

## Only by Service Can True Christianity Fully Express Itself.

Rev. Dr. Ribourg, preaching at St. Alban's Cathedral Sunday evening, on "The Life of Service," said in part :

"True greatness con- 3 in using all power and all opportunity for the good of mankind. A man who is really great cannot help being a minister, a man who is a true minister cannot help being truly great. Man Can only be great in one way, and that is, that in the process of becom-ing great he shall ennoble and bless his fellows.

"Therefore, it is of the very essence of greatness that it is only attain-able by service—a man to be really great must have a great heart. He must be able to understand his fel-lows and to realize the wants and needs of the various classes of men and do all that is in his power to make the world around him better. Whosoever would be great among you let him be your minister, and whosoever would be chief among you let him be your servant." "It we could really begin to believe

that the essence of true greatness lay in ennobling, in lifting up and in blessing mankind and not in dominion and subjection of mankind to our power for our own selfish ends, there is no doubt that we should find that true social reform would have begun, and the dawn of a better day would be at hand.

at hand. "True Christianity cannot but ex-press itself in a life of service. There-fore the man who is in the world for the only purpose of gratifying his selfish ends is neither great nor religious.

"The manufacturer from Sherbrooke "The manufacturer from Sherbrooke who last week was reported as saying that his factory was not built for the glory of God made a statement which reflects seriously upon the sad condi-tions now prevailing in the world of industry and commerce. It is just because the law of God is ignored in the markets of the world that the spirit of rebellion is everywhere ramp-ant. It is because selfishness and greed have driven all love, all spirit of greed have driven all love, all spirit of service out of the world of business, that we are witnessing thruout the civilized world the worst conflict that has ever been waged by men against men. When factories and markets are built for the glory of God, and the good of mankind and governed by the spirit of God, which is a spirit of service, of honesty, of loyalty, then we shall see men who besides making legitimate profits to which no fair-minded person is opposed, will be ready to offer their services to their generation and even to make sacri-fices for the common weal. He who truly worships God must, first of all, greed have driven all love, all spirit of fices for the common weal. He who truly worships God must, first of all, love men, for 'what ye do to one of these the least of my brethren, ye do it unto me.' Love and brotherhood must precede worship. Our duty to God means also our service to man. 'First be reconciled to thy brother, then come and offer thy gift' then come and offer thy gift.'
