HE SAYS UPPER HOUSE MUST GO IN DISCARD

Toronto Controller Tells Municipal Convention Should Abolish Senate.

MISTAKE TO KILL THE HIGHWAY BILL.

Canada Should Have First Class Road from Coast to Coast—To Tax Real Estate Profits—Interesting Discussion at Saskatoon Meeting.

Saskatoon, July 16.—At this afternoon's session of the convention of Canadian municipalities, Controller Church, of Toronto, in discussing inter-provincial highways, said Canada was hurrying behind on the roads and highways questions. A good road was wanted from coast to coast and better roads in all parts of every province. He condemned the Senate for throwing out the Highway Bill, and declared that the upper house should be abolished. The inter-provincial highway should, he declared, be built with a view to the future and should have a permanent base. The federal government should build the trunk lines and the provinces and municipalities the local and lateral lines. Hon. Mr. Stewart, Minister of Education, for Alberta, followed with a brief speech touching upon the question of civic government in that province. Mayor Oliver, of Port Arthur, then introduced his resolution to the effect that the union request the various provincial governments to take up the idea of a great inter-provincial highway, and that the federal government be urged to assist the scheme by means of federal subsidies. The motion was enthusiastically endorsed. Continued on page 2.

Prince Albert Trades and Labor Council Issues Circular Calling Attention to Dull Times in West.

Prince Albert, Sask., July 16.—The Trades and Labor Council of this city is adopting drastic methods in an attempt to enlighten the workmen of the Old Country as to what they consider and declare to be true conditions not only in this city but throughout Western Canada. Circulars headed "The Workmen Struggle for Existence in Western Canada," have been issued in which various phases of life in Western Canada are dealt with, chances for laborers, high cost of living and prospects of homesteads, etc.

At present the supply of labor is greatly in excess of demand, says the circular, and warning is given which follows the lines of the resolutions passed by the Trades and Labor Congress yesterday. It is signed by officials of the local Trades and Labor Council.

ASSAULTED RANCHER WITH WHIFFLE-TREE

Hired Man Beats Employer to Ground and Leaves Him Unconscious.

BATTERED SECOND MAN WITH BUTT END OF GUN.

Lloyd Atz Leaves Victim for Dead After Merciless Beating—Women Heroically Go to Rescue.

Manor, Sask., July 16.—While his employer, C. D. Benneson, was stabling his team last night Lloyd Atz, hired man at the Silvermoon Ranch, south of here, made a vicious assault upon him with a whiffle-tree, beating the unarmed man to the ground. Benneson struggled to his feet and staggered toward the house, but Atz followed, and within a few yards of the door made a second attack, leaving his victim for dead. Benneson, however, managed to make the house, where he was taken in by his wife and a Miss Wolfe. Atz had disappeared, but the women's cries for help attracted John Broeknow and his wife, who were driving past. Broeknow now barred the doors, as Atz returned to the house. The hired man made an unaccounted effort to enter and then went away. About this time Miss Wolfe remembered the other hired man, Leonard Warno, was somewhere about the farm, and she went out into the night to find him. After a brief search she found Warno near a straw stack unconscious and with terrible wounds on his face and head. Despite the fact that Warno weighed 180 pounds the girl raised him and carried him on her back to the house. Nothing more was seen of Atz.

When Warno recovered sufficiently to speak, he told of a vicious attack made upon him by his fellow employee, who battered him with the butt end of a rifle, the butt of which was found to have been broken in two places and the barrel was covered with blood. The Mounted Police were notified and are scouring the country for Atz.

LIBERALS IN HALIFAX ARE VERY ANGRY

Over Col. Sam Hughes' Action Regarding the Garrison "Wine Bibbers."

GRIT PRESS HASTENS TO DEFEND OFFENDERS.

But Ottawa Advice Are that Minister Has Power to "Arbitrarily Remove" Drunken Officers.

Special to The Standard.

Ottawa, July 16.—According to despatches from Halifax printed here, it would seem that the Liberal press of that city has entered into an active defence of those officers who drank too much liquor at a temperance dinner to which they had been invited and, in consequence, insulted Sir Ian Hamilton and Dr. Mackay. It is claimed that the Minister of Militia has not power to "arbitrarily remove" the offenders, and the apology adds, "It is not thought here that drinking wine at a dinner would be considered sufficient excuse to cashier a man, if he were court-martialed."

