GERMAN POLICE WANT MONOCLE

Strenuous Objection to Order Prohibiting Its Use—One Thinks Wearers Should Receive Medals

Berlin, Jan. 26. (Associated Press Correspondence.)—An order forbidding the wearing of the monocle by officers and members of the Security Police, issued by the Prussian minister of the interior, has brought down upon the minister a veritable avalanche of abuse. It also has evoked the most urgent in favor of the ancient institution of the single eye-glass.

The minister described the wearing of the monocle as "an unbecoming habit," and attributed it to the vanity of officers rather than to any weakness of the eye.

His critics accuse him of being deficient in anatomical knowledge, of making a ground stand play to the profane, and of a malicious attempt to overthrow an old, honored, and common German institution.

A man's two eyes are very seldom of equal soundness, it is pointed out, and the use of spectacles might injure the sound eye while aiding the weak member. Therefore, it is argued, the custom is well established on physical grounds.

HAMILTON FACTORY TO MANUFACTURE MILK FROM CHINESE SOY BEAN

Hamilton, Ont., Feb. 14.—Some local men have organized a company for the manufacture of milk from the Chinese soy bean. Hamilton will have the first factory in Canada for the production of artificial milk. It is said that the scheme is practicable and that the milk produced is not inferior to cow's milk. The beans will be imported from the United States at first, but it is thought that farmers in the vicinity of Hamilton may be induced to grow them.

WAGES, PRICES AND RENTS. (New York Times.)

One distinctive economic movement which is likely always hereafter to be the lowering of wages. It is a movement which has never heretofore been occupied in a severe trade reaction and which is undeniably as logical in the present sequence of events as was the great fall in wholesale prices which preceded it.

The cost of labor was advanced after the armistice as violently and with as little consideration for the future as was the
