

# THE Humboldt Library OF Science

is the only publication of its kind : the only one containing popular scientific works at low prices. For the most part it contains only works of acknowledged excellence, by authors of the first rank in the world of science : such works are **landmarks destined to stand forever in the history of Mind.** Here in truth is "strong meat for them that are of full age."

In this series are well represented the writings of **Darwin, Spencer, Huxley, Tyndall, Proctor, Clifford,** and other leaders of thought in our time. As well might one be a mummy in the tomb of the Pharaohs as pretend to live the life of the 19th century without **communion of thought with these its Master Minds.**

Science has in our time invaded every domain of thought, and research, throwing new light upon the problems of **Philosophy, Theology, Man's History, Government, Society, Medicine:** in short, producing a revolution in the intellectual and moral world. No educated person, whatever his calling, can afford to keep himself out of the main current of contemporary scientific research and exposition.

**The price** of the several numbers of the series is **fifteen cents**, except where a different price is named in the Catalogue.

When numbers are ordered from the publisher, fractional parts of a dollar may be sent in the form of **postage stamps.**

The Humboldt Library is published monthly : subscription price **\$1.50 a year** (12 numbers).

J. FITZGERALD, Publisher, 24 East Fourth St., New York.
