PROTESTS AGAINST THE POSTAL SERVICE

James Forman Asks Board of Trade to Take the Matter Up

(From Wednesday's Daily.) The council of the board of trade met yesterday morning and closed the business for the year. The annual meeting will be held on Friday afternoon at 3 o'clock and judging from the interest taken, as indicated by the large number of nominations received for the office of president, vice-president, council and board of arbitration, the meeting will be largely attended.

Another special committee reported on the preservation of Cowichan river as a fishing stream for sportsmen, but on account of the nearness of the board elections it was referred to the incoming council.

Attention was directed to the delivery of letters in the municipalities adjoining the city and the matter was referred to the new council. In this connection the following letter from James Forman, J. P., was read:

Dear Sir—I do not expect to be able to attend the meeting of the council this morning but in view of the fact that one of the chief objects of the postal service is to be in the city shortly, I think my attention should be called to the lack of postal facilities in the suburban districts adjacent to this city, and also the need of sub-post offices within the city proper.

At the present time there is no means of delivering a letter within the large district lying between Gordon Head and Oak Bay, comprising Cadboro Bay, Willows, and Oak Bay, and the post office officials will tell you frankly that they cannot reach a man living in that locality, unless he calls at the Victoria post office for his mail.

Further, sub-post offices should be established at "The Fountain," Spring Ridge and Oak Bay Junction, thereby relieving the congestion at the general post office.

These facilities will not be given unless asked for and it seems to me that strong pressure should be brought on the department to make the service up-to-date.

The present inadequate service would not be tolerated by means of the size and having the business of Victoria.

JAMES FORMAN.

ASSIZE COURT AT LANGRIVER OPENED

Case of World vs. Province Will Head List of Non-Jury Trials

SUIT AGAINST IMPERIAL BANK

Alex. Ewen, Pioneer Cannery Operator Of New Westminster Passes Away at Ripe Age

Vancouver, July 9.—The opening of the July sitting of the supreme court with Justices Clement and Morrison on the bench was attended with the usual formalities. As the long vacation begins before another convening of the court almost every case on the long list was ready for trial, and in every case the different actions were nominated, counsel for plaintiff and defendant responded with information that they were ready to proceed. When the list and the Vancouver World vs. Province was called Mr. Joseph Martin, K. C., read that he was ready for trial, and that he understood that the case headed the non-jury list.

Mr. E. P. Davis, K. C., for the Province, supposed this would mean postponement of the case for two weeks. Mr. Martin: "Why two weeks?" Mr. Davis: "Oh, I know that my learned friend wants the case adjourned indefinitely, and I wonder he don't drop it altogether." (Laughter.) Mr. Martin: "You will wish so anyway."

Mr. Justice Clement stated that the case would top the non-jury list which came before him. It will be some days before the case can possibly come up for trial.

After fixing the peremptory list Justice Clement announced that the jury trials would be taken by him and the man-jury cases by Mr. Justice Morrison.

The first jury trial before Mr. Justice Clement is the action brought by Mr. J. S. Rear to recover \$5,000 damages from the Imperial Bank.

Ma Rear is local manager for the Mutual Life of New York, and while in the city drew a check for \$1,200 in favor of Thos. D. McMagher for \$1,200 which the bank refused to honor, notwithstanding that there was ample funds in the bank to the credit of Mr. Rear. The plaintiff claims that the bank sustained damage to its credit, and undesirable reflections were cast upon his character.

The bank acknowledge the error but dispute that any material damage followed, as the mistake was immediately rectified. Mr. W. S. Deacon appears on behalf of Mr. Rear, while Joseph Martin, K. C., represents the bank.

Mr. Justice Morrison is taking the case of Borison vs. Stevenson, which is an action brought by Mr. R. D. Borison, who bought a piece of property from Mr. D. Stevenson, and who is suing for the specific performance of the contract. Mr. E. J. Bird appears for Mr. Borison and Mr. A. Brydone-Jack on behalf of Mr. Stevenson.

