

I. O. D. E. URGED TO FIGHT MENACE OF COMMUNISTS

(Continued from page 1)

Salvation Army, Y. M. C. A. and Y. W. C. A. B. C. IMMIGRATION Mrs. A. B. Hearn, British Columbia immigration secretary, in her report to Miss Gordon, said: "We face the fact of the unfortunate tendency of our young people to migrate to the country to the south of us, especially our young men, whom we have educated at great expense in our public schools and other educational institutions, and just when they should be prepared to give the benefit of that training to their own country, many drift away to our southern neighbor. A remedy for this must be found by higher authorities than we can claim to be, and I hope this remedy will be found very soon! But in the year ending 31st March, 1925, government statistics tell us that 44,178 Canadians returned to Canada from the United States of America. "It is deeply to be regretted that our Canadian governments do not see the necessity of making our Naturalization laws more stringent. Apparently outsiders are allowed to buy up our most valuable lands, timber and minerals, and may exploit them for their own benefit, without one thought of becoming British citizens, or owing any allegiance to the Empire for which they are deriving such benefit. "In closing I would draw your attention to the tremendous world-wide race-problem confronting us, and coming nearer every day with the seeming millions of China, Japan and India, like hordes brimming over with humanity. The wonderful advance made in education, manufactures and science, with its telegraphs and cables, its ocean, railway and air services, bringing the whole world into such close touch that existence everywhere is being revolutionized, especially so among the colored races, who are asking for equal rights with the white races everywhere. "The many sided problems of 'Immigration' and 'Migration' throughout the world are intricate and complex, and must be met by the closest study and effort of every thinking person. The immediate and practical solution of every one of us at the present time, is the building up of our own country and its National life, upon the solid foundation of British liberty, justice and truth, and we have a great task before us, calling for our concentrated wisdom and loyalty."

DEATH REGRETTED Mrs. Hearn referred to the great loss New Brunswick had sustained by the death in April of Mrs. N. S. Douglas, of Fredericton, Provincial convener of the committee. Her death was a sad blow to the I. O. D. E. throughout Canada, she reported said. "The report also referred to the important welcome being done during the winter months at the port of Saint John. "The report of the distinguished visitors committee was submitted by Mrs. G. Selva Holmsted, national convener, Toronto, who said in part: "This year distinguished visitors' committee convener was able to secure the itinerary of Viscount and Viscountess Alton for nearly all the provinces and this was promptly forwarded. Notice was also sent to the Duchess of Athol. REPORT ON GUIDES The report of I. O. D. E. Girl Guide companies, including the Dominion Malcomson, Ontario, national director, showed that the number of companies had increased from 15 to 25 in the past year. "In the meetings of the I. O. D. E. Girl Guide companies," said Mrs. Malcomson, "we never lose sight of the fact that our aim and object is to help these girls to honor the good, true and loyal citizens of the British Empire. "We look forward to the time when later they may become true 'Daughters of the Empire' as they are now its junior members. "The reading of reports such as these, must bring home to our minds, keenly interested as we are in the Canadianization of the foreign-born, the link work in true Canadianization that is being done in these I. O. D. E. Girl Guide companies. "It will be difficult in later years to teach the sinister doctrines of disloyalty and disorder to the women, who in their Girl Guide days, made her solemn promise to be loyal to God and the King, and lived up to it, as the first obligation of her Guide life."

WORK ON WHARVES Work was begun this morning on the renewing of the foundation under the New Pier, Pettibald and McLeod wharves, Commissioner Bullock said. being done in these I. O. D. E. Girl Guide companies.
