Marshall, Spader & Co. wired J. G. Beaty at the close:

There was an entire change of sentiment from yesterday, and the market recovered all the lost ground and closed at the high prices of the day. To-night sentiment is very much bullish. Shorts have covered freely all day, and there was a good class of buying in the deferred options. The trade is becoming more and more convinced of the serious damage that threatens the crop on account of the green bug. There was some selling on the hard spots, but all offerings were freely taken.

Eunis & Stoppani wired to J. L. Mitchell:

Wheat—Under the influence of more pronounced damage reports, revealed by the news from reliable parties traveling thru the southwest, and fairly firm markets abroad, our wheat opened higher, and later developed further strength with covering operations by several erstwhile bears. The upward tendency was accelerated later in the session, when a report from a prominent local statistician and crop expert, who is now in Oklahoma, was received confirming to a large extent some of the most sensational advices thus far received. This report was accorded more credit than advices of a contradictory nature from other parties, and the notable feature of the session was the covering of a large line of short wheat put out yesterday by a prominent commission house, and the accumulation of an equally large line of the long side. Aside from reports pertaining to the crop, there was nothing of an encouraging nature in the news. For the present the

Corn—Cash prices were ½c to ¾c higher. Small receipts and better shipping demand brought good buying orders in May corn, several of the larger commission houses taking large amounts. We believe corn will sell still higher before May 1.

Oats—Cash oats ½c to 1c higher, and commission houses were good buyers of the new crop months, owing to reported damage to the growing crop by bugs. The Patten house were the best buyers of May. Market closed strong and will sell higher.

When the kidneys are ill, the whole body is ill, for the poisons which the kidneys ought to filter out of the blood are left in the system. Then how important it must be to see to it that this system of sewerage be not clogged up. Those who have never been troubled with kidney trouble know not the misery and suffering which those afflict-

Cobalt Contact and Red Rock are both being pushed on a satisfactory basis.

Temiskaming is quite in demand, and will ship a car of ore that will be very close to the recarl.

will ship a car of ore that will be very close to the recarl. Watts is doing it agnificent work, as is Colonial on their property. Something will be heard from these later.

Cobalt Concentrators have secured a site for their mill, and work will be pushed rapidly. This is being very much appreciated the concentration of their mill. side. Aside from reports pertaining to the scrop, there was nothing of an encouraging nature in the news. For the present the market should continue nervous and susceptible to changes consequent upon advices from the field.

Corn and oats were well supported, and advanced rather easily; in fact, the demand for oats developed a rather tight situation, and was taken to indicate that should the large shorts attempt to cover, higher prices would surely result.

Myrtle, April 5.—(Special.)—Quinn and O'Boyle's sale of horses, as advertised in The World, came off most successfully here to-day, under the hammer wielded by George Jackson. Farmers were present from a long distance and secured animals that will help them thru the spring's work. Bay mare, aged 10 years, to Wm. Smith, Columbus, \$167.50.

**Properties and Prospects** The Gelden Horn Mines, Limited, owns outright two lots of 40 acres around Larder Lake, situate about 40 miles from the Town of Cobalt. The richness of the ore is marvelous. Assays already secured show as high as \$1700 to the ton in gold. With the lew capitalization and an active management now pushing the work of development, there is every promise that at an early date a substantial dividend will be earned and the stock be worth many times its original value.
