di to SLOCAN CHTE: guodus animon (Slocance Plobeers) a sources The Australia, two and a half miles,

and the Richmond, four miles up Springer Creek, have been abonded by McGerry & Woolery. They intend to put a force of men to work on both claims. George Roberts and Bert Pearson last

week refused \$3,000 cash for the Silver Bryan, a prospect that they own on The Finch company's mining property Bryan, a prospect that they own on Twelve Mile. The offer was made by J. A. Johnston, of Sandon. The surface assays show \$7 in gold in 14 onnces in silver. The owners will work the ground themselves this summer. Mr. McCune purchased the Lexington,

Polly and Sunnyside Fraction claims from David Sutherland and Thomas Montgomery, the consideration named in the bill of sale being \$20,000, and will incorporate the properties under the name of the Lexington Mining Company, with a capital stock of \$1,000,-McGerry & Woolery have bonded the

Pacific and Gladstone properties on Springer Creek, from Alexander Stewart, John McKinnon, Melcher Johnson and Fred Brennerman, for \$30,000. These claims are four miles from town and are now accessible for summer development work, which will be continued. These claims are believed to have

the leads of the Lily B. and the Arlington groups. Mr. W. M. Brasch, the owner of the Pioneer group of mines, on Lemon Creek, is awaiting the disappearance of the snow to take in a force of men and an outfit of tools and provisions to his claims to do some extensive work this summer. Gold predominates in the ground owned by Mr. Brasch, one assay, made by Dr. W. E. Everts, of Tacoma, showing \$2,202.80 in gold and 20 ounces

in silver. An effort will be made during coming summer to build a road to the mines and if this is successful, shipments of ore will be made from the Pioneer group and other mines in the immediate vicinity. (Slocan City News.) Lemon Creek properties are becoming

nuch sought after by prospective purchasers. A bond of \$50,000 on a claim and a fraction is about to be consummated. J. E. Tattersall goes up Springer

Creek the first of next week to run a tunnel into the Violet, which joins the Chapleau. Assays from the Violet run as high as \$3,000 in gold to the ton, and Mr. Tattersall has been offered a large bond, but he proposes to find out its

true worth himself. sashing a si A rather startling rumor was prevathat gold had been discovered on Twelve. Mile Creek. In tracing the rumor the

started operations near Gladwin with a A letter of this character was sent to Sir Henri Joly, but he at once declined. will be sold by Deputy Sheriff Suther-There a number of railway bills before

parliament in which British Columbia is Near John McKay's ranch opposite interested. Two of them, as already Gladwin, a mountain of mineral, prinstated in the telegraphic dispatches have cipally copper, was struck a few weeks been held over until the policy of the ago and returns from rock sent away government on the Crow's Nest Pass give from \$10 to \$12. About fourteen road is announced. One of these is an act respecting the Columbia & Kootenay Railway and Navigation Company. This company, which, it ought to be said, is wholly controlled by the Canadian Paci-His claims are at Foster's bar, about fie, asks power to build a railway between some point on its present line be-twen Nelson and Robson on the south, and Revelstoke on the north, together with such brach or branches of that This is on account of the exceptionally railway or its main line, as are from time to time authorized by the Governor in Council, not exceeding in any one case the length of thirty miles. The company also asks power to extend its rallway from any point at or near Nelson, thence easterly to a point at or near Queen's Bay, thence easterly and southerly to some point on Kootenay Lake, and westerly or southwesterly and westerly from Robson to a point on the main line of the Canadian Pacific Railway at or near Hope, in the Fraser valley. Ex-Judge Clarke, who was present at the committee when this bill

came up, admitted that it was really the Canadian Pacific that was making the application. This drew forth the remark from Mr. Blair that it would be very much better if the Canadian Pacific came there in their own

name and not in the name of another company. But the minister of railways objected to granting the charter until such time as a decision had been reached regarding the Crow's Nest Pass, and therefore the bill was allowed to stand.

Another bill which was allowed to stand over awaiting the announcement on the Crow's Nest Pass is an act respecting the Trail Creek & Columbia Railway Company. In addition to those two bills the Alberta Railway & Coal Company's bill, which applies for a charter through the pass, was also kept back for the same reason.

