

Can. Naturalist, and other scientific and educatl. journals as well as in various scientific books. A monograph prepared by Dr. P. H. Carpenter, F.R.S., and Mr. R. Etheridge, and published by order of the Trustees of the Brit. Museum, refers at some length to Prof. M.'s original investigations in Palæontology, and not long since a series of illustrated articles from his own pen upon "Prehistoric Man in Utah," was published in the *Archæologist*. Prof. M. is a mem. and Fellow of a number of scientific socs., at whose meetings he has frequently presented papers and addresses on his special studies. He m. 1877, Bella M., dau. of Wm. Taylor, Millbrook, Ont.—790 Queen St. W., Toronto, Ont.

MONTIZAMBERT, Lt.-Col. Charles E., Royal Can. Arty., Can. permanent force, was b. in Quebec, Jan. 27, 1841, his father being Edward Louis Montizambert, late Law Clk. of the Senate, and his mother Lucy Irwin Bowen, dau. of the late Chief-Justice Bowen. He is descended from an old French-Can. family of note—the 1st of their ancestors who came to this country being Pierre Boucher, who was 1st Gov. of Three Rivers in 1622. The family name is Boucher de Montizambert—the Bouchers de Boucher-ville, de Niverville, de la Bruere and de la Brocherie being branches of the same family. On the maternal side, 2 of Col. M.'s grandmother's brothers were Eng. officers in the 7th Fusiliers. One of them was killed at the taking of Martinique. An uncle, Major Montizambert, of the 10th Foot, was killed while leading his men at the storming of Moul-tan, in India, so that the subject of our sketch descends from a family of soldiers. Col. M. was ed. at U. C. Coll., Toronto. He early showed a decided taste for military pursuits, and entered with great zest into the volunteer movement in 1860, being subsequently apptd. Capt. and Adj't. of the Quebec Volunteer Gar. Arty., in which corps he served till 1871.

When "A" and "B" Batteries Schs. of Gunnery were raised in that year he was transferred to the command of "B" Batt. of Permanent Arty. at Quebec, which he raised under Maj.-Genl. Strange, R.A., Commandant of the Sch. of Arty. He attained the rank of major, 1872, and Lt.-col., 1877. In 1882 Col. M. was made Commandant of the Sch. of Arty., consisting of "B" Batt., then stationed at Kingston, Ont. He was second in command of the Wimbledon team on one occasion, and was subsequently attached to the R. A. at Aldershot for the autumn manœuvres and afterwards at Woolwich for instruction. He commanded under Col. Strange on several occasions during riots in Quebec in the seventies. In the N. W. rebellion, 1885, he led the 1st corps that made the passage—the "A" and "B" Batteries, with their guns—through the ice and snow on the then unfinished portion of the C. P. Ry. around the north shore of Lake Superior, joining Genl. Sir F. Middleton's column on the trail north of Fort Qu'Appelle. He was in action at the battles of Fish Creek and Batoche (medal, mentioned in despatches and recommended for C.M.G.). He is the author of a prize essay for the medal presented by the Dom. Arty. Assn. on the supply, care, and repair of arty. material for Can. militia (1878). In 1897 he was transferred to Kingston as D. O. C. Mil. Dists. 3 and 4, and Insp'r. of Arty. for dists. 1, 2, 3 and 4. He is a mem. of the Ang. Ch., and m. 1867, Alice Lawson, young. dau. of the late Jas. Gibb, merchant, Quebec.—*Kingston, Ont.: Rideau Club; Garrison Club, Quebec.*

MONTIZAMBERT, Frederick, M.D., bro. of the preceding, was b. in Quebec, Feb. 3, 1843. Ed. at the High Sch., Montreal, at the Grammar Sch., St. John's, and at U. C. Coll. (Exhibitioner, 1858), he studied for his profession at Laval Univ. and at Edinburgh Univ. (M.D., with 1st class honours in Chemistry, Midwifery and Surg., 1864). He was
