Lieutenant-Colonel Charles Drury, Provincial Aid-de-Camp.

### LIGHT HOUSES IN THE BAY OF FUNDY.

*Seal Island Light.*—The first Light in approaching the Bay of Fundy, is on the South Point of the Seal Island. This Light is elevated about 80 feet above high water mark, and may be seen approaching the Island from any point of the Compass. A very dangerous rock, under water, but upon which the sea always breaks called the Blonde Rock, lies about two miles S. S. W. by compass from the Light House. Between this rock and the land, there are some dangers, the ground is rocky throughout, and large Vessels therefore ought not to attempt passing between them.

*Bryer Island Light.*—In advancing up the Bay, the next Light is situated on Bryer Island, about half a mile North East from the North West Point thereof. This Light though placed in a situation where it may be very useful, has not heretofore answered the intended purposes, owing to the bad constitution of the Lantern and Lamp. The Province of Nova-Scotia has however taken this object into serious consideration, and no doubt there will be a better Light established in the course of next Summer (1832.)

*Annapolis Gut Light.*—The next Light on the Coast of Nova-Scotia, is placed at the West side of the Gut of Annapolis; from Bryer Island North Eastward, this coast is very bold and
