\$277,113,147

TWO YEARS OF CANADIAN TRADE WITH THE BRITISH EMPIRE.

The following summary tables of the trade of Canada with the British Empire are compiled from official statistics, and cover the years ending March 31st, 1909, and March 31st, 1910. The tables are divided into three sections. Tables I. and II. are tables of aggregates, the first of the total trade of Canada being given for purposes of comparison with the figures relating to the trade with the British Empire; Tables III. to IX. give the individual figures of Canada's most important markets within the Empire and Table X. is a summary of these figures. Attention may be drawn to the fact that only in the case of the British West Indies and of the 'other colonies and dependencies" was there a decrease in the value of Canada's trade within the Empire for the two we months ending March 31st last in comparison with the twelve months ending in March, 1909:
