

See That You Get "GOLDEN RULE" or "WHITE RULE" FLOUR FROM YOUR GROCER...

CHATHAM'S UNDERWEAR, summer coats and vests, etc. best in the world at Murdoch's—See adv.

The "ADVANCE" is for sale at Johnson's Bookstore, and the circulating Library, Diamond building, next door to the Telephone Exchange.

The Liberal-Conservative party's headquarters in Chatham are in the old customhouse, Water Street, and their flag waves over the street at that place in token of coming victory.

TOWN COUNCIL MEETING.—The first meeting of Chatham Town Council is to be held this, Thursday, afternoon at half past three o'clock in the Masonic Hall.

"MAKING RAY"—Manager F. J. Burns of the "Caracas Railway" has arranged to run an excursion train on Tuesday next—tomorrow day. It is to leave Chatham at 7 a.m., and terminate in Beltham at 4 p.m.

MIRAMICHI MARKET NOTES.—No experiment in buying from us. We always send out the best stock and work that can be obtained. No order too small, none too large. We are watching the market for any correspondence on the subject of cemetery work.

THE CUT OF THE BAG.—When "a certain party" was telling the taxpayers on Monday evening of last week to beware of a certain candidate who was seeking his own ends in the election, he forgot to add that he himself was simply working to secure for himself the Town Treasurer's office. Who was the self-seeker?

A LOVELY PAIR.—The Liberal Herald holds the world up as a model of consistency in connection with the late Mayor's election. Somebody referred to "revels" and "frolics" and, immediately, the party fell on each other's necks and roared at each other.

Ayer's Sarsaparilla requires smaller doses, and is more effective than other medicines.

APPLICANTS.—Amongst the applicants for the office of Town Clerk and receiver of taxes, the names of Messrs. Wm. Johnston (the present incumbent), H. H. Palmer, E. E. Blair, Geo. Stothard, John Forthbringham, Alexander Leshman and W. O. Winslow are mentioned. It is said that Mr. Winslow's previous understanding gives him "the inside track." The world, for once, loses the sentiment of the community by opposing the deal.

AFTER OFFICE.—The "unapproachably correct" who supplanted Mr. George B. Fraser in good old family company style, is now making for another office to which a donee has been better advised. The ADVANCE has been notified by Mr. Winslow that it will receive no town printing or other patronage as he has deemed that his name shall not appear even in the advertising columns of this paper. His appointment will, therefore, be a direct movement against the legitimate business interests of the ADVANCE.

AN ATTRACTION to buyers of family groceries, provisions, dry goods and general household supplies is offered by Mr. Roger Flanagan at his well known store on St. John Street, Chatham, in the form of silver knives and forks, silver spoons, silver crockery and boxes of toilet articles, which are presented by customers every time they make purchases, and no matter how small the amount, it is punched off, and when the purchases aggregate either \$15 or \$20, as the case may be, one of the articles specified via a card, either a dozen of silver knives or forks for a \$20 ticket, or a 5 lb. box of tea, or 1 doz. silver spoons for a \$15 ticket is given free.

Ayer's Pills are palatable, safe for children, and more effective than any other cathartic.

NOR IS IT.—It is probably not true that Mr. Stewart of the World was paying the way for himself to the Town Clerkship when he supported both candidates in the late mayoralty contest, for the World, in opposing Mr. Winslow for the office says:—"The office, in opposition to the candidate given to a private lawyer, or to a newspaper publisher, or to anyone engaged in business."

In addressing itself individually to members of the Council on the subject, the World says:—"If Mr. W. S. Loggie wanted a man to collect five or six hundred accounts every year and keep a set of books, would he give Mr. Winslow a job? No, he would not. Not at all. That's not the kind of a business man he is. But what will Alderman W. R. Loggie do? Will he give the salary to Mr. Winslow because he is a shareholder in the W. S. Loggie Co., the solicitor of the Bank of Montreal, and a personal and political friend?"

FRIENDLY PERSONS have asked us not to pay attention to what Mr. W. O. Winslow has stated in the Herald and elsewhere against the editor of the ADVANCE, but if we were to do that it would only encourage him to further offending. Our friends will not we hope blame us for the criticism we make occasionally of that person, in view of the fact that both he and his father have made a business of endeavoring by personal canvass as an agent of the Bank of Montreal and elsewhere to induce the patrons of this paper and the job printing office connected with it to take their work from both. They have succeeded in some cases, simply because they are respectively manager and solicitor of that bank, the influence of which is thus used to further their own personal and political ends. Our offending is, we believe, in the fact that the ADVANCE does not support their views of Dominion politics, and it is a mean way for securing political revenge and we propose to resent it, until they "call off their dogs."

CLARENCE H. REWARD.—The World, whose editor is a close personal friend of Mr. W. O. Winslow, says that person is one of the first applicants for the best paying office in the newly incorporated Town—that of Town Clerk and Treasurer. People wondered at this and Mr. Winslow displayed in the recent election and could not believe it was disinterested. Now, he wants to slip in ahead of more deserving men, and secure what he thinks is an easily obtained position, just as he did the solicitorship of the Bank of Montreal when he was unfairly supplanted a gentleman who had actually performed the duties thereof, faithfully and well. They need to call such people impostors in old times; later it was family-competition, and we presume that those who are responsible for him think Chatham is sufficiently behind the times to still be a field in which that policy may

be profited. The ADVANCE cannot favor such a man holding the office of Town Clerk and Treasurer because he has been, for more than a month, canvassing our customers not to send business to this office. Mr. Winslow's pre-election statements, advertisements in the ADVANCE, telling them he would not have his name appear in this paper—such a name!

Dead Infant Found.—On the shore at Esplanade Point, on Friday last, the body of an infant was found by Mr. Wm. Mansel, half buried in the sand on the shore, and with two flat stones placed over it. Mr. A. G. Willison, whose appointment as a coroner was gazetted some forty miles to Chatham for a coroner, and afterwards for a doctor, Coroner M. S. Benson drove down on Saturday and inquired into the case.

The jury heard the testimony of Alex. G. Willison, Wm. Mansel, Ernest Ross, J. J. Keary, Justice LaBanc, Elizabeth Comman, Bridget Thomas and Manuel B. Mansel. The child was returned as that of a child of unknown parentage and had come to its death from some unknown cause.

Sale of Pure-Bred Pigs.—The sale of pure bred pigs imported by the Provincial Government took place on Saturday last at the Canada House yard Chatham. There was a good attendance of farmers of each stock, and the six animals offered were admirably fine specimens. The average that would have been given for pigs of the same age which are usually brought here in inland sections. Mr. W. W. Wynn was the auctioneer and the prices realized were as follows:—

No. 1 White Chester Sow 6 mos. old, top litter in September, F. E. Winslow, \$12.00.

No. 2 White Chester Sow 11 weeks old do \$4.00.

No. 3 White Chester Sow 9 weeks old, John McKay \$3.00.

No. 4 White Chester Sow 11 weeks old, Geo. E. Fisher, \$2.25.

No. 5 White Chester Sow 9 weeks old, Geo. P. Smith, \$4.50.

No. 6 White Chester Sow 9 weeks old, Bryan, \$2.25.

The Green-Rays Monitor.—Because the leader of the North Shore party publicly commented Mr. D. G. Smith's objection to his work in connection with the Town Incorporation Act, Mr. W. C. Winslow of the Liberal Herald is very angry. This is what the Herald says on the subject:—"Mr. D. G. Smith was complimented for the ability he displayed in making an act which was so much superior to any bill of incorporation prepared by the committee appointed by the Chatham taxpayers, or any act of incorporation which had ever been made. It is a huge blunder from being so good. It would require a Philadelphia lawyer to work out its intricate and ambiguous provisions. The author of the bill knows as much about drafting a bill of incorporation as he does about building or sailing a catamaran."

Real lawyers have a difficulty in understanding the Act, but so well informed person would expect a mere advertising solicitor and insurance agent to know how to construe it. If Mr. Winslow will consult the law firm in St. John to which he has so often referred, questions on which he himself is incompetent to give an opinion, he will find that the Incorporation Act is all right. His admission that he does not understand the act to understand it will not be considered a personal drawback in connection with his application for Town Taxes, from which he is seeking to oust Mr. Johnston, as he did Mr. Fraser's office. The solicitor of the Bank of Montreal.

A Wicked Young Horse.—Last Thursday afternoon Mr. Matthew Lynch of the Ribbistob Road was driving along Water Street towards Neslin's corner, when his horse—a young one named usually and ran off. In attempting to hold it one rein broke, which had the effect of turning the animal against the corner sidewalk and upsetting it. Mr. Lynch was thrown, his head and back were severely injured, and he was unable to get up. He was taken to the hospital, and is now lying in bed, unable to get up. He is now lying in bed, unable to get up.

Lobsters are reported a fair catch at Green Point, and of very fair quality; the rough weather is very much against operations, so much so that all the traps are not out yet.

I have a freak of nature to report—Recently one of my cows had a calf, the body natural but it had two heads well formed and joined together, three legs, one on each side of the head, and a third on the centre of the forehead—4 eyes, 2 in each head the two heads resemble each other; color dark red with white stars on forehead. It came dead. I skinned it carefully and salted the skin and intend having it stuffed by a taxidermist. The animal is doing well.

