Why the Ford is the "Universal Car"

> DOWN among the orchards of Nova Scotia, the farms of New Brunswick, on Sherbrooke Street in Montreal, Yonge Street in Toronto, Portage Avenue in Winnipeg, on the far flung horizons of Saskatehewan and Alberta, up through the mount-ains of British Columbia, down Granville Street in Vancouver, on Goyernment Street in Victoria—it's the same story—half of all the cars you see are Ford cars—in many sections they are two to one Ford cars-in many sections they are two to one of all the other makes.

And it's the same story in Africa, Australia; Britain, Europe, United States—throughout the world—one half of all the motors on earth are Fords.

Why ?

Because the simplicity of the Ford Car adapts it to every driver.

—because the power of the Ford car carries it wherever the driver wants to go.  $\ _{*}$ 

-because its durability and rugged strength make it the car for every condition of usage.

-because of its low first cost and low cost of operation and maintenance.

The Ford Car is a good car for you to own.

After the service at the residence was concluded the long cortege fol-lowed her remains to the Busby cemetery where interment was made. Rub it in for Lame Back .--- A brisk rubbing with Dr. Thomas' Eclectric Oil will relieve lame back. The skin will immedately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in the pain comes out and there are ample grounds for saying that it is an excellent article.
