- Veneral diseases and pregnancy, 174
- Venesection in eclampsia, 504
- Venous system, changes in, during pregnancy, 72, 135
- Ventral stalk, 26, 48
- Veratrine in eclampsia, 509
- Veratrum viride in eclampsia, 509
- Vernix caseosa, 54
- Version, 643
 bi-polar or combined, 659, 660
 external, 645
 cephalic, 644
 in breech presentations, 645, 646
 in head presentations, 646
 in transverse presentations, 647
 in placenta prævia, 478
 internal, 648
 difficulties of, 658
 effect of seizing lower and upper legs, 652
 in transverse presentation, 649
 - 656
 preliminaries, 654
 risks of, 650, 659
 steps of operation, 654
 objects of, 643
 of fetus *in utero*, 643
 podalic, in prophylactic management in contracted pelvis, 396
 spontaneous, in shoulder presentations, 359
- Vertex, occipito-posterior positions of, 272, 314
 presentation, in normal labour, positions of, 258, 265, 295
 moulding of head, 278
- Vesicle, anniotic, 20
 blastodermic, 11
 entodermic, 20
 germinal, 3
- Vesicular mole, 142
- Viability of fetus, 54
- Villi, chorionic, 29
 degeneration of, 146
 from six weeks' ovum, 30
 in placenta, 34
- Villos, fully formed, 32
 placental, attached to decidua, 35
- Vitamines in cow's milk, 592
- Vomiting, associated, 119
 differential diagnosis of, 122
 during pregnancy, 73
 hysterical, 119
 infantile, 601, 618
 in septicæmia, 559
 projectile infantile, 601
 toxæmic, 119, 120
 clinical features of, 121
 treatment of, 123
- Vulva, disinfection of, before labour, 281
 in puerperal infection, 540
 preparation of, for operation, 621
 violet coloration of, 66, 83
- Vulvo-vaginitis, gonorrhœal, 175
- WALCHER'S position, 681, 683
- Wassermann reaction in syphilis, 174
- "Waters," bag of, formation of, 220
