

**Cleaned out,** as well as in—everything that is cleaned with *Pearline*. Nothing does its work as well, as easily, as quickly, or as cheaply. It divides the labor with you, and doubles the result. With it, you can wash the finest clothes harmlessly; without it, you will want to do the roughest housework carelessly. Never peddled. 25 JAMES PYLE, N.Y.

**SOME USEFUL HINTS.**

Sift a tablespoonful of pulverized sugar over the top of two crust pies baking, and see how delicious it makes them.

A gargle of salt and water used before retiring at night will strengthen the throat and keep off bronchial attacks.

When meat is broiling it will cook more quickly if a frying pan is turned over it. Frying may be hastened in the same way.

Powdered flint glass ground to an impalpable powder and mixed with the white of an egg makes one of the strongest cements known.

If your hand is broad don't wear rings on the little finger, says an authority, as this accentuates the width, and if your hands are long, no matter how white, don't load them with jewels; this will add to the horny look. It is better to keep them ringless.

Mahogany brown of a rich red shade is just at present a popular color for the handsomest dresses for dinners and receptions. Striped velvet, and bengaline, Russian velours, camel's hair, plain velvet and circled silk come in this dark, brilliant tint.

Among the luxuries of this winter is a man who comes once a month to clear out all bath pipes and set-bowl drains; and also the other man who lifts out the heater "registers" from the wall, wipes them out and replaces them carefully. These two officials cost less than doctor's bills.

**THINGS WORTH KNOWING.**

Clear black coffee, diluted with water and containing a little ammonia, will cleanse and restore black clothes.

Instead of toasting bread for pups, roast until crisp in the oven, putting it into dice before putting into the oven.

A large slice of raw potato in the fat when frying doughnuts will prevent the black specks from appearing on their surface.

Whalebones which have become bent and misshapen can be made "as good as new" by soaking them a few hours in water and then drying them.
