TUESDAY MORNING, MARCH 25, 1884.

. The Conspiracy Case. The Mail of yesterday shows a complete change of front in regard to Kirkland. When the paper was casting round for a scapegoat, "the Yankee" was seized on. telegraph lines. It was easy to see that the money came from Kirkland and his principal, Peters, said the Mail. Now the Mail says there is no case against him. Yesterday's article in the Mail is very much like a feather bed thrown out of an upper window so that the editor might have something soft to fall on. Now that the money did not come from Kirkland or Peters, perhaps the Mail will tell us who did send it.

The Mail is trying to make out that the Ontario government set a trap for Mr. Bunting-and caught him. That is true, they did so. But because the farmer sets tion year counts something in the people's a trap and catches the fox, the fox is none the less a chicken thief. The government trapped Bunting but it was Bunting the briber that they took, and all the special pleading in the world will not make it therwise.

Is the Mail, as the party organ, pursuing a wise course, in its anxiety to exculpate Mr. Buntings in dragging the whole conservative party after it and him. Mr. Bunting is the tail trying to wag the dog. The party could better afford to sacrifice Mr. Bunting than it can allow Mr. Bunting to sacrifice it.

sion.

The only two persons so far who have 'panned out" creditably in this business are Col. Denison and Mr. Goldwin Smith. The magistrate has heard the case with patience, and conducted the proceedings with ability. He has kept the brood of lawyers to the mark, had the witnesses respected, and meted out even-handed reatment to the accused. As for the pro-

amine thoroughly into the present alleged bribery, and to take such order in the mat-ter as will render such attempts unlikely in-the future. ONTARIO. A Government Telegraph. Thanks to the enterprise of the Canadian Pacific railway company, the telegraph nopoly is likely to get a shaking in Toronto, March 25, 1884. Canada before long. But over the border Very Hard to Please. the telegraph companies have the country's business by the throat, as it were, and no-To the Editor of The World.

SIR: Last evening the celebrated thing less than the strong arm of the gove ernment will suffice to set the country free. prophet of Bond street, delivered a peculiar tirade against the ladies and fashion in A Washington despatch says that the suband dress. Has the reverend gentleman no idea that silks and satins, pearls, jewelery and what not, are placed in the reach of the denizens of this sphere by an all wise providence to gratify and please the curious taste? Or would the doctor like to see ladies (as if were) insult the almighty by dressing plain as a pike staff and wear nothing but brown Holland, cotton, or duck — and leave off wearing jewelery, etc. ? don't suppose the jewelers and fancy milli-nery business houses of Toronto will ever be hurt by anything Dr. Wild thus advises or insinuates, nor will they close their fancy business to meet his religious notions! Why cannot the eloquent, learned divine attend to his orthodox business and leave commerce alone? Dr. Wild is a wise, tame man, and doing a colossal amount dress. Has the reverend gentleman no committee of the senate committee on ostoffices have prepared a bill in relation to the etablishment of a government telegraph. It creates the office of fourth assistant postmaster-general to have charge of the system, presents the rates for messages, provides for the transmission of telegrams to newspapers and telegraph news associations, for issuing cards of different denominations, similar to postal cards, authorizes the postmaster general to advertise for sealed proposals from companies now in existence to do the telegraph business in accordance with the provisions of the act. In case there is no commerce alone? Dr. wild is a wise, tame man, and doing a colossal amount of good in the world, but in some things, he is hard to please, poor man? He likes to be corrected—if astray—so he says; here is a sample. DRY GOODS MAN. bid before November 25th, 1884, the government itself is authorised to build lines inder the management of the secretary ' of

And a score of other matters, all of a the great event of November next will give troublesome character, have crossed his them one more practical demonstration path this session. Verily his is no bed of the way the popular wind blows, in adof roses. We tender him our sympathy.

Cheap Grain and Cheap Transportation.

It looks as if a concerted movement for relieving Chicago of her immense overstock of cheap grain were fairly begun. The railroads belonging to the big pool recently made a considerable reduction on east bound freight, and on Friday last a it is safe to say, are a hundred per cent still further reduction was ordered by brighter than this day year. Commissioner Fink. A Chicago despatch of that date says: Grain shippers say the prevailing rates for grain to New York today were twelve cents, three cents below the rate ordered by Commissioner Fink yesterday. It was officially stated that owing to the lack of harmony in the freight department the Niagara Falls Short line, composed of the Wabash, Baltimore and Ohio and Grand Trunk railroad line will be discontinued on April 1.

