WHAT GERMANY DID TO POLAND

Ruins Country, Then Asks Others To Relieve It

Situation In Warsaw

ity Impoverished Under Burden Placed on it by Huns Who Appeal To World to Aid the Destitute Poles

After the German atrocities in Belgium it is rather an anti-climax to mention the methods which the Germans have adopted in Poland. We have no record of them murdering children and women in Poland, for Poland is not a kingdom, but rather a collection of provinces. It is interesting to consider some of the results of their occupation of territory that was formerly Russian in view of the fact that Germany has pretended to be a sort of deliverer of Poland. She herself has millions of Polish subjects; Austria has more millions. Russia has many. From several quarters has come the suggestion that the war Poland may be re-established as a kingdom, but whether as a kingdom under German or Russian protection depends wholly upon the result of the war. Anyway, all the combatants have a large Polish population have tried to show that one of the certain results of the war would be an improvement in the condition of the Polish people.

McKer Appeals for Victim Germany's actions in Poland have been the benevolent professions she has made. She has called attention to the plight of the Poles who have come her way, but she has not appealed to the London Times remarked in an article on the subject: "Never before has murderers at large had either the audacity or the humor to appeal to the world for aid. It is a pity that the population of one million people in the hands of the enemy, was mentioned in a recent article in the Cracow Press. Multitudes at the Polish censor, this recital of the plight of a great Polish city forms a bit of commentary on the efforts of the Poles to relieve the Poles from Russian oppression.

careful perusal of it shows why relief is needed in Poland and why Germany's actions are so keenly getting the attention of the world. It is the ordinary expenditure of the last three years—the city of Warsaw has to bear an equally heavy burden of extraordinary expenses. Every month \$100,000 is spent on poor relief, \$28,000 on separation allowance, "Finally one has to add the expense of complying with the different demands of the German authorities, their exact amount cannot be estimated, but between August 5, 1915, and March 14, 1916, it was \$268,400." The German authorities, was estimated at \$21,680. In view of the rapid pauperization of the city, its financial needs could not (and cannot) be met by fresh taxation. Recourse was inevitably had to loans. Two loans have been raised since Warsaw has passed under German rule, one amounting to \$200,000, the other to \$1,000,000. At the present rate of expenditure a third loan would be necessary, and should it not be successful, "the city will be faced in the near future by financial ruin, of which the economic and social effects will be incalculable."

The Warsawians' Requests The city council, therefore, suggests to the German authorities a list of measures which would help towards relieving its financial distress. The list in itself is a most eloquent summary of some of the German financial dealings and exactions.

1. That the German authorities should return to the city the \$108,825 which they owe it.

2. That the city be freed from all requisitions and orders to provide supplies, especially beyond its own boundaries.

3. That the German authorities should pay back the money due to the city for supplies received.

4. That the city should be freed from the duty of feeding the garrison.

5. Also from building expenses and repairs of barracks, government buildings, etc., and should be compensated for similar expenses in the past.

6. That the expense of repairing the Prince Poniatowski Bridge should be borne by the German authorities as under the present conditions it is not required by the city.

7. That the city should be assisted in they owe it.

8. That the city should be freed from the duty of feeding the garrison.

9. Also from building expenses and repairs of barracks, government buildings, etc., and should be compensated for similar expenses in the past.

10. That the expense of repairing the Prince Poniatowski Bridge should be borne by the German authorities as under the present conditions it is not required by the city.

11. That the city should be assisted in they owe it.

12. That the city should be freed from the duty of feeding the garrison.

13. Also from building expenses and repairs of barracks, government buildings, etc., and should be compensated for similar expenses in the past.

14. That the expense of repairing the Prince Poniatowski Bridge should be borne by the German authorities as under the present conditions it is not required by the city.

15. That the city should be assisted in they owe it.

Goodyear "Made in Canada" Lowers Tire Costs

Goodyear Quality is not the only factor which enters into lower tire costs for Goodyear users. The Goodyear factory at Bowmanville has saved Canadian motorists thousands of dollars. Not only because of the mileage and satisfaction they put into Goodyear Tires. But because it is in Bowmanville—in Canada.

But here in Canada you don't even have to make this decision. You do not even have to depend on American proof of Goodyear mileage. Hundreds of Canadian motorists are getting 10,000 miles

In addition to a lower price, you get Goodyear Service—which adds 25% to 50% to the life of your tires. The Goodyear Service Station Dealer is a tire saver. His advice and help is well worth your seeking. He will— Tell you if you are using tires of proper size; tell you the proper inflation for the load you carry; and provide that inflation. He will advise you as to the benefit of more modern rims; the worth of an old tire; the advantages of

Imported tires cost 40% to 50% more in Canada than in their home market. This increased price of course adds nothing to the quality of the tire. It is the same tire as sold in the home market.

Please remember the above facts. They have a direct bearing on motoring costs.

Now note this. In the United States by actual count in 71 cities, one out of every five tires is a Goodyear. That means 21% of the tires sold in the States are Goodyears. There are over 200 other brands for motorists to choose. Many of these sell at lower prices in the States than do Goodyears. But American Motorists have decided that Goodyears give lower cost-per-mile

the steadily increasing pauperization of the city.

Growing Death Rate The misery is indescribable. In August, 1915—that is, in the first month of the German occupation—the death-rate was 15.88 per 1,000 (calculated to the year). It has risen steadily since October, 1915, and has now reached the figure of 34 per 1,000. (Here follows a significant deletion by the Austrian censor in the text of the memorandum as published in the Ctas.) At the time when Warsaw passed into the hands of the German occupation—the death-rate was being spent by the city, on the free feeding of the population; by March, 1916, this item of expenditure had risen to \$21,680. In view of the rapid pauperization of the city, its financial needs could not (and cannot) be met by fresh

taxation. Recourse was inevitably had to loans. Two loans have been raised since Warsaw has passed under German rule, one amounting to \$200,000, the other to \$1,000,000. the payments of separation allowances and pensions, as by their character these are charges incumbent on the state and not on the city.

But even more important than all these purely financial questions is the fundamental problem of the economic recovery of the city itself. "A city with a million inhabitants," the memorandum says, "cannot be fed except by a revival of its own activities." These came to a standstill when the battlefront crossed Warsaw, and have never been resumed as was hoped. At present only about ten per cent. of the normal number of workmen are employed in the Warsaw factories. Any money that is to be made in the city goes to Germany, and yet Germany now appeals to the world to help the poor Poles.
