

Further Improvements to the Approximate Analytic Method of Calculating Vibrational Transition Probabilities, P. A. Fraser, le 22 janvier, 1954. 14. Intensity Measurements of Molecular Spectra II. An Experimental Study of Band Intensities in the First Positive System of N_2 , R. G. Turner et R. W. Nicholls, le 10 avril, 1954. 15. Transition Probabilities of Molecular Band Systems, X. An Electric-Circuit Model of the One-Dimensional Schroedinger Equation, D. R. Fewer, L. J. Allen et, J. H. Blackwell, le 1^{er} juillet, 1954. 16. Transition Probabilities of Molecular Band Systems, XI. The Calculation of Overlap Integrals and Other Matrix Elements by a Simultaneous Equations Method, P. A. Fraser, le 15 juillet 1954. 18. Transition Probabilities of Molecular Band Systems, XII. Approximate Calculations of the Electronic Transition Moment, P. A. Fraser, le 15 juillet 1954. 18. Transition Probabilities of Molecular Band Systems, XIII. Collected Results N_2 , NO, O_2 , O_2^+ , OH, CO, CO^+ , W. R. Jarman, P. A. Fraser et R. W. Nicholls, le 15 août, 1954. 19. Electronic States of Molecules, I. Automatic Computation of the Electronic Wave Functions, R. C. Sahni, le 1^{er} février, 1955. 20. Transition Probabilities of Molecular Band Systems, XIV. r-Centroids: 'Average' Internuclear Separations Associated With Molecular Bands, W. R. Jarman et R. W. Nicholls, le 1^{er} mars, 1955. 21. Electronic States of Molecules, II. Automatic Computation of the Electronic Wave Function of the B^2g^+ and X^2g^+ States of the N_2^+ Molecule, R. C. Sahni, le 1^{er} mai, 1955. 22. Electronic States of Molecules, III. The Electronic Structure of BH, R. C. Sahni, le 1^{er} octobre, 1955. 23. Combustion Studies of Astrophysical Significance, I. A Survey of the General Mechanics of Flame Propagation and of relevant Experimental Techniques, G. V. Marr, le 1^{er} mai, 1956. 24. Final Report Contract AF 19 (122)-470, R. W. Nicholls, le 30 juin, 1956. 1.2 Contrat AF 19(604)-1718: 1. Combustion Studies of Astrophysical Significance, II. A Survey of Chemical Kinetics for Pre-mixed Hydrocarbon-Oxygen Flames, G. V. Marr, le 1^{er} juillet, 1956. 2. Combustion Studies of Astrophysical Significance, III. Spectroscopic Investigations on the Luminous Mantle found in Fuel-Rich Oxy Acetylene Flames: With Particular Attention to Temperature Determinations, Intensity Variations, and C_2 Radical Emissions, G. V. Marr, le 1^{er} mars, 1957. 3. Intensity Measurements of Molecular Spectra, III. An Experimental Study of Band Intensities in O_2^+ , CO and NO Band-Systems, D. Robinson et R. W. Nicholls, le 1^{er} février, 1958. 4. Studies in Atomic Collisions, I. A Numerical Method of Solution of some Equations and Scattering, P. A. Fraser, le 30 avril, 1958. 5. Intensity Measurements of Molecular Spectra, IV. Intensity Measurements on Overlapped Bands, D. Robinson et R. W. Nicholls, le 1^{er} mai, 1958. 6. Transition Probabilities of Molecular Band Systems, XV. Influence of the Vibration-Rotation Interaction on the Intensities of Diatomic Molecular Lines and Bands, P. A. Fraser, le 15 août, 1958. 1.3 Contrat AF 19(604)-4560: 1. Shock Tube Spectroscopy, I. The Shock Tube Spectroscopy, I. The Shock Excitation of Powdered Solids, W. H. Parkinson et R. W. Nicholls, le 15 juillet, 1959. 2. Transition Probabilities of Molecular Band Systems, XVI. Part I. Transition Integrals with Transition Moments of Exponential Form, P. A. Fraser; Part II. The Recursion Relation for Generalized Laguerre Polynomials and the Remainder Formulae for Overlap Integrals, G. P. Henderson, W. R. Jarman et P. A. Fraser, le 1^{er} août, 1959. 3. Shock Tube Spectroscopy, II. Spectroscopic Temperature and Intensity Measurements in A Shock Tube, W. H. Parkinson et R. W. Nicholls, le 15 août, 1959. 1.4 Contrats AF 19(604)-4560, AF 49 (638)-640, Nonr-2895/00: 1. The Spectroscopy of Ionic Collisions, I. The Design and Construction of a Simple 100 KV Proton Accelerator, E. M. Reeves, le 1^{er} juin, 1960. 2. Transi-
