VICE-PRESIDENT AND MANAGING DIRECTOR'S ADDRESS. Addressing the Shareholders present, Mr. W. A. Black, Vice-President and

Managing Director, said: i am sure the statement presented to you today will be considered

Our Cereal mills have also been kept running steadily up to capacity, and the grain hardled outside of wheat for mills was unusually large and very profitable owing to the steadily advances.

This year we have shown the earnings other than those from flour maling separately, as the profits have been unusually large, and the impression prevails with some that an unduly large profit has been made on flour, which

It may interest some to know that our contribution to the Business Tax It may interest some to know that our contribution to the Business Tax this year will exceed the dividends paid to the holders of the Common Stock of the Company, so that while we have done well for our shareholders, we have also contributed very largely from our success towards the necessities of the Government. I would also like to state that we have a very large number of shareholders, and that the average individual holding is thirty-

The demand for flour has been so urgent this year that we have not been able to give our mills the general overhauling that they should receive, but proper depreciation has been made, and the work will be done as soon as While our wheat crop this year will not yield as much as we had hoped for at one time, it will be very near the average, and of most superior quality. It will go farther than the wheat of last year, yielding a greater amount of excellent flour.

Our mills are all running full time, and we have sufficient business on our books to keep them going for some time to come.
