

Owing to the persistent attempt of numerous cigarette manufacturers to cope in part the Brand Name of the "Richmond Straight Cut." Now in the eleventh year of their popularity, we think it alike due to the protection of the consumer and ourselves, to warn the public against base imitations and call their attention to the fact that the original Straight Cut Brand is the Richmond Straight Cut No. 1, introduced by us in 1875, and to caution the students to observe that our signature appears on every package of the Genuine Straight Cut Cigarettes.

## DI-VARSITIES.

An absent-minded diplomatist lately made a funny blunder when he approached Mrs. X. to take leave of her at her "At home." The lady said to him, "Are you going so soon?" And he answered, "I always do at your house." He thought she had used the stereotyped expression, "I hope you have managed to amuse yourself?" to which he made the usual answer.

## THE CONCISE IMPERIAL DICTIONARY.

"Although the etymological part is not the most important thing in a dictionary for popular use, it is naturally the first point which attracts the critic's attention, because it is in this department that the ordinary English dictionaries are most conspicuously wanting. A very hasty examination of THE CONCISE IMPERIAL is sufficient to show that it is at any rate far superior in this respect to all its rivals. Of course the book must be judged by the standard of the present state of philological knowledge, and the author's etymological remarks for the most part give evidence of sound scientific judgment and careful study of the most trustworthy authorities. Nearly all those of his derivations, which we should ourselves dispute, have been sanctioned by scholars of deserved repute, such as Professor Skeat, Eduard Muller, and Littre, in whose company it is pardonable to err. The "Hints on English Etymology," prefixed to the work, deserve very high praise. In the compass of only three pages the author manages to give a lucid and accurate summary of the mutual relationship of the Aryan tongues, and of the leading phonetic laws affecting the etymology of English words. Not only is Grimm's law described in some detail, with well-chosen examples, but wonderful to say, even Verner's law receives a passing mention, and in terms which are quite correct as far as they go."—Extract from a review in the *London Academy*, by Henry Bradley, the eminent philologist.

To be had from all booksellers; in cloth, at \$3.25; in half morocco, at \$4.50.
