Secretary's Report.

Our League has under the Divine blessing had a year of prosperity in which all departments have shown activity and progress.

Our membership is now 90; made up of 45 Active Members, 20 Associate and 25 Honorary.

From May to September we held devotional meetings regularly, while from September to April inclusive, we entered upon the more varied work of the various Departments.

The Missionary Committee gave us a very thorough and comprehensive series of instructive papers on India.

The Literary work consisted of a review of Justin McCarthy's "History of our own Times."

While grateful for what we have been able to accomplish in the way of work or worship, we are hopeful and desirous to extend our membership and become more truly alive to the opportunities of doing work for the Master, becoming an ally in the most important sphere of Church work—that of training and developing Christian character.

A. EAGLESON, *Secretary.*
