

Sec. 29. — Any member or officer of the Board of Health shall have power to ascertain whether, in or upon any building, hotel, house, lodging house, or dwelling, now or hereafter to be erected in the city of Montreal, or on any lot of ground or premises in the said city, the ventilation, drainage, closets, privies, trapping of the waste pipes and sinks, and the condition of the cellars and any other arrangement on which health depends, are in such a state as not to be prejudicial to the health of the inmates; and if not found in such sanitary condition, according to the judgment of the said Board of Health, the said Board shall have power to order the owner of such building or premises to make such work or repairs, as in their judgment may be deemed necessary, and to assign the period within which such work or repairs shall be done.

*(Sec. 3 of by-law No 114.—The power and authority conferred in the said By-law No. 105 upon the Board of Health and the Health Officer as regards the construction, repairing or maintenance of drains shall henceforth be exercised and carried out by the Road Committee of the said Council and the City Surveyor, any thing contained in the said By-law to the contrary notwithstanding.)*

Sec. 30.—Whenever any existing private drain shall have been proved to the satisfaction of the health officers to be injurious to health by reason of its construction or condition, the said Board of Health is hereby empowered to order that the said drain be taken up and reconstructed of such material, size and with such fall and in such direction as the said Board of Health may determine upon; and thereupon, within eight days after notice shall have been given to the owner of the said drain or occupant of the property through which said private drain passes, the said owner shall
