

FROM ALL OVER THE MARITIME PROVINCES

FREDERICTON

Fredricton, N. B., April 19—The lumbermen now feel that the drives will come out all right. Rain fell all day, heavy showers occurring at times, and in expectation to continue. John Kilburn left tonight for the headwaters of the St. John river with a crew of stream drivers. The majority of his men are already on the ground. He expects little difficulty in bringing out his drive, if the rain continues.

Practically no bank logs came in to Springhill today and as a consequence no sales were made. The price paid on Monday of \$16 for a lot made up of 46,000 feet of merchantable and 11,000 feet of battens is a record this season. Prices for ordinary logs remain unchanged. It is expected that with more favorable weather the farmers will raft more logs this week, and large amounts will be received at Springhill by the end of the week.

Dr. C. C. Jones, chancellor of the U. N. B., announced tonight that a new feature of an encyclopaedia programme in June would be an address to the graduating class by Hon. J. V. Ellis, of St. John. Some years ago an address was customary, but it has not been a part of the programme recently. The U. N. B. this year will graduate her first students in forestry. The class will consist of thirty-six, fifteen in arts, sixteen in civil engineering, one in electrical engineering and four in forestry. It will be the largest in the history of the college.

As far as is known, no honorary degree will be granted. There will be several candidates for the degree of M. A. and M. Sc. The rain fall here today has made the outlook for stream driving look more encouraging. There is no change in the condition of the river but as there is still considerable snow on the headwaters the rise may be expected in the course of a few days. So far no logs have reached the booms.

The Scott Lumber Company's drive on Cranberry, consisting of two million feet of pine has reached saw water. Bank logs are coming in fast at Springhill and bring good prices. Merchantable long spruce logs are selling at \$14 a thousand.

People who bring rafts to Springhill feel the need of a railway ferry. A number of them reside in the parishes of Southampton and Queensbury and in order to reach home they go by train to Woodstock then float down the river in a catamaran. Sydney Burpee has purchased the general store in Sheffield, carried on for many years by the late Charles J. Burpee.

Harold Edgecombe, son of A. G. Edgecombe of St. John, will graduate this year in forestry from the Toronto University and will spend the summer in the States.

Fredricton, N. B., April 20—The rain has brought the river up about one foot, and logs are coming into the booms. Lumbermen are now feeling fairly confident of getting their logs out safely.

Nothing definite is yet concerning the personnel of the survey parties for St. John Valley survey. Ashley Colter, son of Hon. Geo. Colter, now at McGill College, will be one of the party. It is understood that J. J. Taylor, who is now engaged as engineer on the Drummond Mines Railway in Gloucester county, will be in charge of the party on the upper river section, and Brown Maxwell, of Lincoln, will be in charge of the party on the down river section.

T. H. Bullock, of St. John, manager of the Imperial Oil Company, arrived in the city tonight. He will confer with a committee of the city council tomorrow concerning the erection of a gasoline tank here.

The nuptials of B. B. Manzer, dry goods merchant, of Woodstock, and Mrs. Sarah I. Colter, of this city, will be celebrated at the bride's home here tomorrow morning. Rev. J. W. McConnell will officiate. The couple will leave by the 10 o'clock train for Halifax, where they will embark on the S. S. Empress of Britain on a honeymoon trip to the old country.

It is raining quite heavily here today and the river is rising slightly. The funeral of J. Farrell took place this morning, and was attended by the city council and city officials, and many other prominent citizens. The body was taken to St. Dunstan's church, where high mass was celebrated by Father Carney, assisted by Fathers Cormier and Hayes. Father Carney paid an eloquent tribute to the worth of Mr. Farrell. The procession to the Hermitage, where interment was made, was very lengthy. The pallbearers were Judge Barry, T. H. Bliss, D. Lenihan, J. McMurray, Daniel Elliott and G. Y. Dilley.

MONCTON

Moncton, April 19—The last basket ball game of the season was played in the Y. M. C. A. gymnasium this evening between the Moncton High School and Hopewell Cape team. The Moncton team won by a score of 20 to 15 after ten minutes' overtime play. The teams were: Moncton—Means and McDonald, forwards; Taylor, centre; Trites and Armstrong, defence. Hopewell Cape—Tyrre and Tingley, for-

wards; Hoar, centre; McNaughton and Fowles, defence. Charles Cook, of Sackville, in the hospital here with a broken skull, is reported much improved tonight. He is able to converse and seems brighter in every way. Hopes are now entertained for his recovery.

