

The Address to the Throne.

The following is the text of the Address to the Throne, reported from the Committee of the whole House upon the "State of the Colony" and confirmed by the House on Friday last, standing orders having been suspended.

TO THE QUEEN'S MOST EXCELLENT MAJESTY, MOST GRACIOUS SOVEREIGN:

We, Your Majesty's most dutiful and loyal subjects the Commons House of Assembly of Vancouver Island in Parliament assembled, in full assurance of Your Majesty's earnest desire to promote the welfare of your people, beg leave humbly to address ourselves to Your Majesty upon matters of the deepest interest to your faithful subjects in this Colony.

We humbly represent that, desirous of reaching the foot of the Throne before the recess of Parliament, we transmitted by telegraph on the 20th June to Your Majesty's Principal Secretary of State for the Colonies, a few brief resolutions on the condition of this Colony, which His Excellency Governor Kennedy declined to transmit, unless approved by the Legislative Council, urging immediate union of Vancouver Island and British Columbia under a liberal Constitution, and we would now respectfully submit, for the consideration of Your Most Gracious Majesty, the following more detailed views on the same subject.

We would, in the first place, state that both Vancouver Island and British Columbia are at present suffering grievously from a variety of evils, some of which are the inevitable results of circumstances incident to new Colonies; others arising from the continued separation of Vancouver Island and British Columbia, by which a system of legislation has been adopted in the Legislative Council of the latter colony hostile alike to Imperial and Vancouver Island interests; and others, again, flowing from the unnecessarily expensive and highly impracticable systems of government of both Colonies, which, while oppressing the people with an insupportable burden, have, at the same time, prevented the passage of liberal and necessary laws to promote the settlement and development of the country. The first of these evils are of such a nature, as will gradually effect their own cure, but the second and third are entirely under the control of Your Majesty's Government, and it is with the earnest hope that Your Most Gracious Majesty will be pleased to grant such relief as in Your Majesty's judgment may be deemed expedient, that we humbly pray.

1st.—For immediate Legislative Union of Vancouver Island and British Columbia—countries which we believe were only placed temporarily under different Governments through Imperial expediency. The interests of the Island and the mainland have always been, and are, regarded as identical; not merely from the fact of these communities trading with each other and owing allegiance to the same authority, but also from their being dependent on each other in the most absolute sense. From 1858 population and capital have been gradually centering in Vancouver Island, and it is from these two elements, principally, that the mineral resources of British Columbia have been and are being developed. It is from Vancouver Island, mainly, the capital flows that brings to light the hidden wealth of Cariboo and other gold-fields; it is from the same source the majority of the mining population of British Columbia, who reside in Vancouver Island the greater portion of the year, is obtained. It will thus be seen that Vancouver Island's interest in the mainland is more than an ordinary interest, and that what affects the prosperity of the latter colony, whether it be the enormous expenses of its Government or the ill-judged and unpopular character of its laws, acts in a corresponding degree on the former. How deep the interest is which British Columbia feels in Vancouver Island will be best ascertained by a perusal of the petition for Union forwarded some time ago by the Administrator of the Government of British Columbia to Your Majesty—signed, as it was, by all the principal merchants, manufacturers, miners, traders and farmers in the neighboring colony.

2nd.—We would further state that while the combined population of both colonies, exclusive of Indians, who contribute in some degree to the Revenue, does not exceed 10,000 persons, the expenditure of the two Governments amounts, in the aggregate, to nearly £200,000 a year. It is scarcely necessary to point out to Your Majesty, the unparalleled and unjust character of the taxation required to support such an outlay, and the absolute necessity for a form of Government that will bear more lightly on the inhabitants, and afford them more effective means to check extravagance. In British Columbia, as Your Majesty's Government is aware, the Government is carried on by a Legislative Council consisting of ten official, and five unofficial members. The system virtually stifles public sentiment, as from causes which are inseparable from an overwhelming official influence in a Legislative Chamber in a young country, the usefulness as well as independence of the non-official members is seriously impaired. Salaries are raised and expenses incurred under such a state of things that could never be done under a more liberal and responsible form of Government. The Constitution of Vancouver Island is free from some of the evils which exist in the Constitution of the neighboring colony, but the undue official and Nominative character of the Upper House has created serious dissatisfaction throughout the colony, the members acting in direct antagonism to the Assembly, and throwing out session after session, measures which the public interest loudly and persistently demands. By such determined hostility to the Lower House, as this irresponsible body has evinced, and the refusal of the Governor to grant necessary information on matters affecting the vital interests of the colony, the welfare of the country has been deeply injured and the Legislative Assembly reduced almost to a nullity. We would, therefore, pray, that in uniting the two colonies Your Majesty's Government will be graciously pleased to grant to the people such a Constitution, as will, while reserving to the Crown every prerogative consistent with representative Govern-

ment, enable them to control the manner and amount of the taxation and expenditure, and, if necessary, prevent the official element acting to the country's detriment by hostility to the people and their representatives. As one portion of the great expenditure above stated, we would humbly represent that the salary of the Governor of British Columbia was raised by the Legislative Council of that colony, to Four Thousand Pounds a year, and one thousand per annum are allowed for travelling expenses. The salary of the Governor of Vancouver Island is Three Thousand Pounds. For each, at great expense, a house is maintained and each has a Private Secretary. With a view to laying down the ground work of economy in the Government of the country, we would respectfully submit for Your Majesty's consideration the following Civil List, for the united colonies, an amount as great as with the present serious liabilities and the ever recurring need for internal improvements in both colonies, can, we believe for some years hence be afforded:

Governor	£2,000
Two Judges	2,400
Colonial Secretary	600
Surveyor General	600
Collector of Customs	500
Attorney General, with permission to practice	400
Treasurer	500
Total	£7,000

It would, however, be extremely difficult to construct and sustain an economical and useful Government, after the two colonies shall have been united, unless they shall be provided over by a Governor, not in any way interested in the continuance of a system which has grown up during the past years of improvidence and disregard of popular rights, possessed of large experience in the affairs of colonies enjoying Representative Institutions, and one whose cordial co-operation with the people's representatives might be relied on; for it has been found impossible to effect any very perceptible retrenchment under existing circumstances.

