Desirable British Columbia Investments

There is no better field for investment today than the Province of British Columbia. The settlement is so rapid that values both in city and country are advancing in proportion. Our guaranteed first mortgages, owing to the comparatively high yield and absolute security, make a very attractive investment. We guarantee a net return of six per cent. and also the payment of principal and interest at the due dates.

No loan is placed for more than 50 per cent. of appraised value of any property. In loaning, only improved revenue-producing properties considered. All loans passed by our Board of Directors. British insurance companies doing business in Canada loan a large amount of their funds in this class of offering, on account of the gilt-edged security. Can you as an investor do better than follow their example?

If you are considering making an investment in lands in this province we should be pleased to go into detail on receipt of request. Ask for illustrated booklet, "Vancouver Facts."
