FRANCE EXEMPTED

FROM DISARMAMENT?

Berlin, Feb. 17."The so-called lea-gue of nations," is the headline placed by The Zeitung Am Mittag over its report from Paris giving the outlines of the proposed constitution of the new world society. The newspaper declares that the proposed league is simply a compact of alliance of five great nations who reserve the right to admit or reject other nations. The reservation in the disarmament clause that disarmament shall take into consideration the "geograppical situation" of a nation plainly means, The Zeitung Am Mittag asserts, that France shall be exempted from its provisions.

CONSERVATIVES IN WARD FOUR MEET

Hon. J. H. Ferguson, E. A. Donovan, M.L.A., and Dr. Charles Sheard Speak.

That Northern Ontario had a brilliant future in front of it as an agricultural country, was the emphasized cultural country, was the emphasized note struck by the Hon. G. Howard Ferguson, in his address to the Ward 4 Conservative Association, in Broadway Hall, last night. Reconstruction was the topic dealt with by Mr. Ferguson, who detailed the various steps taken by the Ontario government to guard against unemployment during the rehabilitation period.

There were to be \$24,000,000 expended, said the speaker, in every industry that the government could interest itself, in, apart from the Hydro, roadways and other public enterprises.

More teachnical education would be provided for, and the educational system now in force would be im-proved. The betterment of the domestic and social surroundings of the teturned soldier would be looked after by this outlay, out of which \$11,000,000 had been set aside for housing schemes and the like, to be erected in the industrial centres of the province. The speaker censured the city council of Toronto for not taking advantage of the government's offer of money for the purpose. The city, said the speaker, took no risk, other than providing an efficient staff for the administration of the money, and he could not see why the city fathers always more than the city fathers always "passed the buck."
Immigration was dealt with at length by Mr. Ferguson, who stated that in future, a province like Ontario, would have a considerable voice in the selec-
