

IMPEACHMENT

(Special to The Daily News)
Victoria, Jan. 16.—Press Galey Legislative Assembly—There was a large attendance of members at the opening of the legislature this afternoon. The customary formalities were observed and everything passed off very quietly, although a report that the socialists were going to create a disturbance had brought out a strong force of police, regular and special.

After the speaker had taken the chair, Hawthornthwaite moved adjournment to bring on a motion impeaching the lieutenant-governor, claiming it to be a matter of great public importance. He submitted his motion in writing, but the speaker ruled that it was not of sufficient urgency and refused to read it.

Hawthornthwaite then asked to be allowed to state the nature of his resolution, urging that the house was being deprived of its rights and privileges. Mr. speaker Pooley called him to order and Hawthornthwaite appealed against the ruling, with the result that the speaker was sustained.

The only other business transacted, in addition to the reading of the speech from the throne, was the introduction of attorney-general Bowyer, who was rejected since last session and the first reading of a bill to amend the Supreme Court Act. House adjourned until 2 p. m. tomorrow.

The speech from the throne was as follows: Mr. Speaker and Gentlemen of the Legislative Assembly:

In meeting you again at the opening of another session, it is my privilege to be able to congratulate you on the prosperity which, during the past year, has prevailed in nearly all lines of trade and industry. The commission on irrigation, the appointment of which was authorized last session, has entered on its duties, and its report and recommendations will be submitted to you. In accordance with these recommendations legislation will be introduced to secure a more equitable and efficient system of distribution of water for irrigation purposes.

The large increase in immigration with the consequent demand for lands under preemption, warrants my government in asking you to place a large sum in the estimates for any extension of the provincial surveys.

A measure will be laid before you with a view to the restriction of the immigration of undesirable persons.

With the aim of encouraging and expediting railway construction, it is proposed to exempt from taxation for a period of 10 years, from the time of completion, certain railways already authorized. To do this you will be asked to pass an act empowering the government to grant such exemptions. In accordance with your recommendation that a representative of the government should be sent to London to lay before the imperial government the fact of the refusal of the federal government to entertain British Columbia's claim for more adequate and equitable treatment in the matter of provisional subsidies the honorable, the first minister, was assigned to undertake the duty, and his report of his mission and its results will be laid before you.

In order to secure a more efficient service in the conduct of the public business it has been thought desirable to regulate civil service, and a measure for effecting that and creating a superannuation fund will be submitted for your approval.

With a view to obviate the necessity of our youth going abroad to perfect themselves in the arts and sciences, an act to establish a provincial university will be introduced during the session.

For the more convenient prosecution of public works under appropriations by the legislature and with the object of securing uniformity between the federal and provincial systems in the method of accounting and the methods of statistics, it is deemed advisable to change the commencement of the financial year from July to April.

I am pleased to be able to inform you that the finances of the province are in an excellent condition. This has enabled my government to effect a large reduction in the public debt, while still able to show a substantial surplus over the actual expenditures.

Measures will be submitted to you designed to secure to the province the full benefits that should accrue to the treasury from the utilization of its resources.

The public accounts for the past financial year, and the estimates for the ensuing similar period will be laid before you. The estimates have been framed with regard to economy, while providing for the outlay necessary to meet the requirements of the public service in a province, the scene of important industrial development.

On account of the increase in the demands for public works and buildings and the development taking place in the northern part of the province, it is deemed advisable to create the office of minister of public works, and you will be asked to approve of an amendment to the constitution to effect that.

I now commend those various measures to your attention, believing that their adoption will be to the advantage of the province and the welfare of the people.

YMR NEWS NOTES

(Special to The Daily News)
Ymir, Jan. 16.—Clarkson Bros., of Ymir are engaged in getting out a large order of cedar planks.

The section house here was totally destroyed this morning by fire, the contents being all foreigners had narrow escapes and lost everything, one having \$70 in cash burned.