The state council of the Knights of Columbus for the maritime provinces and Newfoundland will hold a three days' convention in Moncton the second week in May. An elaborate programme is being arranged for the entertainment of the visitors. Degrees are expected to be conferred on some fifty new candidates for membership.

Monday, April 20—The school board tonight passed a resolution expressing the opinion that the compulsory education act should be brought into force in Moncton at once, and directing the city council to attend to the matter. Chief Rideout submitted a report to the school board, giving the names of fifty children of school age, found running the streets and not attending school. This was used as an argument in favor of compulsory education, and the necessity for a new school building in the West End of the city. It was stated that plans for the new building are being prepared by F. Neil Brodie, of St. John, and would be ready in ten days.

Guy Turner, principal of St. Martin's school, was an applicant tonight for a position on the Moncton teaching staff. The application was filed. The body of the late Mrs. Jphia Chandler, of St. John, was laid to rest today at Dorchester. The funeral service was conducted by Rev. Mr. Hall at Trinity church, and was largely attended. Friends were present from Moncton, Sackville and Amherst.

The New Brunswick Dental Association will hold its annual convention in Moncton July 12 and 13 next. The local society is at work preparing a programme. A trip to the oil and gas wells in Albert county is contemplated. The Intermediate Baseball League have arranged to open the season the first week in May.

Moncton, N. B., April 20—(Special)—A bad fire occurred at 6 o'clock this evening in a boarding house kept by Mrs. R. A. Knight, at the corner of St. George and Wesley streets. The blaze started in a closet in the second story, being caused by a defective chimney. The house was badly gutted by fire and water and considerable damage was done to the furniture.

Miss Stevens, who boarded in the house, lost nearly all her clothing, and the other boarders in the house made a hasty exit with their belongings. The house was owned by Mrs. Knight's mother, Mrs. R. M. Stevens. There was \$2,000 insurance on the building and \$1,000 on the furniture, which will cover the loss.

PERTH

Perth, N. B., April 19—John Burgess and Charles Burgess, who belong in Caribou (Me.), were arrested at Watake, a few miles below Plaster Rock, this morning by Chief of G. T. P. Police Foster and Officer Pearson. The charge against them is that of keeping a disorderly house at Watake. They were brought to Perth and handed over to Thomas Cameron, Canadian immigration officer, for deportation with the understanding that if they stay on their own side of the line they will not be prosecuted.

There were two women in the house at the time of the raid but these were not arrested. One of the women is a daughter of one of the men taken into custody. Cameron took the men over the line yesterday afternoon.

The council's election for the parish of Andover took place today to fill the vacancy made by the unseating of James Porter on account of his nomination papers not being legally filed. Mr. Porter was elected last fall by a majority of three votes over Frank Henderson. The contestants in the election today were Mr. Porter and Mr. Henderson. Mr. Porter was again elected, by a majority of thirteen votes. Only about a quarter of the voters of the parish took the opportunity to exercise their franchise. Mr. Henderson is said to have managed on account of being so ill that he could take no active part in the contest.

Circuit court convened here today but adjourned as there was no business. Several civil cases to have come up were settled out of court.

Senator Baird arrived home from Ottawa by this afternoon's train.

CHATHAM

Chatham, April 19—Two new tugs will be in commission on the Miramichi this summer. Sheriff O'Brien, of Nelson, is having a new tug built by the Miramichi Foundry Company to be used for towing on the river in connection with his lumber business. The new tug will be 56 feet long, 13 feet beam and will have four feet draught. She will be equipped with a 75 horse-power engine and with an up-to-date tubular boiler of 150 pounds pressure. The frame is double and made of juniper and she is planked with birch and black spruce. She will be named the J. O. B. Hugh Lamont, of Douglas town, will also have a new tug very similar in dimensions

and equipment to the J. O. B. She will be 55 feet long, 12 feet beam and will have four feet draught. Her engine and boiler will be the same as the J. O. B.'s in capacity, the difference being that her boiler will be of the submerged type. The design of the new tug is by W. J. Poupore Co., Ltd., is being fitted with a new boiler.

The Norwegian bark Skein arrived at Fredericton on Monday morning. She was chartered by the St. John and Miramichi this year, the date being the earliest for many years. She will be loaded at Newcastle by the Wm. Richards Company.

