regret the defeat of Mr. Wm. W. Gamman, the well-known florist, and who was for five years a member of the board of education. He was a worthy representative, but the machine methods of his opponents resulted in his defeat.

The defeat of Rev. Dr. Ross, pastor of St. Andrew's Church, who offered himself as a school board candidate, came as a great surprise to many citizens. His election would have meant very much to the board.

Mr. Alex. Stuart, K.C., was never seriously in the race. He was nominated by a couple of friends, but intended to withdraw. His resignation came in three minutes late, however, and City Clerk Baker could not accept it. Mr. Stuart then announced that he was in the field against his will, and under the circumstances the vote he polled is very creditable.

The board also suffered a loss by the defeat of Mr. A. A. Campbell, a well-known business man. Mr. Campbell merely suffered the fate of the average new candidate for municipal honors.

Mr. W. A. Martin's defeat may be regarded in the same light.

The following is the vote:

English ..... 2,607  
Fitzgerald ..... 2,565  
McCormick ..... 2,521  
MacRobert ..... 2,470  
Graham ..... 2,440  
Ross ..... 2,251  
Gamman ..... 2,136  
Campbell ..... 1,331  
Stuart ..... 1,229  
Martin ..... 998

## FAKE TELEGRAM TO CANCEL SHOW

Received by the Grand Opera House Management—Attraction Will Come.

Who is the sender of a mysterious message which arrived at the Grand Opera House on Saturday or Sunday, and which purported to be a cancellation of "The Education of Mr. Pipp," in which Mr. Digby Bell will be seen next Saturday, matinee and night, at the Grand?

Mr. S. Goodfriend, manager of the attraction, accompanied by his advertising manager, arrived in London this morning to complete arrangements for billing the show, and he alleges the telegram is a forgery. It read as follows:

"Buffalo, N. Y., Jan. 5.

"J. R. Stewart, manager Grand Opera House, London.

"Cancel Digby Bell. Cannot possibly play the date. (Signed) Arthur Daniel."

Mr. Stewart being in New York when the message arrived, his treasurer took no notice of it, but went ahead with the billing and the advertising. And now the manager declares the telegram to be a forgery.

Mr. Goodfriend points out that the name attached to the telegram is a fake. The show is owned by Mr. Daniel V. Arthur, husband of the renowned comic opera star, Marie Cahill.

The name on the telegram is that of Arthur Daniel.

The matter will be reported to New York, and every effort will be made to get at the bottom of the matter.

Mr. Goodfriend points out that if Mr. Arthur desired to cancel the show he would not allow his manager and advertising agent to come here four days after the telegram was sent and bill the town for the attraction.

Mr. Goodfriend stated that after he had signed the contract to play here, Mr. A. J. Small, of Toronto, used every endeavor to induce the show not to come to London. However, Mr. Stewart won out, and the show will be at the Grand on Saturday next.

Warton, Jan. 7.—Word was received here this morning that some Indians had found a body from the ill-fated steamer Jones on the east side of Christian Islands. The remains were dressed in a suit of blue and had a life preserver on belonging to the steamer Jones. The face was so disfigured that it could not be described.

BARRED FROM PUBLIC WORSHIP.

Paris, Jan. 8.—In order to punish the Catholics of the Canton of Quend, 76 miles from Amiens, who were preparing to form a cultural association under the church and state separation law, Mgr. Dizien, the Bishop of Amiens, has ordered the withdrawal of the parish priest at Quend, thus compelling suspension of public worship there.

Will Water Commission Go to Kilworth for Supply?

Problem of Possible Shortage Discussed—The Defeat of the Exemption Bylaws.

The question of what the city will do for water during the dry period which is sure to come next summer and fall is already discussed by citizens.

Commissioner Saunders when seen by The Advertiser today said he could not say what will be done.