Roger Clarkson and bride have returned from Toronto and have taken up their residence on Second avenue.

The Presbyterian ladies' Aid gave a successful entertainment last evening.

Dr. Judson Clark of Vancouver, has been inspecting them on Porcupine creek, owned by the Active Gold Mining company of Cincinnati. The limit comprises some 500 acres.

STRICT RULES

(Special to The Daily News)

Ottawa, Jan. 16.—When the house met the premier, replying to R. L. Borden, said the postmaster-general would be in a position to fix a date before the end of the week on which he would make an explanation to the house. He also said there was absolutely no truth in the report that the Halifax garrison will be replaced by British troops.

Hon. W. S. Fielding entered into a lengthy explanation of the terms of the convention with France which the Hon. Broder and the British ambassador negotiated last fall. The resolution on which that was based having been adopted without comment by an understanding with the opposition leaders.

Fielding dealt first with trade with Britain, pointing out that trade with Britain had increased from ninety-eight millions to two hundred and eighty millions in the last 10 years, however it was apparent that this was not sufficient to reach the world's markets. Sir Charles Tupper's treaty with France was a step in the right direction, but there were two objections: Canada got but a limited list of advantages in comparison with those accorded, and certain things were required to be shipped direct to obtain the advantage of a minimum tariff.

After mentioning the diplomatic difficulties, among which was a provision of the old treaty according to favored nation clause, which might be accorded other nations, the objects of the negotiation were summarized as follows:

1. To remove inequalities in conditions fairly reciprocity to guard against concessions injurious to any Canadian interests; to reserve, as far as possible, the British preference established by the tariff policy of last session, and while granting France the favored nation agreements to reserve the right of making any tariff arrangements we see fit and desirable to confine them as much as possible to French specialties which are unlikely to compete to any large degree with our own or British industries and to secure the favored nation treatment for such articles as we have for export or may reasonably expect to have in the future.

Fielding, going into details, said the French government claims that the difference between the French minimum and maximum is greater than that between Canada's intermediate and general, and this is the reason some articles were from 1/2 to 5 per cent on a tariff ranging from 15 to 30 per cent, the French reductions ranging from 20 to 60 per cent on higher duties. There-fore France was granted special rates, generally at preferential figures, on specialties which would not compete with British. Such items were wheat, macinees and iron in large quantities. This was very close to British preference and this was the only article which might be competitive.

The minister gave a list of nations which are entering into the favored nation treatment when the French treaty goes into force: Argentina, Austria-Hungary, Bolivia, Columbia, Japan, Denmark, Russia, Spain, Sweden and Persia. Closing, the minister said, though the treaty was for 10 years it was terminable at a year's notice.

In answer to Foster, Fielding said the treaty would cause an approximate revenue loss of \$4000.

Fielding's speech occupied the entire afternoon after recess. Foster opened his criticism. He accused the government of making a treaty which was granted comparative tables of France-Canadian trade. He said we were getting no better treatment than 30 other nations, nor as good as 34 others.

He gave nothing we have not now. He concluded by expressing the belief that the convention would reduce the British preference to 6 per cent.

A depiction of the Canadian growth, representing 18,000 acres of wine culture and \$2,000,000 of invested capital, waited on the premier and Fielding today in reference to the wine tariff in the French convention. They desired assurance that it will provide for the exclusion of surlous French wines, such as are already forbidden in France as said to be made with chemicals. If the law remains as this delegation claims, their industry will be almost totally destroyed. The ministers promised.

Thirteen amateur companies have so far entered for the governor-general's musical and dramatic competition which is to be held in Ottawa the week commencing Feb. 24. Lively contests are already assured.

