

ANNEX II
ENVIRONMENTAL COOPERATION

The following is an indicative list of areas of possible cooperation identified by Honduras for consideration in cooperative work programs:

- (a) strengthening environmental management systems, including:
 - (i) environmental risk management,
 - (ii) integrated waste management,
 - (iii) comprehensive management of chemical substances, toxic and hazardous wastes;
- (b) strengthening institutional capacity for the enforcement of domestic environmental laws, including:
 - (i) information system on the environment, including environmental monitoring,
 - (ii) surveillance programs to monitor and track the genetic resources,
 - (iii) monitoring and alert system of genetically modified organisms;
- (c) promoting compliance with domestic environmental law, including providing support to small and medium-sized enterprises to comply with this legislation, including exporting sectors;
- (d) promoting best practices leading to sustainable development, including through:
 - (i) use and development of cleaner production technologies,
 - (ii) promotion of production and trade of environmentally-friendly goods and services;
- (e) promoting best practices of Corporate Social Responsibility by enterprises within the territories of the Parties;
- (f) strengthening mechanisms for public participation in accordance with domestic law of each Party, including environmental citizenship and participation;