Politics are fast just now around here. It appears that there are several aspirants for the position of Dominion representative on the 23rd. The more the merrier.

The W. S. Loggie Company has erected a splendid building on Polemochs beach, in connection with their lobster business, and have evidently got men well qualified to attend to the business.

F. J. Gattain has also a fine establishment in connection with his salmon business and his men are active and experienced.

Yours truly, W. WALSH.

Marine Corps.—There are more than one sort of Corps. Some have it planted in the ground, and other sort don't need planting; they grow quite naturally on men's toes and don't need watering. This kind of Corps has two sorts—one gentle or tender like until Bill Jones steps on your foot, when it gets better and sweats like everything; the other is hard headed and makes a row all the time, especially when your boots are on. J. don't like to know and use the existing medicine, Putnam's Painless Corn Extractor, which removes them painlessly in twenty-four hours.

"Advances" St. John Letter.—AN HONORED CANADIAN—A FAMOUS CANADIAN WOMAN—THE MARKETS—GENERAL NEWS NOTES.

The citizens of Minneapolis witnessed a novel sight on the 28th ult.—the removal of the first house built within the city limits to Minneapolis Park, where it will stand as a memorial to its builder, and a reminder of the early days of the great flour milling centre of the west. It is a one story modern structure and originally stood on the site of the Union Depot, one of the largest and finest edifices of the kind west of Chicago. It was placed on rollers and moved to its present site by 7,000 school children in relays of 1,000 each, and the time occupied in the task was about 44 hours. The house was built by Col. J. L. Stevens, a native of the Province of Quebec, in 1848, whose "claim" included the original town of Minneapolis and the business centre of the city, and was once a well cultivated farm. Colonel Stevens was the original registrar of deeds in Hennepin County, and he has served several terms in the state legislature. He was succeeded by Mr. F. E. Neale against Mr. Snowball, but Mr. Neale went one better by entering a protest against Mr. Snowball's qualification on the grounds stated by Mr. W. C. Winslow in the after-speech he made on Monday night of last

week, in which he asserted that Mr. Snowball was disqualified to run for the office of mayor because of having a contract for lighting the town. The form in which Mr. Neale put his protest was more ambiguous than Mr. Winslow's pre-election statements, being that Mr. Snowball was not legally qualified to be nominated for the office of mayor as he was at the time and still is directly and indirectly interested in a certain contract for lighting the Town by electricity, which was incorporated in a plan which he has an interest otherwise than as a shareholder. These applications and the protest are all within the rights of Mr. Neale and Mr. Neale, respectively, to make, and it is not easy for properly balanced persons to understand why anybody should get excited over them. They will, doubtless, be properly considered and determined by the Council as the law provides and people will, we hope, not be so foolish as to continue calling each other names on account of them, as some who ought to know better have been doing. It is childish and has a demeriting effect on the Town and makes a laughing-stock of the place in the eyes of people of healthy mind.

A stimulant is often needed to nourish and strengthen the roots and to keep the hair a natural color. Hall's Hair Renewer is the best tonic for the hair.

Methodist Church.—The annual meeting of the Miramichi District assembled in St. Luke's Church on the 9th inst. at 2:30 p. m. The Chairman, Rev. James O'Byrne presiding. There were present Revs. Wm. Harrison, Balthazar, Geo. Harrison, Newcastle, J. S. Allen, Richibucto, George Steel, Chatham, Henry Penna, Derby, E. Ramsay, Bouchouche, J. W. McDonald, B. A. Harcourt and W. A. Thomson, Campbellton.

After devotional exercises, in which most of the ministers participated, the Rev. J. W. McDonald was elected Secretary. The only superannuated in the district is the Rev. Geo. Harrison who is unable to do the full work of the ministry and was recommended to conference to be continued in a ministerial relation. One minister who had died since last meeting, the Rev. L. S. Johnson. He passed away in California last year during the sitting of conference. He had been one year an invalid. His obituary for insertion in the printed minutes was left to be prepared by Rev. J. S. Allen.

Mr. Ernest M. Smith, from Glen Argyle, O'Connell Co., was before the meeting as a candidate for the ministry. He had been two years at Mount Allison College, and had passed the examination before the board of examiners. He was fully examined in reference to his fitness for the work of the ministry and the evening prayer meeting. Most of the members of the district being present, he was sustained, received as a candidate by the district meeting and recommended to conference to be received on probation.

Yesterday morning the following lay representatives were present in addition to the ministers named above—Messrs. Geo. N. Clark, Newcastle, T. W. Campbellton, R. W. Beers, Richibucto, and R. B. Bennett, Chatham. The meeting was engaged all the morning in receiving reports from the various districts of the district. The returns show that the schemes of the church have been well supported. The meeting is still in session as we go to press.