The railway commission has issued a series of orders requiring the railways of the dominion to equip all their passenger cars with fire extinguishers, forbidding the use of coal as fuel for railway purposes, requiring railways to maintain inspection of all wooden trestles during the midsummer months so as to guard against the occurrence of fires and to maintain along the prairie sections sufficient fire guards, as preventive against damage to crops. These fire guards are to be ploughed and kept rid of wood and inflammable material. The railways are also ordered that locomotives be fitted with screens of mesh so as to minimize risk from sparks. Inspectors are to be appointed by the railways to ensure due observance of these requirements and examinations are to be made of all locomotives at least once a year. Penalties are provided for infractions of any of these orders, and the inspectors of the Railway Commission staff will see that they are carried out.

It is understood that after the present session of parliament a commission will be appointed to investigate the question of forest preservation throughout Canada and the desirability of either prohibiting altogether or imposing an export duty on the shipment of pulp wood from Canada to the United States.

NELSON'S PUBLIC WORKS

REPORT OF CITY ENGINEER LAURENCE FOR 1907

BUILDING PERMITS ISSUED DURING YEAR TOTALLED \$95,170

City engineer Laurence's report for 1907 reads as follows: To the Mayor and Aldermen of the City of Nelson:

Gentlemen—I beg herein to submit my report on the work done under my supervision during the year 1907.

The supply from Cottonwood creek has been uninterrupted, and the pipe is in fair condition. During the spring some protective work was done to the pipe line, and also to the training walls at Fiske street, but no damage occurred through spring freshets.

The Anderson creek flume is in poor condition, but the supply has been an abundant one and there is still a full head of water. The Whitewater flume is in a dilapidated condition and practically no water is now carried by it to Cottonwood lake.

The gate and dam at Cottonwood lake have undergone slight repair, but are not in good order.

During the year all the large users of water, with the exception of the Kootenay Engineering works, who are now fitting up, have installed electric motors, and consequently a large proportion of the waste has ceased, and the average pressure at the fire hall during the last few months has been 115 pounds. The 4-inch and 6-inch mains in the city, and an extension from the city limits throughout Chatham street and Nelson avenue to Golden street, by a 6-inch main has been carried out. Also an extension by an inch pipe from High street to Pine, Union and Selwyn streets, and an inch pipe from Hall street to the recreation grounds.

Six 12-inch mains have been purchased but are not yet installed. Length of new mains—6-inch, 3900; 1-inch, 1500; total, 5400.

Number of houses connected, 1907, 23.

There has been no trouble with any of the sewers throughout the year, and in May and June all the sewers through-out Baker, Vernon and Victoria streets were thoroughly cleaned.

In accordance with your recommendation that a representative of the government should be sent to London to lay before the imperial government the fact of the refusal of the federal government to entertain British Columbia's claim for more adequate and equitable treatment in the matter of provisional subsidies the honorable, the first minister, was assigned to undertake the duty, and his report of his mission and its results will be laid before you.

In order to secure a more efficient service in the conduct of the public business it has been thought desirable to regulate civil service, and a measure for effecting that and creating a superannuation fund will be submitted for your approval.

With a view to obviate the necessity of our youth going abroad to perfect themselves in the arts and sciences, an act to establish a provincial university will be introduced during the session.

For the more convenient prosecution of public works under appropriations by the legislature and with the object of securing uniformity between the federal and provincial systems in the method of accounting and the methods of statistics, it is deemed advisable to change the commencement of the financial year from July to April.

I am pleased to be able to inform you that the finances of the province are in an excellent condition. This has enabled my government to effect a large reduction in the public debt, while still able to show a substantial surplus over the actual expenditures.

Measures will be submitted to you designed to secure to the province the full benefits that should accrue to the treasury from the utilization of its resources.

The public accounts for the past financial year, and the estimates for the ensuing similar period will be laid before you. The estimates have been framed with regard to economy, while providing for the outlay necessary to meet the requirements of the public service in a province, the scene of important industrial development.

On account of the increase in the demands for public works and buildings and the development taking place in the northern part of the province, it is deemed advisable to create the office of minister of public works, and you will be asked to approve of an amendment to the constitution to effect that.