An act to incorporate the British Yukon Chartered Company is also before parliament. Full reference has been made to this company already, but as a good deal has been said and written over the idea that the company wants to govern the whole Yukon country, it may be of interest to give the exact wording of this clause, which is as foltows:

"The company may enter into agreements with the government of Canada fer the performance of postal and police service, and other services, or any of them, or for the performance of such other duties of administration as may timber. The ledge was at the be imposed upon it by any such agreement, with the said government for compensation for such services by rovalty-upon precious metals mined in the Yukon territory of Canada; or for such other consideration as may from time to time be agreed upon. The company may Kevenre Mining Company, did Stat also enter into agreements with the government of the province of British Columbia for the performance of any services for the said government, and upon such consideration as may from time to time be agreed upon." It is not likely that this clause will pass in its present shape. after Dr. Landerkin has charge of a bill respecting the British Columbia Southern railway. This bill brings the local charber and material for the erection of Ar. F. J. Bitancourt's new residence at Vestivius Bay, which will commence the worths, was launched, and in tow building on or most the list June. She had also a lot of imper etc. for Mr. Scovell, of Gances Harbor, who is about building on the basis of of the Bunter was taken around to ing tonches that will make her Queen ing tonches that will make her Queen the company to extend its line from its. the company to extend its. the company to ext or over the eastern houndary of British. Columbia into the district of Alberta. thence in an easterly direction to Macleod, or to a point on the Macleod & Calgary railway, and thence easterly to Another rich strike has been made Lethbridge: Power is also asked to on Perry creek, about half a mile from lease the road to the Canadian Pacific Railway. SLABTOWN: BARNARD AGAIN FLIES Inventor of the Airship Travels From Nashville to Madison. Nashville, Tenn., May 15,-After much lifficulty in getting off yesterday at 7 "clock, Prof. Barnard attempted another woyage with his airship. It sailed aloft rapidly, and as Prof. Barnard vigorously worked the bicycle pedals of his propelling and steering atachments, the airship turned around several times, but was drifting with the wind. It passed over the centennial grounds, floated rapidly over the city at a high North Assay returns give from estable \$20 in gold. J. E. Hardman, of Montreal, who bonded some property on Perry Creek list fall, is on his way to Steele with a portable stamp mill, which will be used for testing ore in the vicinity of Perry Creek. In a northeasterly direction, and passed out of sight in the gathering twilight. At 7:45 o'clock the machine landed near Madison, about twelve miles east of this city. Prof. Baruard says of this trial trip: "I, find that I can manipulate the ma-

claims were recorded last week and development work is being done by Miles Silverthorn. Wm. Shannon, representing Vancouver people, recorded several claims last week. half way between Lytton and Lilloost," and reports from his assays are \$32. Wednesday afternoon, shortly to erect an addition to his dwellings, of the lake and be placed in readiness Messrs, A. B. and J. A. Bitoncourt are for the enormous business awaiting her,

FORT STEELE.

Fort Steele Prospector. the The ore is a free-milling falls.

tions are called the London, Treasury Box and the New York Jewelfry Box. The ledge crosses the old placer diggings of early days, and trends in a northerly

direction, and is some 60 feet in width and can be traced upon the surface for 500 feet. Several important discoveries of gold

quartz have been reported, situated on the western slope of the main range of the Rocky mountains, within three miles of Fort Steele. Several leads have been found varying from 4 to 8 feet in width. Assay returns give from \$8 to

A large number of prospectors are prospecting in the vicinity of Tracey chine right of left, even in a light wind. creek, and some 70 or 80 locations have This is certain. I cannot go directly heen made between Tracy and Cheep against a wind of eight miles an hour creek. The ore in this vicinity carries with muscular power as at present an-gold and silver and copper. Over one ranged, but by cutting across obliquely I can make progress in the direction de-

tains at this point. An unusual activity is noticeable on Wild Horse creek; many rich strikes of

Eurther trials with changes in ap paratus will be made.

So successful have the English been in the administration of Barmah since its conquest a few years ago, that it has just been endowed. With the same ints, just been endoned, with the same civil, government, set the remainder of the provinces of Queen Vistoria's Indian empire. The British descrete all the more credit for, what they have done in Bus-man, as its population, enjoys a reputa-tion throughout the Qrient of being the most turbulent, savage and unruly of