"We can, of course, go to Kilworth for an additional supply," he said. "We can increase our supply by 1,000,000 gallons there, but it will be much dearer water than if we went to Komoka, because we will have to pump it by steam from Kilworth, whereas we could use hydraulic power at Komoka."

Mr. Saunders says the city council has power to go ahead and secure a water supply from the citizens irrespective of a vote of the people. But under the circumstances, he does not think that any set of aldermen will be found who will be ready to accept the responsibility of giving the commissioners authority to go to Kilworth for another million gallons of water.

"If we had not reduced the rates and had left them as they were in the past, we would have an annual cash surplus of about \$35,000," Mr. Saunders continued, "and with this money we could look after the Kilworth project without being any burden on the city."

Mr. Saunders has grave doubts about the fairness of allowing the rates to remain at a figure where they will accumulate a surplus.

Mr. Saunders added that all things considered, the vote of yesterday was creditable. He had expected that it would carry, but the vote showed at all events that the people were pretty evenly divided on the scheme.

Will Insurance Rate Advance?

Under the provisions of the law, the water bylaw, or any bylaw which was defeated, cannot be submitted again to the people for a period of twelve months. Thus there is no chance to take a vote on the Komoka scheme this year. In fact, it is understood that the law specifies that the Continued on page eight.

THE SIXTY PER CENT CLAUSE KILLED LOCAL OPTION BYLAW

Majority Secured in Three Municipalities, But Not Enough to Carry It.

The result of the local option campaign in some of the western municipalities is not very satisfactory to the temperance people.

In the township of North Dorchester, a total of 848 votes were polled and in order to carry it, it was necessary to poll 509 favorable votes. The count, however, shows only 504 for the bylaw

with 244 against, leaving the measure 5 votes short of being successful.

In Westminster Township, where the liquor interests put up a hard fight, a total of 1,051 votes were cast, 543 being for the bylaw and 508 against. Thus the bylaw is also defeated, as 630 votes or 60 per cent of the total number cast had to be secured to carry it.

West Nisour expressed itself very strongly in favor of local option, the vote there being 414 for and 201 against. Three hundred and sixty-nine votes would carry.

St. Marys also defeated the bylaw, the vote there being 449 in favor, and 436 against. To carry, 531 votes were necessary.

It is freely admitted at the city hall that the rain of yesterday injured Mr. Greenlees very much in the polling of his vote. Had the ladies come out, the best majority of them would have voted for him.

The Liberals made no attempt to work the city as did the Conservatives. Credit for the victory is mainly due to the five successful school trustee candidates, who worked the school vote as it was never worked before. It is said that in every subdivision in the city they polled from five to ten votes of persons whose names were not on the voters' list, but who were entitled to vote from the fact that they were assessed for small sums for income tax.

It was said at the city hall today that the five Conservatives who were elected school trustees yesterday spent an average of about \$200 each on advertising, cards, etc.

MEXICAN STRIKE RIOTS

Mob Burns Company's Building and Loot Money and Goods.

City of Mexico, Jan. 8.—Late yesterday word was received here that the textile workers in the mills in the city of Orazaba, State of Vera Cruz, who are on a strike, had burned a company store, connected with one of the establishments, and were threatening to destroy the mills. Two regiments of soldiers were assembled and rushed to the scene aboard a special train. The first news of disturbances came in a telegram, which stated that a riot was on, and that the company's store at the Rio Blanco, was in flames. Soldiers were then rushed to the scene.

Violent speeches were made, and the men among themselves with sticks and stones, looted the company's store, destroyed it, and confiscated thousands of dollars in money and goods. They then pillaged private houses and Government shops.

Chicago, Jan. 8.—Announcement is made by the trustees of the University of Chicago that John D. Rockefeller will soon endow the university of Chicago with \$300,000 to maintain a fund for superannuated professors of the institution. The exclusion of the University of Chicago, because it is a denominational school from sharing in the \$10,000,000 Carnegie pension fund, is said to be responsible for Mr. Rockefeller's decision to create a pension fund for the institution.