The Sisters of Charity, who conduct the hospital known as the Hotel Dieu, are considering the plans for a new hospital of greater capacity. It was at first proposed that a wing be added to the present hospital, which is a wooden structure. William E. Doane, an architect of Montreal, when brought to Chatham to take the matter up with the mother superior, advised the sisters to build an entirely new hospital. Two plans have already been made and submitted by Mr. Doane, but each was too expensive and a third is now being prepared. Work upon the new structure has already commenced, a number of workmen being engaged at excavating on the site of the proposed new hospital, which is on the hospital grounds and fronting on Loban avenue, and directly in front of the entrance to the Hotel Dieu.

The plan of the new building calls for a central portion 120x50 feet and two wings, each 70x45. The central portion will be built at present and the wings added as soon as financial conditions warrant further work. The new hospital will be three stories high, the first being a wooden structure, the second and third being of brick. The building will be given exclusively to private rooms and the third floor will contain the operating room and its dependencies. The building will be erected on the site of the old hospital, which is on the hospital grounds and fronting on Loban avenue, and directly in front of the entrance to the Hotel Dieu.

ANOTHER MIRACLE IN OVA SCOTIA

Thought the Disease Was Cancer of the Stomach

"FRUIT-A-TIVES" Cured Him

SYDNEY MINES, N. S., JANUARY 25TH, 1910.

"For many years I suffered torture from indigestion and dyspepsia. Two years ago, I was so bad that I vomited my food constantly. The agony I endured all these years, I cannot describe and I lost over 25 pounds in weight. I also suffered with constipation which made the stomach trouble worse. I consulted physicians, as I was afraid the disease was cancer but medicine gave only temporary relief and then the disease was as bad as ever.

"I read in the 'Maritime Baptist' about 'Fruit-a-tives' and the cures this medicine was making and I decided to try it. After taking three boxes, I found a great change for the better and now I can say 'Fruit-a-tives' has entirely cured me when every other treatment failed, and I reverently say 'Thank God for Fruit-a-tives'!"

EDWIN ORAM, Sr.

"Fruit-a-tives" sweetens the stomach, increases the flow of gastric juice, strengthens the stomach muscles, and insures sound digestion. The wonderful powers of the famous fruit medicine are never more clearly shown than in curing the apparently hopeless cases of Dyspepsia and Constipation. 50c a box, 6 for \$2.50, or trial size, 25c. At dealers or from Fruit-a-tives Limited, Ottawa.

considerable money. However, once secured the plan can be consistently followed year by year, so that the district will eventually have grounds second to none in the province and comparable to those of the Rittenhouse School in the province of Ontario. The members of the High School are undertaking the raising of the money by public subscription in order that all may have a personal share and pride in the work. Thus, too, the citizens of the surrounding sections may have the advantage of the expert knowledge of an experienced landscape gardener and horticulturist through the suggestion of examples of the work on the school grounds.

Arbor Day will be observed May 8. Some talk is going around of a school exhibit day next fall. The day would be devoted to exhibits of school work, manual training, domestic science, school gardening, writing, composition, drawing, etc. Work on the school grounds has not yet begun, though plans, it is understood, are well advanced.

James Crocker came in on today's train to assist D. W. Harper, manager of the Bank of New Brunswick, for a short time. Mr. Crocker is from the head office, St. John, and his parents live here.

Schooner C. T. Colwell sailed today. Pilot Arthur Edgett took her in tow with his gasoline boat. Capt. James Dixon commands the schooner.

Norton, N. B., April 18—Fred. Gillis, of Millstream, has bought a farm near Norton and intends erecting a new house upon it this spring.

Miss Alice Noddin, of Moncton, is assisting her sister, Miss Pearl Noddin, in the millinery business.

R. G. Innis is building an addition to his store. The front of the new department is to be occupied by the Bank of New Brunswick.

Rev. Father Byrne was able today, for the first time in many months, to visit his parents in Sussex. During the winter months his many friends desired of his recovery, but with the coming of spring his health has improved slightly.

Mrs. Susan Byron is attending business college in St. John.

Claude Allan, who has been visiting Miss Ella Stark, left today for Montreal. Rev. C. G. Pincombe, with his daughter Grace, attended the Sunday school convention held at Hampton today.

Mrs. Elizabeth Parlee has returned from a six months' visit in Hartford and neighboring cities.

Miss Hazel Bell, of St. John, is visiting Mrs. Samuel Allison.

Herbert Innis conducted service in the Municipal Home yesterday afternoon.

