Consul Culver writes from St. John, N. B., as follows: The declared exports of lumber and products from St. John in the United States during the last quarter of 1918 were valued at \$602,692.

The report that the government of Great Britain is to buy 1,000,000,000 feet of lumber in Canada has brought out the statement from prominent dealers that if this order is received it will be the biggest boom to the industry that Canada has experienced in the past half century.

The trouble during the past two years has been to secure labor. Only old men and boys have been available and they, even at the highest wages, could not meet the situation.

It is claimed that there is not a billion feet of lumber in all Canada available for ready delivery.

The government's spokesman said in the House of Commons today that he believed there was no shadow of foundation for reports.