In its commercial columns the Montreal Gazette has these remarks on the new situation:

situation: No little surprise has been occasioned among our merchants at the further reduction in railroad freights, which came into force to-day (March 21), the rate on flour and grain being now down to the very low basis of about 13c. per 100 lbs. from Chicago to Montreal, which is equal to 26c, per bbl. on flour and 74-5c per bushel on grain. The rate on pork and meats from Chicago to Montreal is down to 18c. per 100 lbs. The rates from other line points are in proportion. Only think of car-ryrying flour at the rate of 26c per bbl. from Chicago to Montreal, when from Toronto to Montreal the freight is 30c per barrel, and proportionately higher from other Fying nour at the rate of 26c per boll. from Chicago to Montreal, when from Toronto to Montreal the freight is 30c per barrel, and proportionately higher from other western points in Canada. Probably when the Quebec road comes into working order the Canadian trade will receive benefit from the new competition. What will the lake and river transportation companies think of these fresh cuts i Should they be continued during the summer months, there is no getting from the fact that our canal traffic will be seriously affected thereby. The rate on flour and grain from Chicago to New York is now 15c per 100 bs.
Western shippers, it appears, have been prompt in availing themselves of the latest reduction in east-bound railroad freights, as tolegraphic advices received to-day report sales of 200,000 sacks of flour in Chicago for export, and of a lot of 30,000 sacks in Milwauke. These are the largest transactions on foreign account that have been made for some time, and were probably the cause of the advance in ocean freights at the Atlantic seaboard to-day. Rather a dull prospect for the lake trade, we should say. The vailway men appear

we should say. The railway men appear determined to have the bulk of the grain sent east before navigation opens. Flour carried from Chicago to Montreal for 26 cents, while from Toronto, about one third of the distance, it has to pay 30 cents, is something for the people of Ontario to think about.

States must come to free trade, but he was careful to add that it would never do to sacrifice existing interests, and that the

Samuel L. Clemens (Mark 1 Wain) is try-ing to dramatize one of his stories. With the exception of Bret Harte, he is the laziest man in the literary guild. Mapleson is in luck. His premiums alone on the seats for the extra week of opera in San Francisco were \$11,000. This will probably pay his fine for violating the fire ordinance by placing seats in the aisles of the opera house, and have a little bal-ance. Strauss has a new opera comique ready. It is called The Gipsy Baron, and will be given in Vienna. The librettist has chosen for his subject a Hungarian legend, and the chief action necessarily takes place in Hungary, with a change to gay Vienna. Terris will not return to America next season with Henry Irving, but will manage Daly's pieces in the English provinces. He change would have to be gradually made. Now, it is true that the cause of free trade is advocated by some very able men and by some very influential newspapers in the ance. United States. But it is a remarkable fact, to is no popular demand for free trade, but, on the contrary, a strong popular feeling against it. Republicans and democrats alike, the masses of the people are protecseason with Henry Irving, but will manage Daly's pieces in the English provinces. He will also fill a London engagement with tionists almost to a man. Free trade leaders there are, enough to handle a large army, but the army is not there for them Miss Anderson.

to handle. And it is highly probable that Fanny Davenport says that a residence of three months with her sister in Italy, a twelve-mile walk every day, a sober diet and no candy reduced her weight from 180 pounds to 133. dition to the many they have had already. There seems to be a great number of Irish

dramas on the stocks at present. About five Robert Emmet dramas are being writ-ten, while unintelligible Celtic names are being mentioned by the dozen. The fall wheat everywhere is reported to be looking splendid ; the snow is fast melt-Dion Boucicault is writing a book on the players of his time. He has a great deal of interesting matter to handle, and ing, and as there have been very few thaws during the winter the ground is rapidly absorbing the moisture. Farm prospects, intends to show how the commercial drama and speculative manager and artist have developed and under what conditions. The road companies are coming in fast.

The road companies are coming in last. Many actors are looking for the where-with to buy food and drink. The ought to be more provident. Any one can live well on the road for \$20 a week. Yet numbers who have been getting \$40 and \$50 a week frankly admit that they haven't saved one cent during the season. Tile draining is what will pay our farm ers better than any other investment. Those who put in tile drains in 1882 recouped themselves last season alone. At most it takes only three seasons to repay any outlay in this direction. The Hess opera company seems to have