Hopewell Hill, April 19—The stream drivers at work for I. C. Prescott on the upper waters of the Crooked Creek, came out on Saturday, the drives being hung up on account of low water. There is however plenty of snow in the woods yet, and a good rain is likely to make conditions satisfactory for the bringing of the logs to the booms. There are about 3,500,000 feet on the Crooked Creek.

W. J. Carveth's mill finished sawing a cut of 300,000 ft. of the Chapman Creek today and will move to Calleton to saw a cut of similar proportions for Leonard & Bishop. McClellan's mill has finished sawing G. M. Russell's cut of some 500,000 feet at Lower Cape.

Alex. Rogers went to Moncton yesterday on a business trip. A. C. M. Lawson, of Norton, of the North American Insurance Company, was in the village today. Mr. Lawson was at one time principal of the superior school here, and his old friends were pleased to see him.

The first seed sowing of the season, is being done this week. This is probably a couple of weeks earlier than last year.

Salvation Army Wedding at Moncton. Moncton, N. B., April 20—(Special)—A halahujah wedding was solemnized at the local Salvation Army barracks this evening at 8 o'clock, by Brigadier Adby, of St. John, assisted by Captain Barr and Capt. Miller. The contracting parties were Sidney Mayes, of Moncton, and Miss Howland, who lately arrived from England. After the ceremony the event was celebrated by a soldiers' banquet.

Ontario Horses and Cattle Poisoned. Toronto, April 19—(Special)—David Gee, a farmer near Scotland village, had three cows and three horses poisoned by some person mixing Paris green with their feed.

PREPARE NOW TO MAKE EVERY MINUTE COUNT AT HARVEST TIME

FOR you must make every minute count then to be sure of getting the full profit from your acres. Smooth, rapid, uninterrupted work is a necessity when the grain is ripe for cutting. Every delayed due to a slow, inefficient broken-down machine will rob you of a part of the reward you have a perfect right to expect.

You have used great care in preparing the ground—sowing the seed—caring for it while it is growing. Don't, through lack of foresight now, run any risk of making valueless at harvest time the hours of labor spent in preparing it.

Be prepared to get all the crop with a McCormick. Your grain may be tangled or down. It does not matter, a McCormick Binder will pick it up quickly and bind it in the best possible shape.

The McCormick Binder is made to meet the requirements of the Canadian farmer. It does so on no other machine does. It has stood the test of time. Its light draft, strength and uniform good work will permit you to save all your grain with the least labor on your part.

The McCormick line embraces a large number of other machines just as valuable as the binder, such as drills, tillage implements, cream separators, wagons, hay presses, mowers, spreaders and motor vehicles.

Every McCormick machine is the superior product of expert designers and skilled workmen. Look over your machines today. See what you need to properly handle the harvest this year. Then call on a local dealer or write direct for further information. Take the step now that will insure your getting all the profit from your harvest.

John LeLacheur, Jr., 44 Germain St. P. Nase & Son, Limited, Indian town, St. John, N. B.

WOULD COME TO NEW BRUNSWICK RATHER THAN GO TO THE WEST Land is Cheaper Than in Ontario, and Prices for Farm Products Better—Our Agricultural Situation as Seen by an Outsider.

(Farmer's Sun, Toronto.) Andrew Elliott, who returned last week from a farmer's institute campaign in New Brunswick, presents a somewhat gloomy picture of agricultural conditions in that province. "There is," said Mr. Elliott, to the Sun, "200,000 acres less under cultivation in New Brunswick now than there were twenty-five years ago. That statement becomes all the more significant when it is remembered that the total area under cultivation in New Brunswick is only about one and one-half million acres. There are abandoned farms everywhere, while many are selling at less than the cost of the buildings.

"The condition is further illustrated by the fact that New Brunswick, which should be an exporter of agricultural produce, is compelled to import immense quantities of feed from other quarters. The town of Sackville last year imported \$100,000 worth of feed, largely grain and flour, while Elgin, not far away, imported to the extent of \$60,000.

