That the attention of the Ministers and Friends is respectfully called to the *Christian Journal*. It is already found that the paper, as a weekly medium for disseminating religious and Connexional intelligence, is of great importance, and unless there is constant and vigorous effort in getting fresh subscribers, and remitting cash, its position will be endangered. It is hoped every Minister and Member of the Body will not fail in taking hold and employing his influence in the interests of this paper—the organ of the Church of his choice.