It is pointed out here that the officers were invited to a dinner which was to have been a temperance affair, and that when they accepted they knew their host's desire. Whatever is felt in liberal circles in Halifax the feeling does afford a man has a right to give a temperance dinner and that those who accept an invitation are bound to respect the conditions attached. As for the declaration that drinking wine at a dinner would be considered sufficient excuse to cashier a man, the remark heard here is that conduct unbecoming a gentleman, and that the royal navy recently on two occasions afforded interesting precedents. In each case a lieutenant who had shown a tendency to over-indulgence had been placed by his captain under detentive orders not to exceed a certain number of drinks a day. In each case the officer exceeded the number, and was court-martialed and punished with severity.

BRIBE-TAKERS IN PRUSSIA IN WAR OFFICE

Officials to be Court-Martialled on Charges of Bribe-taking and Treason — Big Gun Company Involved.

Berlin, July 16.—Several officials employed in the Prussian war office, holding the rank of officers, will be tried by court-martial on July 29. They are charged with accepting bribes from the Krupp Company and with treason.

The trial will be held behind closed doors, all those taking part having been sworn to secrecy. It has not been learned how many officers are involved, but it is known that four attorneys have been retained to defend them, giving reason for the belief that there are, at least three or four accused.

The institution of these trials is the result of an investigation of sensational allegations made by Herr Liebknecht, a socialist, in a speech in the Reichstag last April. He said that the Krupp Company kept in Berlin an agent whose business it was to bribe army and navy officials in order to obtain an insight into official documents.

At that time General Von Heintzen, the minister of war, belittled Herr Liebknecht's disclosures, declaring that only a few non-commissioned officers were involved.

It is the old story of an old quarrel that was never healed, Sutherland who was in the slonofsky rush and made good financially, had a fine farm and was most industrious but loved to fight. He was at enmity with McLeod, who, like Sutherland, was not of the type to run from a quarrel or seek to retreat. McLeod, too, was an industrious young fellow, unmarried, living with aged parents to whom he was a great support.

The preliminary hearing takes place Monday.

OLD QUARREL LED TO FIGHT

Inquest Yesterday Into Death of Neil Sutherland of Pictou Co.

McLEOD, ENEMY FOR MANY YEARS.

Sutherland the Aggressor — Fatal Blow Struck by McLeod Causing Concussion of Brain and Death.

Special to The Standard.

Halifax, July 16.—The jury at the inquest touching the death of Neil Sutherland of Seaford, Pictou County, rendered a verdict to the effect that Sutherland's death was caused by blows delivered by George McLeod with a neck yoke.

The coroner was J. R. Colie, M. D., of River John, and the witnesses examined were John R. Sutherland, in whose barnyard the quarrel took place, Miss Annie Sutherland, sister of John R., not a relative of the deceased, Chester Sutherland, seventeen years old, son of deceased, and physician. The evidence goes to show that Sutherland put off his coat and wanted to fight. He had not long to wait for an opponent. McLeod and he wrestled and fought until McLeod threw him and beat him when John R. Sutherland interfered.

Neil Sutherland, according to his son's evidence, chased McLeod into the house with a stone in each hand and then threw a stone at McLeod's feet. McLeod then came out and seized the neck yoke, struck Neil Sutherland, knocked him down, and continued to beat him until John R. Sutherland interfered.

The doctors agreed that death was due to a blow or blows on the head which caused concussion of the brain although they could find no fractures on the skull or other bones.

It is the old story of an old quarrel that was never healed, Sutherland who was in the slonofsky rush and made good financially, had a fine farm and was most industrious but loved to fight. He was at enmity with McLeod, who, like Sutherland, was not of the type to run from a quarrel or seek to retreat. McLeod, too, was an industrious young fellow, unmarried, living with aged parents to whom he was a great support.

WILL SIGN PEACE ONLY IN CAPITAL

Servian, Greek and Roumanian Armies Will March to Sofia.

TURKISH FORCES ALSO AGGRESSIVE.

They Have Occupied Much Bulgarian Territory Principally to Have Heavier Voice in Final Settlement.

Saloniki, July 16.—In connection with the arrival of a high Roumanian officer at the Greek headquarters today it is reported that the Greek, Servian and Roumanian armies will all march to Sofia, where peace will be signed.

London, July 16.—Both Turkey and Roumania are rapidly pushing the occupation of as much Bulgarian territory as possible, not ostensibly with a view to permanent occupation, but in order to procure for themselves a weightier voice in the final settlement.

