

A *Form view* displays information that is specific to a particular task or resource. The most commonly used form views are the Task Form view and the Resource Form view. The Task Form view, shown in **Figure 4-6**, displays information about the Technical Review task. It displays the resources that are working on that task and its predecessor. Use the Previous and Next buttons to display information about the preceding or following task.

Name: Technical Review		Duration: 7d		<input checked="" type="checkbox"/> Effort driven		Previous		Next	
Start: Tue 9/1/98		Finish: Wed 9/9/98		Task type: Fixed Units		% Complete: 0%			
ID	Resource Name	Units	Work	ID	Predecessor Name	Type	Lag		
4	Sr Writer	100%	56h	10	Capture Screen Shots	FS	0d		

Figure 4-6: The Task Form View

The Resource Form view, shown in **Figure 4-7**, displays information about the M Monroe resource. It displays the tasks assigned to the resource, the amount of Work and Delay hours, and the scheduled Start and Finish dates of the tasks. Use the Previous and Next buttons to display information about adjacent resources.
