Athens Government Renews Order To Commander To Return Home.

Associated Press Despatch. Paris, Oct. 29 .- When the hour of o'clock struck this morning-the time limit given by the council of the league of nations for the Greeks and Bulgarians to cease fighting and withdraw their forces into their respective territories-it appeared from despatches received here that the withdrawal order has not been complied with-at least by the Greeks. Previously the Bulgarians had announced that they occupied no Greek terrain. The Greeks, however, apparently still were near Ramna, ten miles west of Demirhissar, where they reported they had been attacked by Bulgarian forces yesterday morning. This attack, however, according to Athens advices early this morning, was an unimportant one and

without casualties, and it was stated that the Greek government had reewed its order to the commander in-chief to evacuate Bulgarian terri-tory under the decision of the counof the league.

When the withdrawal is effected is expected that a neutral demili-arized zone between Greece and Bulgarian may be brought into being, and that the league council also probably will endeavor to establish principles o guide the Balkan statesmen in handling future controversies and exert its influence to have the Locarno security agreement with Germany supplemented not only by a Balkan arrangement, but also by security pacts between other sections of ly.
