

Several of these have also been deemed interesting and fit for immediate publication. Four hundred copies of part of them have been struck off, and the printing of the rest is going on.

You will be pleased with the favourable statement which your Treasurer gives of the state of your funds. The Special Council, in its spring session, voted for our use, the accustomed aid of fifty pounds. This sum, along with the increasing funds of the Society from its own resources, and the recovery of some past arrears, has enabled the Council to accomplish the extensive purchases of books that have been made, and to leave a balance in the Treasurer's hands. The Legislative grant of three hundred pounds, made a few years ago for the publication of historical documents, has rendered it possible to proceed with the printing of the records already mentioned. That sum is now exhausted. But as, after supplying all the members both foreign and resident, and all the public institutions, a considerable number will still remain which may be disposed of by sale, the fund may in time partly supply its own waste.