The Alpine Club. Lagan, B. C., July 9.—The Alpine club is in camp at Paradise valley, in the mountains near the town of Lagan, and the Swiss guide, ascended Mount Temple on July 4. Bad weather was found near the top. The party climbed through a blizzard. One man's ears were frozen.

The ascent was made in five hours and five minutes, and the return in four hours and five minutes. Mr. J. M. East, President of the Victoria B. C. Board of Trade, Victoria.

Dear Sir—I do not expect to be able to attend the meeting of the council this morning but in view of the fact that one of the chief objects of the postal service is to be in the city shortly, I think my attention should be called to the lack of postal facilities in the suburban districts adjacent to this city, and also the need of sub-post offices within the city proper.

At the present time there is no means of delivering a letter within the large district lying between Gordon Head and Oak Bay, comprising Cadboro Bay, Willows, and Oak Bay, and the post office officials will tell you frankly that they cannot reach a man living in that locality, unless he calls at the Victoria post office for his mail.

DOMESTIC AND FARM LABOR ARE ESSENTIAL

Capt. Phillips-Wolley Says Lack of Them Will Arrest Island's Progress

ploughman only 17 shillings a week. But if we chose we had the best country in the world and one more tractor, the smart country gentleman and farm laborer than any other on earth. In England a vast number of men have had their incomes reduced by the fall in land values. These men can no longer afford to live as their fathers lived and do not care to remain in the old homes under the conditions they find. They are the old life at a smaller cost and they used to be able to get this here, when labor was reasonably plentiful. A man who can hire men at \$20 a month and their board can make a modest income out of farming and their incomes will go further here than they will in England, where they need only pay for the things which they need instead of for the things (like butlers, gamekeepers, grooms and smart clothes which they need) in keeping out of the country. There was no doubt that men could make a really good thing out of the island orchards, say \$100 per acre with luck and judgment, but he considered the country and its people. He said that the island could not make a really good thing out of the island orchards, say \$100 per acre with luck and judgment, but he considered the country and its people.

STOCK EXCHANGE READY

Organization Effected at Meeting of Committee of Management

Vancouver, July 9.—The Vancouver Stock Exchange will soon be in existence, and will be incorporated at the last session of the committee of management. The organization was virtually effected at a meeting of the committee of management, which was held at the residence of the president of the exchange, C. D. Rand, and A. B. Diplock, John Kendall, W. G. Gordon, and J. R. Waghorn.

The question of the exchange to be listed and traded in was also discussed. It was decided to make a bearing on the stocks, the first application for listing being from the Western corporation. Later on, however, all the active stocks dealt in on the exchange will be traded in and continuous quotations will be received by wire.

Mr. Kendall, secretary, was instructed to get reports from various companies whose stocks were to be listed. The investigations will be in the direction of obtaining data respecting the financial condition of the various corporations. It is understood that a few weeks hence will see the members of the exchange on the floor of the exchange.

PIONEERS DEAD

Alex. Ewen and Frederick Eickhoff, of New Westminster. New Westminster, July 9.—Two pioneers of New Westminster passed away last night. One was Alex. Ewen, and the other, death claiming Alex. Ewen, the well-known canneryman, early in the afternoon. Both about ten o'clock in

Experiments Made by Japanese Gardener at Gorge Prove Successful. The cultivation of bamboo in Victoria has proved successful. Small plants grown at the Japanese garden at the Gorge park have progressed most favorably, large new shoots having grown upon them, and the Japanese gardeners who planted the young bamboo, an experiment, propose to import a large number of bulbs during the coming winter and arrange for extensive cultivation in Victoria and in the vicinity.

Bronson—My wife writes to me every few days from the mountains for more money. Woodson—Well, I gave my wife all the money I had, and now I have to write to her when I want some—Harper's Weekly.
