### DAUGHTER'S HEALTH

Lydia E. Pinkham's Vegetable Compound Helped Both Mother and Daughter

Lumsden, Saskatchewan.—"My mother had taken Lydia E. Pinkham's Vegetable Compound and when I needed something for my periods I took it and got good results. I recommend it to women with any female troubles and I know other women who have been helped by it and do the same."—Mrs. Max Rierza, Lumsden, Saskatchewan.

Many cases like this come to our notice. Lydia E. Pinkham's Vegetable Compound is often recommended by the mother and the grandmother too, for bear in mind, it has been helping women for nearly fifty years.

## SUPPOSE YOU WERE BLIND

Suppose you, having come to adult years enjoying the priceless privilege of sight, were to be suddenly deprived without warning of this most valuable of all senses.

Suppose you could no longer discern the faces of your loved ones; the brilliant azure of the sky at high noon; the deep red of the blush rose blooming in your garden.

Suppose you could not see your way across the room.

We tell you on the authority of thousands of blind adults that all these deprivations, bitter as they would be, would not affect you as would the feeling that you were of no longer any use in the world.

"I'm blind and no good!" that is the terrible feeling which makes the blind miserable, hopeless, lost!

But the cry of misery need no longer be heard. There is no reason now why even a man or a woman deprived of sight should not still become a useful, honored, prosperous and happy citizen.

And it can be done.      It is being done.

In Halifax, a great work for the blind has been going forward for two years. The Maritime Branch of the Canadian National Institute has for two years operated a workshop in Halifax where blind adults are trained to become self-reliant, happy and useful citizens.

Once we can achieve that, we have taken a great load of trouble from the shoulders of the afflicted blind.

**"Help the Blind to Help Themselves"**

The cost of operating this workshop is about \$2,000 a month. There is a debt on the building of \$35,000.

For two years the bulk of this cost has been borne by the Canadian National Institute, from funds supplied largely by the people of Toronto.

Nova Scotia owes Toronto a great deal more than money in this connection; Nova Scotia owes Toronto a debt which cannot fully be discharged in money.

We think that it is time Nova Scotia took the responsibility of the education of its own blind into its own hands. We feel that it is not just or desirable, purely from the Nova Scotia viewpoint, to ask Ontario people to carry this responsibility for us.

It is our job!      Let us do it.

### You can bring these blind fellow citizens into the light of day

The increased cost of everything since the war period came upon us has made it impossible for this work which is being done to help the blind in Nova Scotia to be carried on without a public appeal for funds.

**"Help the Blind to Help Themselves"**

The School for the Blind is urgently in need of money, and money is needed at once to finance the instruction organization of the Canadian National Institute, which beside the workshop already mentioned has extensive courses in home instruction which must not be permitted to lapse.

One of two things must now happen. Either the people of Nova Scotia will rally to the support of their blind fellow citizens or the splendid work which is being done for the blind in Nova Scotia must halt in its tracks.

The failure of the public to support the effort which is now being made to raise funds to carry on this valuable work will mean that there must be fewer blind people in Nova Scotia educated to the point of self-reliance and more of them condemned to suffer life long misery in blind helplessness to whom Death will come as a welcome release.

The responsibility rests upon every citizen of Halifax to help this cause in some way. We expect with confidence that the wealthy men and women of our Province will support us to the utmost extent of their ability.

But this responsibility is not to be carried by the wealthy men and women alone. Citizens who are not so well blessed with worldly goods can help us, too. No contribution can be too large, and none is too small. Even those who cannot give money can give their friendship, their sympathy and their verbal support.

"Inasmuch as Ye Did it and the Least of One of These Ye Did it For Me."
