 (Savings Department at all Branches.)

An Economical Installation

There are many places where it is good engineering practice and also real economy to install electric cables for light, power, telephone or fire and police alarm service in the ground without conduits.

STANDARD Steel-Taped-Armored Cables

have given many years of satisfactory service installed in this manner, and in many cases their use has resulted in a saving of 50% as compared with single runs of cables in conduits.

Write our nearest office for Bulletin 680 giving complete information.