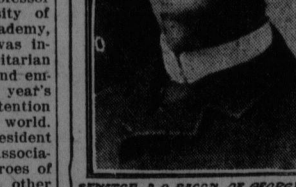

King Charles of Roumania, has gone to join his army headquarters; the Turks have occupied Lile Burgaz, Hunarhisar, and Visa, and are marching in the direction of Kirk Killiseh. The Greek army is also pressing forward and has occupied Nevrokop, considerably to the north of Demotrisar. The Servian and Greek premiers have held a meeting at Uskub and are agreed as to the terms to be imposed on Bulgaria.

Horrifying details of alleged Bulgarian massacres and atrocities continue to pour from Saloniki, and the powers have appointed consular commissions to investigate the truth of these reports.

WILL REVISE THE ONTARIO STATUTES

Toronto, July 16.—Lawyers are congratulating themselves today on the report that the long expected revision of the Ontario Statutes, due in 1907, is at last completed, all but a little work on the index. Until now the profession has had to content itself with the revised statutes of 1897, with the innumerable amendments and new statutes since that time scattered throughout a score of volumes. The work of revision has occupied the committee seven years.

"KNOCKED OFF MY PINS," IMPROPER IN SENATE

A futile attempt was made by Senator Owen to have the Senate pass a bill for the creation of a bureau of legislative experts to draft bills on the request of the President, committees of Congress, eight Senators or twenty-five representatives.

"I am so astonished at this suggestion of having a schoolmaster to do work that Senators are supposed to be able to perform that I am completely knocked off my pins," said Senator Bacon.

"Did the Senator say 'pins'?" asked Senator Lewis. The Georgia Senator responded he was so shocked he probably had used stronger words. A charge of willful murder has been placed against Bezolki, who is now under arrest.

P. E. Island Murder Case Opened at Georgetown Yesterday.

Witness Says McInnes Admitted Doing Deed.

Relatives of Victim Tell of Attack Made—Little New Testimony Brought Out—Defence Will Claim Death was Due to Weak Heart.

Special to The Standard. Charlottetown, P. E. I., July 16.—The trial of James A. McInnis, of Lakesville, against whom the grand jury brought in a true bill of manslaughter although the prisoner was indicted for murder, was begun at Georgetown today.

Witnesses examined included Elizabeth McInnis, wife of Gallian J. McInnis, the deceased, Catharine McInnis, his daughter, James McInnis, his son, and William MacDonald, who drove with the prisoner from Souris to the Gallian home the night of the tragedy. Their evidence was in the main the same as given at the inquest.

The McInnis family told of James A. coming to the house walking directly to the bedroom where the old man lay on the bed, using abusive language, handling him roughly, hauling him out of bed and back again with his hand clutching deceased by the shirt collar. James A. was accusing Gallian J. of something, telling lies about him and the old man was denying the accusation.

Most of the rough usage took place when the son, James, was at the bar with MacDonald, putting away James A.'s horse. Shortly after the two other men came in Gallian J. died. Some new testimony was given today. Catharine McInnis, a neighbor, said that the prisoner came to her home after leaving the home of deceased. He said, "I killed Gallian McInnis."

The prisoner had liquor with him. He produced a knife and illustrated how he would use it on the McInnis people when he returned after his parole. He also threatened witness if she told anything on him to launch him into jail.

The husband of witness corroborated her testimony. He also added that Gallian J. (who was 84 years old), would not know how many large fish he caught. It was thought that prisoner was enraged at Gallian J., because latter refused to let him set nets in the lake.

Marcellus McInnis testified that he met the prisoner that night after the tragedy. He told the latter that Gallian was dead. The prisoner replied he ought to have been dead years ago as he was a nuisance.

The doctors will testify tomorrow. The defence is that deceased had a weak heart and died from excitement. The trial will probably finish on Friday.

New York, New Haven and Hartford Road Takes Precautions Designed to Lessen Danger of Accidents.

New York, July 16.—An engineer who operates an express train on the New Haven road hereafter must have had two years' road experience and have complied with other requirements designed to assure the management of his competency. Local train engineers must have had a previous road experience of one year.

This was made known in a statement given out at the New York, New Haven and Hartford Railroad Company offices here, embracing an order issued by General Manager Clinton L. Fargo, with respect to the assignment of engineers to passenger trains. The issuance of the order is an outcome of the Stamford wreck investigation and is described in the statement as in compliance with the recommendation of the Interstate Commerce Commission and the Public Utilities Commission of Connecticut.