I now commend those various measures to your attention, believing that their adoption will be to the advantage of the province and the welfare of the people.

YMR NEWS NOTES

(Special to The Daily News)
Ymir, Jan. 16.—Clarkson Bros., of Ymir are engaged in getting out a large order of cedar planks.

The section house here was totally destroyed this morning by fire, the contents being all foreigners had narrow escapes and lost everything, one having \$70 in cash burned.

Roger Clarkson and bride have returned from Toronto and have taken up their residence on Second avenue.

The Presbyterian ladies' Aid gave a successful entertainment last evening.

Dr. Judson Clark of Vancouver, has been inspecting them on Porcupine creek, owned by the Active Gold Mining company of Cincinnati. The limit comprises some 500 acres.

NEW COUNCILS

(From Friday's Daily)

The elections yesterday passed off very quietly, there being, unusual for this city, very little betting on the result. In the West Ward being the known numerically, the results were known earlier than were those from the East Ward. The result of the vote was as follows:

WEST WARD
D. C. McMorris 162
J. O. Patenaude 153
G. Stead 150
W. Gosnell 126
A. T. Walley 118
J. McPhee 108
Spoiled ballots 4

EAST WARD
G. Hale 251
Kerr 272
T. P. Procter 256
G. P. Wells 233
J. Matheson 222
E. B. McDermid 180
Spoiled ballots 1

SCHOOL TRUSTEES

Candidate W. W. E. W. Total
Arthur 181 233 464
Joy 81 170 251
Holmes 90 156 246
Bastwick 88 156 244
Odlum 68 101 169
Spoiled ballots 30 59 89

Most of the spoiled ballots for school trustees were spoiled because of error in the marking of the ballot. There were nine ballots however, which were ungraced by any pencil mark.

RESULTS IN ROSSLAND

(Special to The Daily News)
Rossland, Jan. 16.—The municipal election took place today, but there was absolutely no excitement. There are 244 voters qualified to exercise franchise, 166 voting, each being able to vote for three candidates. In the East Ward, Langham, James and Tees were returned unopposed. In the West Ward there were five candidates for three places. The result was: Jones, Martin and Twaddle, returned. Eastwick, 58, and Anson, 52, were defeated. Jones, Twaddle and Anson were members of the old council, which holds its last meeting next Monday. The new council takes office the following evening.

MATHESON RE-ELECTED
Phoenix, Jan. 16.—Dr. J. Matheson won in the mayoralty contest here today over George W. Rumberger by a majority of 38.

The total vote cast was 218. The Matheson ticket also won in both wards for aldermen. The successful candidates were: L. Y. Birnie, Francis Kerr, W. J. Porter, A. D. McLean and T. Philbin. The result is an endorsement of the administration of mayor Matheson for the last year, the lid having been clamped down since he was elected, last January.

GRAND FORKS ALDERMEN

(Special to The Daily News)
Grand Forks, Jan. 16.—Frip having been elected mayor by acclamation, only four candidates for aldermen were put forward for election today. Results were as follows: East ward, Fred Clark, James McArdie, G. W. Rutherford; West ward, F. Miller, P. T. McCallum, H. E. Woodland. School trustees, I. A. Dinmore and H. C. Hannington.

BUNTING CHOSEN

(Special to The Daily News)
Greenwood, Jan. 16.—H. Bunting, contractor, was elected mayor of this city today.

MORIN FOR MAYOR

(Special to The Daily News)
Trail, Jan. 16.—In the municipal elections today, G. Morin was elected mayor by 28 majority. Aldermen were elected as follows: Sibbald, Harkness, Brandon, Dolan and Aoust.

MORLEY FOR MAYOR

(Special to The Daily News)
Victoria, Jan. 16.—Dr. Lewis Hall beat mayor Morley by 117 majority.

