and she bought me this one. See, it is the latest style. Has the
all-round belt, pleats down the front, slash pockets, full-fashioned
bloomers, and is of wool and cotton tweed. And how do you like
this medium grey shade? There were browns, but I liked the greys
better.

"It's of EATON make, too, and mother says she expects it to
give unusual wear."

"By the way, there was a suit just like yours of all-wool
navy blue serge, in the two-button, single-breasted style, only it was a

wanted the belt covers the waist seam. Has slash pockets, form-
fitting back, full-fashioned bloomers, with belt loops, side, watch and

MINERS' FAULT, NOT RAILWAYS

Stopped Distribution by Re-
fusing to Use Open
Cars.

Statements from Calgary given
widespread distribution that coal
mining operations at Wayne, Rose-
dale and Drumheller, in Alberta, were
suspended two days last week be-
cause Canadian National Railways
failed to deliver empty cars to the
mines, are given emphatic denial to-
day by D. B. Hanna, president of the
National lines. Mr. Hanna authorizes
the Canadian press to state that
western Canadians need have no
alarm about any shortcomings in cars

as far as Canadian National Rail-
ways are concerned.
"There were two days last week,"
added Mr. Hanna, "when there were
not sufficient closed cars to provide
for a full day's operations at the
mines at normal capacity. There
might have been sufficient had the
mine operators been content with
open cars. They themselves chose to
close the mines rather than utilize
to the limit the cars available."

"Up to October 23 and 24, there
had been more cars than were need-
ed every day, a substantial surplus,
in fact. The cause of the apparent
shortage on October 23 and 24 was
a sharp change in the temperature
and water troubles on the line. This
prevented the usual surplus going
forward. These troubles have now
been overcome and the coal operators
have plenty of cars, as usual. Be-
tween October 1 and 21, inclusive,
the Drumheller mines loaded 115-
662 tons, as compared with 88,374 tons
in the same period last year. This
required more than 700 extra cars."

"I would warn the public," con-

cluded the president of the National
lines, "that there seems to be a ten-
dency in certain quarters in Canada
to seek to embarrass the administra-
tion of the publicly-operated rail-
ways. The company is well aware of
the nature of the situation in West-
ern Canada, and the public may rest
assured nothing will be neglected to
insure safety and comfort."

IMPERFECT RETURNS

Many Returning Officers Misunder-
stood Instructions Given in
Provincial Elections.

It was stated at the parliament
buildings yesterday that a large num-
ber of the provincial election returns
are likely to be very imperfect in con-
sequence of returning officers having
misunderstood the instructions given.
Many recounts will be necessary, and
some days elapse before all the official
figures can be given out.
In the case of the referendum bal-
lots many of the figures do not tally,

but as the majorities were so large,
it is not expected that there will be
any recounts in this connection.

Prince's Autographed Portrait Is Appropriated by Unknown

Kingston, Ont., Oct. 27.—In the vestry
at St. George's Cathedral on Sun-
day the prince signed the register,
and at the same time placed his auto-
graph on two copies of the Royal
Military College program for Dean
Starr. The dean had hardly time to
turn round when some person appro-
priated both of the programs. Mayor
Newman had a similar experience.
The prince presented him with his
portrait bearing his signature at a
dinner on Saturday evening. The
mayor laid it on the table for an in-
stant, and it disappeared.

Woodstock, Oct. 27.—No new cases
of diphtheria or smallpox have been
reported here in the last ten days,
and the board of health believes the
epidemic, which showed signs of de-
veloping seriously here, is dying