"The chief cause of the trouble seems to be found in the fact that the original settlers were not farmers, and that the country was poorly settled. The first settlers were United Empire Loyalists who were granted lands, so many chains fronting on a waterway, with a somewhat indefinite extension to the next watershed. The result of this is that there are many farmers there today who do not know just how far back their land goes from the water. I found one man whose farm extended seven miles back and other farmers, in going to their land, had to trespass upon them. The chief cause of the trouble, as I say, is, however, that the original settlers were not farmers and did not seem inclined toward agricultural pursuits. Here in Ontario, the sons of the pioneers after assisting to clear up the homestead, went and took up bush farms of their own. In New Brunswick instead,

A WONDERFUL REMEDY ORANGE LILLY Orange Lilly is daily curing the most obstinate cases of Female Disorders, Falling of the Womb, Leucorrhoea, Painful and Suppressed Menstruation, etc., etc., are all cured by its use, and a few weeks' or months' treatment accomplishes a complete cure. This remedy is a positive, scientific preparation, and is based on the certainty of the known laws of chemical action. As it comes in direct contact with the diseased tissue, its antiseptic and nerve-food properties cannot help have a beneficial influence. I receive from 10 to 20 letters daily, speaking of the benefits and cures it is performing, and so sure am I that it will do what is claimed for it that I will send, absolutely free, a 35c box to every suffering woman who will write for it. Price, \$1 per box, which is sufficient for a month's treatment. Address, MRS. FRANCES E. CURRAH, WINDSOR, ONT., at 25c, a box.

AWFUL POST

Fred L. Cameron Never Heard

Romped Home Winner from 13 competitors

Time Was Fast—Soldian's Finished Twenty—Two Thousand People Nova Scotia Run Crossed the Line

Boston, April 19—Fred L. Cameron (N. S.), and his Canadian runner, captured honors in the Boston Athletic Association's fourteenth annual race today over the twenty state road from Ashland. While no records were set for the time of 2 hours, 28 minutes was the third best time. Marathon run, and was 28 seconds behind the Indian Longboat, the Indian.

It was a hard day for only James J. Piggott, and William W. Wiseman, who have been runners, scored today. It was a perfect road race today over the twenty state road from Ashland. While no records were set for the time of 2 hours, 28 minutes was the third best time. Marathon run, and was 28 seconds behind the Indian Longboat, the Indian.

With the exception of the start, the little Amherst saw the heels of a competitor the honor of being the first to cross the line. The pace started to finish.

That Clarence H. De M. was second, was due to his beating out James J. Piggott in the last three miles. The other of the Toronto team while R. E. McCormack, came in sixth. Charles Cook (Ont.), was sixteenth; J. G. Wolfe, of Dartmouth, came in nineteenth, giving seven the team of thirteen Canadian.

Cameron ran a well-planned shaking loose from the rest of Ashland, with D. S. Toronto to make a pace-maker rapidly dropped and the lead as they scurried through square. Fifty yards more Canadians—James J. Cook, Bernard Buxton and Cameron, Chas. A. Patt, Near and Gordon W. Wolf so that it was practically finished.

On the start, Sheridan dropping Cameron to make the time the company could not hold out and more than a score. Natick was gained in four and at Wellesley, where Cameron's shrill cries of "Cameron is still in the lead" were still in the air. Every struggling along in see the hill to the Charles Lower Falls, wound the highly-clad athletes, even by ever increasing through the crossing of the hill. The hill, swung round into the Aburdale and at the broad boulevard of point was 1:30.30.

Cameron Had the Sp Then came the first red of more than a half mile grade. But Cameron never skipped over the hill, then hurried along over the level for five miles more second and longest of the

Mr. George Andrews writes: "For many years I have suffered from chronic Constipation. I never could get any relief. I have been a victim of this disease for many years. I have tried many medicines but none seemed to do me any good. I was very weak and my health was suffering. I was very nervous and my sleep was disturbed. I was very unhappy and my life was a misery. I was very poor and my family was suffering. I was very lonely and my friends were far away. I was very sad and my heart was broken. I was very tired and my body was aching. I was very ill and my life was in danger. I was very desperate and I was ready to give up. I was very hopeless and I was ready to die. I was very lonely and my friends were far away. I was very sad and my heart was broken. I was very tired and my body was aching. I was very ill and my life was in danger. I was very desperate and I was ready to give up. I was very hopeless and I was ready to die. I was very lonely and my friends were far away. I was very sad and my heart was broken. I was very tired and my body was aching. I was very ill and my life was in danger. I was very desperate and I was ready to give up. I was very hopeless and I was ready to die. I was very lonely and my friends were far away. I was very sad and my heart was broken. I was very tired and my body was aching. I was very ill and my life was in danger. I was very desperate and I was ready to give up. I was very hopeless and I was ready to die. I was very lonely and my friends were far away. I was very sad and my heart was broken. I was very tired and my body was aching. I was very ill and my life was in danger. I was very desperate and I was ready to give up. I was very hopeless and I was ready to die. I was very lonely and my friends were far away. I was very sad and my heart was