PLANT RE-ELECTED

Nanaimo, Jan. 16.—Mayor Plant was re-elected today with a majority of 157.

LINDMARK IN REVELSTOKE

Revelstoke, Jan. 16.—Municipal elections in the city of Revelstoke took place today and the result was a bitter and a finish. The results were as follows: Mayor, C. F. Lindmark, 4 majority; aldermen, Ward 1, W. A. Foote and J. J. Woodland; Ward 2, G. S. McCarty and E. H. Sawyer; Ward 3, J. A. Stone and W. W. Le Feaux.

CONTEST IN PHOENIX

(Special to The Daily News)
Phoenix, Jan. 14.—Yesterday was nomination day for the civic election, the candidates for mayor being D. J. Matheson, the present incumbent and G. W. Rumberger, who was defeated by Mr. Matheson a year ago, after having held the office for seven consecutive years. The nominees for aldermen are East ward: L. Y. Birnie, Robert Carson, Frank Knott, Abner Hillier, Palmer Cook and M. H. Kane; West ward: The Biner, W. J. Porter, A. D. McLean and J. Philbin. These councilmen are to be elected in each ward.

Mayor Matheson takes exception to the printed statement of Mr. Rumberger that the city's finances are now in a "deplorable condition," and in an open letter to him, which has been scattered around the city, he quotes some figures stating that while the city under his administration did not have some \$4000 in gamblers' bets, it did the previous year under Mr. Rumberger, the finances are in equally as good shape as before, the tax rate being no higher and in the last few months having had over \$5000 expenses for smallpox epidemic.

He closes by saying that if Mr. Rumberger can give his statements in open debate he will resign the contest for the mayor's chair. Increasing interest is being taken in the outcome and it is likely that a public meeting will be held tonight or tomorrow night.

KAMLOOPS NEW COUNCIL

Kamloops, Jan. 17.—The following were yesterday elected as council for 1908: Mayor, J. Robinson; aldermen, A. Noble, C. Taylor, J. H. McNab, R. Bayntun, H. Miller and J. H. Wilson.

RESULT OF LEMIEUX TRIP

(From Friday's Daily)

Tokio, Jan. 16.—The Japanese government has received notice that the report of Hon. Rudolph Lemieux, Canadian minister to Japan, is entirely satisfactory to the Canadian government, and that it would accept in good faith the verbal promise of the restriction of the emigration of laborers, relying upon the Japanese government to enforce the regulations which are outlined in its memorandum. Nothing now remains except the exchange of memorandums between the two governments.

Peter Arena vs. Lane, defendant Lane appeals against judgment for damages for breaking and taking possession of plaintiff's farm buildings as a construction camp; judgment reserved. MacDonald for Lane, appellant, Taylor for plaintiff.

Star vs. White, full court settled the judgment order; all trespass workings to be emptied an timbered forthwith at the defendant's expense, registrar to assess damages, giving full value of ore taken. Perpetual injunction granted against any entry upon plaintiff's claims, and full inspection order granted to plaintiff to act at all to prevent future trespass.

Star vs. White, full court settled the judgment order; all trespass workings to be emptied an timbered forthwith at the defendant's expense, registrar to assess damages, giving full value of ore taken. Perpetual injunction granted against any entry upon plaintiff's claims, and full inspection order granted to plaintiff to act at all to prevent future trespass.

Star vs. White, full court settled the judgment order; all trespass workings to be emptied an timbered forthwith at the defendant's expense, registrar to assess damages, giving full value of ore taken. Perpetual injunction granted against any entry upon plaintiff's claims, and full inspection order granted to plaintiff to act at all to prevent future trespass.

Star vs. White, full court settled the judgment order; all trespass workings to be emptied an timbered forthwith at the defendant's expense, registrar to assess damages, giving full value of ore taken. Perpetual injunction granted against any entry upon plaintiff's claims, and full inspection order granted to plaintiff to act at all to prevent future trespass.
