

A SHORT INTRODUCTION TO THE STUDY OF FRENCH LITERATURE. By Professor JOHNSON. A critical handbook of the Subject, forming one of the volumes of "The Library of First Principles." Crown 8vo, 2s. 6d. net.

Dundee Advertiser :—"A careful study of some of the best French writers. A book that should prove of great service to students, and satisfy even many who have read extensively in French literature."

Daily News :—"Professor Johnson writes with great vivacity. This little book is never dull, partly because the author invites opposition."

A New Work on the Cathedrals of England.

OUR ENGLISH CATHEDRALS. By the Rev. JAMES SIBREE. Fully Illustrated by Photographs and Block Plans. In Two Volumes. Crown 8vo, 5s. net each.

"The author has, therefore, thought that there was still room for a book on these wonderful creations of our ancestors' skill and genius, on somewhat different lines from those taken by previous works on the subject." To those who have neither time nor inclination for a minutely detailed examination, the author trusts that this book may be of service; and, "he is not without hope that it may also prove to be of interest to those who, in our own country, or in our Colonies, or in the United States, may wish to have, in a brief and compact form, a sketch of English Cathedrals on the whole."

The book, however, is neither scrappy nor meagre. The buildings are adequately described, building dates and historical notes are given. There is a chapter upon the significance and growth of Gothic Architecture, upon references to the Cathedrals in English Literature (including many quotations), and also upon the relation of our Cathedrals to the life of to-day. The work is complete and thoroughly readable.

New Work upon the Legendary Amazons.

THE AMAZONS. By G. CADOGAN ROTHERY. Illustrated. Demy 8vo, 10s. 6d. net.

Extract from Introductory Chapter :—"Never, perhaps, has the alchemy of Greek genius been more potent than in the matter of the Amazonian myth. It has bestowed a charm on the whole amazing story which has been most prolific in its results; but, unfortunately, by tending to confine it to the narrow vistas of poetry, the intensely interesting psychological aspect has been somewhat obscured. Yet to us the chief value of this myth is due rather to the insight it affords into the mental workings of primitive races, the attitude of man towards that which he dreads but does not fully comprehend, than to the influence of Hellenic art and literature, fruitful in beautiful and humanising manifestation though that influence has been."

SAINTS AND MYSTICS OF ISLAM. A Series of Biographies, together with a consideration of Sufism and an Introduction. In part Translated from the German by the Rev. CLAUD FIELD. Crown 8vo, 5s. net.

THE ELEMENTS OF GREEK WORSHIP. By S. C. KAINES SMITH, M.A. Crown 8vo., 2s. 6d. net.

Manchester Guardian :—"This admirable little work is referred to by its author as a handbook. The book displays a learning and an intimacy with the most recent research on the subject which render it of the utmost interest and value to the professed student of Greek life and literature."

Pall Mall Gazette :—"We have rarely met with a more satisfactory volume in its way than Mr. Kaines Smith's work. In a short and readable form he gives a most admirable account of the most recent researches into the origins and manifestations of Greek worship. This book should be read by all who wish to become acquainted with Greek literature, in which ceremonial religion plays so large a part."
