WHISKARD'S

THREE BUSY STORES, 228, 230, 232 DUNDAS STREET

Many in General, Cwo in Particular.

All our departments are teeming with seasonable and worthy goods, which have been priced in a way that makes brisk February selling. Each one is deserving of special mention, but the limitations of space render such a thing out of all question. Waxing values and waning prices are in evidence all over these three busy stores. Having said this much in general, let us particularize about two departments. Think on these prices.

TERRIBLE SIGHTS.

Which an Explorer Claims to Have Witnessed in Africa.

London, Feb. 27 .- Some of the morning papers publish a remarkable in-terview with Mr. E. S. Grogan, who has just returned to England, after a two years' journey in Africa. Mr. Grogan, who travelled over 6,500 miles, and represents himself to be the first European who has travelled through the continent from the Cape to Cairo, says that after leaving Lake Tangan-yika, with eight porters, he entered region of active volcanoes, where encountered "enormous lava streams, forming a veritable sea, 40 60 and a hundred feet deep." The neighboring country, he says, is occupied by some 5,000 Balkitas, fierce cannibals from the Congo, who live man-hunting. His guides told him that the country covering 3,500 square miles had been until recently densely populated, but that the people had virtually all been killed and eaten by the Balkitas. Everywhere he found evidences of cannibalistic practices. He witnessed horrible sights. He saw "cauldrons full of liquid, with floating an skulls and the bodies of infants." Proceeding along the west coast of Albert Lake, Mr. Grogan found the natives terrorized by raids of the Belgians. He declares he thoroughly investigated this matter, and found that the Belgian troops are in the habit of crossing the frontier; had shot a large number of inhabitants, and had carried off the young women and catrile tring up and hurring the and cattle, tying up and burning the old women, while the Belgian officials

New York, Feb. 27.—Mrs. Christiana Stevenbush, of 169 West 64th street, lost her life and her husband was very seriously burned at their resi dence last night. Mr. Stevenbush started toward the rear of the basement to put some coal on the furnace fire. His wife stopped him, saying she would fix the fire for the night. She was about to throw a scuttle of coal on the fire when the back draught blew the flame out of the furnace door, and her clothing became ignited. She ran into the room where her husband was sitting, and he tried to tear her clothing from her. She died a little

ITCHING PILES.

False Modesty Prevents Many from Seeking Advice - Cure Yourself at Home by Using the Only Actual Cure, Dr. Chase's Ointment.

What slavery can be more cruel than that of the victim of piles.

In misery by day, often kept from work, and unable to walk with any ease. In agony by night, suffering intensely from the dreadful itching, which makes rest and sleep impossible, such is the lot of at least twentyfive per cent. of all men and women during some period of their lives.

False modesty prevents many from seeking advice or submitting to a local examination by a physician. Then, besides, there is the dread of the surgeon's brite the only means the street of the surgeon's brite the only means the street of the surgeon's brite the only means the street of the surgeon's brite the only means the street of the surgeon's brite the only means the street of the surgeon's brite the only means the street of the surgeon's brite the only means the street of the surgeon's brite the only means the street of the surgeon's brite the street of the surgeon of geon's knife, the only means which many doctors use to cure piles.

In such abject misery is the slave of piles, the most cruel and torturing of afflictions.

Before the discovery of Dr. Chase's Ointment there was no reliable cure for piles, no cure that would abso ly cure any case of piles, whether itching or protruding piles.

To-day nearly everybody in Canada and the United States, and very many in Europe, know of Dr. Chase's Ointment as a cure for piles.

It is a wonder of medical science, which has been frequently imitated, but never successfully. The imitations look the same, are put up in the same kind of boxes, and sometimes have a similar odor, but they do not cure. The portrait and signature of Dr. A. W. Chase on the box is a guarantee.

Mr. F. G. Harding, retired farmer,
living at Nilestown, Middlesex County,
Ont., writes as follows:—"I have been
troubled with bleeding and itching piles for four or five years, and suffered intense agony at times. I had tried almost everything, but could get nothing that would give relief. On hearing of Dr. Chase's Ointment I procured a box, and it only required part of it to completely cure me. I am recommending it to all afflicted as I was."

Fire Island, Feb. 27.-The sloop yacht Rambler with a party of several persons on board, has been aground on little Fire Island, in Great South Bay, since Saturday night, and there must have been bitter suffering from the intense cold. The Fire Island lifesaving crew went to the rescue on Sunday, but has been prevented from returning by the heavy gale Sunday and the freezing over of the bay since. There is a small hut on Little Fire Island, and it is thought possible that the party abandoned the sloop yesterday and found refuge in it with the

Of a Most Distressing Humour by the Cuticura Remedies.

When our baby was a week old, eczema appeared on the top of her head and spread all over her scalp, face, and forehead, forming one mass of sores.

You can realize how much she must have suffered, when she scratched at times till the blood ran intermingled with water. Our family doctor's treatment proved ineffectual, as the disorder, instead of abating, developed more. We then stopped all medical treatment, and commenced with CUTICURA REMEDIES. We used the CUTICURA RESOLVENT, CUTI-CURA Ointment, and CUTICURA SOAP, all traces of the eczema disappeared, the skin and scalp were left perfectly clear and smooth, and she was entirely cured. MRS. E. BUTLER,

My oldest boy, age nine years, was troubled with sores on different parts of the body, especially on the leg, about twenty-four in all. They were about the size of a five-cent piece, and would fester very much and eject a pus. They were very painful. After my above experience with the cure of my little girl with CUTICURA REMEDIES, I did not bother with the doctor in this case, but gave him the CUTICURA treatment which completely cured him in four weeks.
