

provision of such new and additional financial resources, particularly to developing countries, so as to enable the international community to take further appropriate action on the basis of accurate and reliable data;

(k) To identify ways and means of providing additional financial resources for measures directed towards solving major environmental problems of global concern and especially of supporting those countries, in particular developing countries, for which the implementation of such measures would entail a special or abnormal burden, owing, in particular, to their lack of financial resources, expertise or technical capacity;

(l) To consider various funding mechanisms, including voluntary ones, and to examine the possibility of a special international fund and other innovative approaches, with a view to ensuring, on a favourable basis, the most effective and expeditious transfer of environmentally sound technologies to developing countries;

(m) To examine, with a view to making recommendations on effective modalities for favourable access to, and transfer of, environmentally sound technologies, in particular to the developing countries, including on concessional and preferential terms, and on modalities for supporting all countries in their efforts to create and develop their endogenous technological capacities in the field of scientific research and development, as well as in the acquisition of relevant information, and, in this context, to explore the concept of assured access for developing countries to environmentally sound technologies, in its relation to proprietary rights, with a view to developing effective responses to the needs of developing countries in this area;

(n) To promote the development of human resources, particularly in developing countries, for the protection and enhancement of the environment;

(o) To recommend measures to Governments and the relevant bodies of the United Nations system, with a view to strengthening technical co-operation with the developing countries to enable them to develop and strengthen their capacity for identifying, analysing, monitoring, managing or preventing environmental problems in accordance with their national development plans, objectives and priorities;

(p) To promote open and timely exchange of information on national environmental policies, situations and accidents;

(q) To review and examine the role of the United Nations system in dealing with the environment and possible ways of improving it;

(r) To promote the development or strengthening of appropriate institutions at the national, regional and global levels to deal with environmental matters in the context of the socio-economic development processes of all countries;

(s) To promote environmental education, especially of the younger generation, as well as other measures to increase awareness of the value of the environment;