Gloucester News.—INVERMAY, CO. GLOUCESTER, N. B. June 1st, '96.

MY DEAR SIR:—A few lines of news for your valuable paper may not be out of place. The snow disappeared early with no rain, consequently frost remained in the ground until late. However, recent rain caused vegetation to spring up, and farmers are now busy getting crops in. As for Alewives put in as a appearance on the 25th May, much more plentiful than in former years and held on for three or four days, they then slackened off. They are scarce to-day, but of fair quality.

The salmon catch is good, so far, at Green Point; weather very rough; fishermen unable to get all their nets out as yet, and they cannot attend those that are out properly.

Lobsters are reported a fair catch at Green Point, and of very fair quality; the rough weather is very much against operations, so much so that all the traps are not out yet.

I have a freak of nature to report—Recently one of my cows had a calf, the body natural but it had two heads well formed and joined together, three legs, one on each side of the head, and a third on the centre of the forehead—4 eyes, 2 in each head the two heads resemble each other; color dark red with white stars on forehead. Gloucester News.—INVERMAY, CO. GLOUCESTER, N. B. June 1st, '96.

MY DEAR SIR:—A few lines of news for your valuable paper may not be out of place. The snow disappeared early with no rain, consequently frost remained in the ground until late. However, recent rain caused vegetation to spring up, and farmers are now busy getting crops in. As for Alewives put in as a appearance on the 25th May, much more plentiful than in former years and held on for three or four days, they then slackened off. They are scarce to-day, but of fair quality.

The salmon catch is good, so far, at Green Point; weather very rough; fishermen unable to get all their nets out as yet, and they cannot attend those that are out properly.

Lobsters are reported a fair catch at Green Point, and of very fair quality; the rough weather is very much against operations, so much so that all the traps are not out yet.

I have a freak of nature to report—Recently one of my cows had a calf, the body natural but it had two heads well formed and joined together, three legs, one on each side of the head, and a third on the centre of the forehead—4 eyes, 2 in each head the two heads resemble each other; color dark red with white stars on forehead. It came dead. I skinned it carefully and salted the skin and intend having it stuffed by a taxidermist. The animal is doing well.

Politics are fast just now around here. It appears that there are several aspirants for the position of Dominion representative on the 23rd. The more the merrier.

The W. S. Loggie Company has erected a splendid building on Polemochs beach, in connection with their lobster business, and have evidently got men well qualified to attend to the business.

F. J. Gattain has also a fine establishment in connection with his salmon business and his men are active and experienced.

Yours truly, W. WALSH.

Marine Corps.—There are more than one sort of Corps. Some have it planted in the ground, and other sort don't need planting; they grow quite naturally on men's toes and don't need watering. This kind of Corps has two sorts—one gentle or tender like until Bill Jones steps on your foot, when it gets better and sweats like everything; the other is hard headed and makes a row all the time, especially when your boots are on. J. don't like to know and use the existing medicine, Putnam's Painless Corn Extractor, which removes them painlessly in twenty-four hours.

The medicine to cure must possess the virtues and powers to strengthen the entire nervous system. Paine's Celery Compound is the only medicine that can build up and tone the nerves, and give to the life-stream—the blood—that purity and richness that guarantees freedom from disease. Hundreds of physicians are prescribing Paine's Celery Compound every day for all forms of heart trouble, and their success is marvellous and encouraging.

Those who experience all the awful symptoms of heart disease, those who are brought to the verge of the grave by nervous debility, mental depression, sleeplessness, dyspepsia, liver and kidney affections, find in Paine's Celery Compound a true friend and life-giving agency.

Mr. E. Rankin of Contrivert, Ont., writes:—"With great pleasure I beg to inform you of the good I have received from the use of Paine's Celery Compound. For a number of years I have been in very poor health owing to various causes, and lately I was advised to try your medicine. I used three bottles and have received a world of good. My several headaches are completely banished, and the heart disease from which I have suffered for thirty years, has almost disappeared, and altogether I am vastly improved. I am fully convinced that Paine's Celery Compound is all that it is recommended to be."

No notable changes have occurred in the price of my last report's business, however, the demand upon some of our wholesale merchants being nearly double what it has been in previous years, especially for fine groceries, furniture, etc. Our book, "Daring for Profit," more than 100,000 copies have been sold in Canada and the United States. One of her daughters is married to a gentleman interested in the Nova Scotia Steel and Iron Co. of Yarmouth County, Canada. Mrs. Jones continues a biographical sketch of Mrs. Jones, with portrait.