We would express our belief that, with Representative Institutions and an economical Government suited to their financial ability, the colonies will, after Union, advance in a steady and sure course of prosperity. Their progress would be greatly promoted by the opening of communication from the Pacific to the fertile plains and auriferous streams of the Saskatchewan country east of the Rocky Mountains. This has, already to a considerable extent, been effected by governmental and private enterprise, and a further advance eastward will probably soon be made; but, as part of the projected highway between the Atlantic and Pacific, this undertaking from its important bearing on Imperial interests, may yet claim aid from Your Majesty's Government.

Another measure, which would greatly benefit the united colonies, is steam communication with Panama, and connection at that port with the West India Steamship Company's line from England to Aspinwall. This we are informed will be provided by the above named Company, furnished they are guaranteed annually £20,000, or eight per cent, on the amount of capital deemed necessary for the undertaking.

Such a connection would greatly foster British interests, as well as British sentiment in this part of the world, besides paving the way for greater undertakings of the kind in future, having in view connection between Confederated British North America and the rich and populous countries on the Asiatic shores of the Pacific.

Referring with pride to the great, and, for the small number of tax payers, unprecedented efforts heretofore made by both colonies; in self-support and internal improvements, we profoundly regret that it will be out of our power to procure the vast advantage of the Steam Communication above mentioned, unless Your Most Gracious Majesty's Government should be pleased to extend a helping hand to these young and struggling colonies, believing, as we do, that it assumes one-half the expense, the Mother country will reap its full share of the benefit.

Without connection with the Mother country by means of Mail Steamers, the progress of these Colonies is greatly retarded; and so deeply is this felt by the people, that large sums are now paid to a foreign steamboat company by each colony to keep up connection with California, although the compensating advantages arising from this outlay cannot be compared with those that would result from subsidizing a British line of steamers between Panama and these colonies.

With faith in the mineral and other numerous resources of British Columbia and Vancouver Island, which are gradually being developed under great difficulties, and feeling the most unbounded confidence in the Material Solicitude of Your Most Gracious Majesty for the wellbeing of all your loyal subjects, we believe that the present appeal for such institutions and other reasonable aid as will conduce essentially to the welfare and happiness of the United Colonies, need not be made in vain.

And we, Your Majesty's loyal and devoted subjects, as in duty bound, will ever pray:

Cricket Match.

A match between eleven players of H. M. S. Sutlej and Scout and eleven of the Victoria Club, took place at Colwood on Saturday, resulting in a victory in favor of the Fleet, after a sharp and exciting contest. The weather was propitious, and a large number of ladies and gentlemen from Victoria and Esquimalt were present on the ground including His Excellency the Governor and family, Admiral and Mrs. Denman, the Hon. W. A. G. Young and Mrs. Young, and several naval officers. By permission of the Admiral the splendid band of the Sutlej was present, and added materially to the enjoyment of the day. The Fleet won the toss, and sent their opponents to the wickets shortly after 11 o'clock. Messrs Powell and Wallace took the bats and commenced steadily, but the bowling of Messrs Thom and Ralph soon disposed of them. There was an evident want of practice shown by the Victorians in this innings, as they all succeeded to the very real effective bowling on the other side, with a total of only 26 runs. The Navy fielded well. The Navy then went in and soon ran up a score of 43, being 17 in excess of their opponents. Macaulay and Levitt played well for 9 and 10, but the bowling of Richardson and Howard was too superior to admit of many runs being

made, and the scores were consequently small. After partaking of lunch at Post's, the Victorians, nothing daunted, commenced their second innings with spirit, and succeeded at the close in placing to their credit 76 runs, leaving the navy a deficiency of 50 to make up. The bowling of Clarke, Bacon and Powell was very creditable, the first named gentleman white at the wickets received a severe cut over the left temple from a stinging ball delivered by Mr Thom, which stopped his play, and his wickets fell shortly after. The bowling of the navy in the second innings was not quite equal to the first. The Fleet in the second innings showed an evident determination to win the day if they could, and after some very careful play they succeeded in making the required number with a loss of only 8 wickets. The batting of Mr Saville in this innings was much admired. The excellent fielding and bowling throughout the match will account for the small scores made off the bat. Subjoined is the score:

Big Bend.
CACHA CREEK, June 22.—Mr Sellers, of Kamloops, has furnished a party to go prospecting in that vicinity. They will start to-morrow. Lavean and Duprat have gone to their silver lead to obtain more specimens for assay, and anticipate a favorable result. Mr Keay's party have returned and brought back some gold, but they are rather dissatisfied with their labor. Mr Willoughby has returned to Seymour from the mines, and has obtained some very good prospects in his shaft, and intends returning as soon as he gets a supply of provisions. Anderson and Hunt are sinking a shaft 4x6 feet, below the turn on French Creek, and entertain great hopes of success. There are about 15 paying claims on McCulloch's Creek. The prospects are not so favorable as on French Creek. Provisions and articles returning as soon as he gets a supply of provisions.
