West Dome market was irregular and uncertain. Fears of new loans and the prospects of lower railway dividends, owing to traffic decreases, made British shares easy. Foreign securities pecovered and closed steady. American securities opened steady at small, irregular price changes. The market rallied during the first hour under the lead of Canadian Pacific. The latter will be purchased for New York and advanced 4 points. The rest of the list hardened fractionally in the afternoon.

NEW YORK, April 11—Wall street, noon.—New York Central shared Reading's prominence in the second hour, advantage of the stock. New York, Chicago and St. Louis, another Vanderbilt road, rose 1½, presumably in sympathy with the movement in New York, Central. Reading's further progress was attributed to general belief in a satisfactory outcome of the negotiations between anthracite operators and miners. The Eries, which had been referred to in connection with Canadian Pacific, failed to Wall Street, Noon.
