LOCAL G. W. V. A. FAVOR SITE AT HEAD OF KING

Official Sends Letter to War Memorial Commission Secretary

MOVE FOUNTAIN BIT NORTHWARD

Says Ex-Servicemen Agree This Is Best Meeting Tonight

In a communication to Miss Frances Alward, secretary of the Saint John War Memorial Commission, the Saint John Branch of the G. W. V. A. of Canada, through Alex. I. Macdonald, secretary-treasurer, express their desire to have the civic war memorial placed at the head of King street and the fountain removed to the north of its present location.

Make Statement.

They state that it is their belief that the site should be chosen, with, at least, the following considerations in mind: "First, it should be such as to give to the memorial due prominence and dignity, neither of which should be lessened by too close proximity of any other monument or by the overshadowing effect of buildings nearby."

"Second, the site should be such that the memorial would at all times and for all time be readily seen by the greatest number of citizens and visitors to our city."

Third, due consideration should be given to the probable future development of our city's traffic and street conditions."

The fountain.

They state their belief that the site occupied by the fountain is the proper place, as fulfilling the requirements enumerated, and as detracting from no other memorial or important civic object. On the matter of removal of the fountain they suggest that it be placed at the north side of King Square where custom has established a stand for teams and where the fountain would be of much greater service than in its present location."

Continuing on this matter they state: "In view of the spirit and purpose underlying the erection of the war Memorial we would feel that this object should not be held; that preference for that site should be granted the memorial and that the expense involved in moving the fountain, which would probably have to be done in comparatively few years anyway, should not be any bar to the taking of this step for the war memorial."

"From the comment of our members and ex-servicemen generally we find that the views expressed herein are practically unanimously concurred with by the returned soldiers of our city."
