It is if her appetite is fickle, if she is breathless from slight exertion, or if then that anaemia rapidly develops and the growing girl finds herself in declining health. If your daughter complains of feeling constantly tired, her heart palpitates violently on going upstairs, it is a certain sign that her blood is failing to meet the demands upon it, because it is thin and watery. It is at such times that Dr. Williams' Pink Pills for Pale People are worth their weight in gold to tired anaemic girls. They actually make the new, red blood, that brings brightness to the eye, the bloom of health to the cheeks, and strength and activity to the whole body. The following is an instance of their value to young girls. Miss Hilda Pearl Snowe, Barrington, N. S., gradually drooped under an attack of anaemia. At first she was pale and listless, suffering from occasional headaches, but as the trouble progressed, a severe cough also attacked her and her friends feared she was in the grip of consumption. Almost from the outset she was being treated medically, but with no apparent benefit. At a critical stage in her illness Miss Snowe wisely de eided that she would give Dr. Williams' Pink Pills a trial. After taking them for some time there was a noticeable improvement in her case and the Pills were gladly continued until she was fully restored to health. Miss Snowe is today as healthy and rugged as any girl could wish to be, and her friends believe that Dr. Williams' Pink Pills saved her life.

These Pills not only cure anaemia but all troubles due to poor blood and weak nerves. Sold by all medi-cine dealers or by mail at 50 cents a box or six boxes for \$2.50, from The Williams' Medicine Company,

Citizens of London should certainly avail themselves of the privilege of a visit to the loan art exhibition being held at 2121/2 Dundas street under the auspices of the London Art Association. Nerves Were So Bad THOUGHT SHE WOULD GO OUT OF HER MIND.

Diseases of the nervous system are very common. All the organs of the body may be sound while the nerve centres may be affected.

Many women become run down and worn out by household cares and duties never ending, and sooner or later find themselves with the nerves shattered, and the heart action weakened.

On the first sign of any weakness of either the heart or nerves, flagging energy, or physical breakdown, do not wait until your case becomes hopeless. Milburn's Heart and Nerve Pills will at once quieten the nerves, strengthen

the heart and build up the entire system. Mrs. Archie Goodine, Tilley, N.B., writes:—"When I was troubled with my heart two years ago, I was very bad. My nerves were so unstrung that sometimes I would almost go out of my mind. I doctored myself with everything I could get, until at last I got four boxes of Milburn's Heart and Nerve Pills,

Quebec Scenes.

Speaking of Canadian paintings, stress must be laid upon the beauty and delicacy of the canvases loaned by Mr. A. In 1902, when cruising in these waters, Suzor-Cote, the famous Canadian artist King Edward paid a visit to the casacy of the canvases loaned by Mr. A of Arthabaska, Quebec. "A corner of tle. my village" in which three or four quaint little houses huddle together, with the old, blue-white tints of snow in the immediate foreground, and the bareness of naked trees rising behind the peaked roofs, is an excellent sample of Mr Suzor-Cote's work. I felt the need of some good remedy, and having seen "Fruit-a-tives" advertised, I decided to try them. Their effect I found more than satisfactory. Their action was mild and the result all that could be expected.

My kidneys resumed their normal action after I had taken upwards of a dozen boxes and I regained my old time vitality. Today I am as well as ever, the best health I ever had, and I unhesitatingly give you this letter and my photo for publication if you wish,"
