Hoffman's are the result of persistent

North-west America.

Mr. James Terry has just published descriptions and photographs of some of the ceipts, 1,000; shipments, 400; market slow; most remarkable works of prehistoric man yet discovered on the American continent. They represent three rude, yet bold, characteristic, and even life-like sculptures of simian heads, executed in basalt. One of these belongs to the author, one to Mr. T. Condon, and the third to Prof. O. C. Marsh, who referred to it, in his address on "Vertebrate Life in America," in the following terms: - "On the Columbia River I THOS. TAPP. have found evidence of the former existence of inhabitants much superior to the Indians at present there, and of which no tracition remains. Among many stone carvings which I saw there were a number of heads which so strongly resembled those of apes that the likeness at once suggests itself. Whence came these sculptures and by whom were they made?" Unfortunately MRS. TIMBRELL..... conditions under which these specimens were found, except that "they would be classed as 'surface finds,' from the fact that bringing them to the surface." This gives no indication of their antiquity, but is quite compatible with any age which their other characteristics may suggest.

The size of the heads varies from 8 to 10 inches in total height, and from 53 to 61 inches in width. The three are so different price, it is the cheapest feed that can be from each other that they appear to reprebought. can judge, they all differ considerably Montreal, March 28.—FLOUR—Receipts, 2 000
bbls.; market quiet and unchanged. Flour quetations mechanged. Stocks here this morning:—
—WH EAF, 407,133 bushels; OORN, 8,480 bushels; FLOUR, 58,891 bushels; OATMEAL, 260
barrels.

Icy could probably be used for feeding purposes. In fact, barley now would be purposes. In fact, barley now would be the mouth than in any of the apes. In this respect they are more human; vet the general form of the head and face, the low and strongly-ridged forehead, and the bushel. "that they were copied from the tigure Spring lambs brought from \$4 to \$4.50 nothing at all resembling these heads is ever carved on Malay proas, and there is no reason to believe that if such a carving did Poultry was in keen demand, at 60 to 70 come into the possession of the natives they would ever think of copying it in stone; while these sculptures were found two hundred miles from the coast, on the east Taking into consideration the enormous

side of the Cascade Mountains. remains found in the auriferous gravels of Potatoes were in better supply, at 85c to California, buried under the ancient lava E. H.COWAN streams and associated with a flora and a THOS. SANBORN, fauna altogether different from that of any part of America at the present time, Mr vivid impressions of their former surroundings in these imperishable sculptures." The latter alternative appears to ne, for many reasons, to be highly improbable; and, though the former will seem to many persons to be still more improbable, I am inclined provisionally to accept it.

ALFRED R. WALLACE. Cropping Orchards.

cussed matter of inter-cropping orchards and fruit gardens. He considers:—1. Where land is cheap and abundant, the fruit trees may have entire possession. 2. every square foot of ground is valuable, a positive advantage, especially if they are for meadow is but little better than sowed grain; but grass kept short, like that of a J R GURD......London West constantly mowed lawn, and topdressed with manure annually, is admissible. G. FINNIGAN. London West London West Constant Research and standard pears. they are heavily manured. It is better always to keep peach orchards constantly clean and mellow. . 7. Among hoed crops orchards are corn, corn fodder, potatoes and roots generally, a strong reason being that they are sure to get a good feeding with manure, in addition to the required with manure in addition to the required MR. KNOWLES.

South London MR. KNOWLES. stirring of the soil which they receive. Among the garden crops which may be early potatoes, turnips, onions, peas, parsnips, beets and carrots. Corn is some-

times objected to, both for gardens and arge young orchards, because it is supwhich are lower down. On the whole, therefore, corn may be regarded as the for £230. best intervening crop, if any, among fruit-trees. But it is essential, always, in deciding what crops are to be placed among trees, or when to exclude them, to observe the vigor and degree of growth, by measuring the length of the annual shoots. If they are short and stunted, the soil must be better cultivated, or top dressed or manured, or both. If the shoots on young trees are less than a foot in length, they show that the trees are too feeble; two feet

would be a fair growth, and more would

be better. For trees in full bearing, a foot

or more would indicate sufficient vigor:" An Eye-Opener for Connoisseurs and As it is well known to all tobacco dealers that the Vuelta Abajo district is conceded to be the finest on the island of Cuba and that no other tobacco is equal in quality or commands as high a price on the market we wish to inform the connoisseurs of imported Havana cigars that seven-eighths of the imported cigars brought into the country are not of Vuelta Abajo tobacco. In order to convince the public that we are sincere in what we say, we will pay to the charitable institutions of this city the sum of one thousand dollars if our statement can be disproved. We will also forfeit for the same purpose a like sum if our La Cadena brand of clear Havana cigars is not manufactured exclusively of Vuelta Abajo tobacco

-S. Davis & Sons. There has been no perceptible change for the worse in the condition of Rev. Dr Howard Crosby, of New York, since Fri-

A copy with five leaves missing was sold last week

The virtues or merits of a remedy for pain do not consist in its being as good for relief as other remedies, but in the fact that it is better, in being more prompt and sure, and therefore the best for the specific purpose. It is not an idle catchline that strikes the eye thus:

ST. JACOBS OIL THE GREAT REMEDY FOR PAIN, IS THE BEST.

It is the best cure for all aches and pains, and it holds

THE TRUE PROOF. To this specific fact Archbishops, Bishops, Clergymen, Lawyers, Doctors, Governors, Generals, Senators, Members of Congress and Legislatures, U.S. Consuls, Army and Navy Officers Mayors and Officials, testify and unite in saying: "We

OTHER REMEDIES FAILED, and St. Jacobs Oil cured promptly and permanently." For the same reason The poor man

suffered pain;

and will have it at any price. ADCOCK Family Butcher
